

PROVINCE OF MANITOBA

Annual Report and Public Accounts

For the year ended March 31, 2024

2024

LAND ACKNOWLEDGEMENT

We acknowledge that Manitoba is located on the Treaty Territories and ancestral lands of the Anishinaabe, Anishinewuk, Dakota Oyate, Denesuline and Nehethowuk nations.

We acknowledge that Manitoba is located on the Homeland of the Red River Métis.

We acknowledge that northern Manitoba includes lands that were and are the ancestral lands of Inuit.

We respect the spirit and intent of Treaties and remain committed to working in partnership with First Nations, Inuit and Métis Peoples as we walk the shared path of truth and reconciliation.

Her Honour the Honourable Anita R. Neville, P.C., O.M.
Lieutenant-Governor of the Province of Manitoba

May It Please Your Honour:

I have the privilege of presenting, for the information of Your Honour, the Annual Report of the Province of Manitoba for the year ended March 31, 2024. This document completes the government's accountability reporting for the year. The Report includes a review of the year's results relative to the government's budget. It also contains statistics and indicators of the financial health of the Province.

Included in this Annual Report are the year-end review, management's financial statement discussion and analysis, the summary financial statements and the statutory reporting required in the Public Accounts.

WHERE DOES MY MONEY GO? REVENUE AND EXPENSES AT A GLANCE

The Government of Manitoba balances almost \$22-billion of revenue, including own-source revenue and federal transfers that flow to departments and other reporting entities.

As illustrated below, provincial revenue flows from 12 different sources to departments, their agencies and entities funded by government. This year, expenses

exceed revenue by \$2.0-billion. Health care accounts for approximately 38 per cent (or \$8.9-billion) of the total expenses.

The provincial net debt, which is a measure of total liabilities less financial assets, is \$32.3-billion in 2023/24. The annual debt servicing costs are \$2.2-billion.

Millions of Dollars

INTRODUCTION TO THE ANNUAL REPORT

Manitoba's Annual Report and Public Accounts, for the fiscal year ending March 31, 2024, reflect the net financial result of the year's operations for the Manitoba government. The government reporting entity includes government departments, other reporting entities, government business enterprises and partnerships.

2023/24 Financial Results Explained: Fiscal Position

The October 3, 2023 Provincial General Election in Manitoba resulted in a change in government and the new government was sworn in on October 18, 2023.

The previous government tabled Budget 2023 on March 7, 2023.

The government's summary financial position, as at March 31, 2024, is a deficit of \$1,971-million, a decrease of \$2,344-million from the previous year's restated surplus of \$373-million and a decrease of \$1,608-million from the 2023/24 budget deficit of \$363-million.

The financial results for the year ending March 31, 2024 were influenced by a combination of factors that placed significant upward pressure on expenses and downward pressure on revenue, resulting in a substantial increase to the deficit compared to budget.

Total summary expense is \$1,023-million higher than budget. The increase in expenses compared to budget predominately reflects the settlement of several collective agreements in the health sector, including recruitment, retention and well-being incentives. The collective agreement settlements and price and volume

pressures in the regional health authorities contributed to the \$958-million over expenditure in Health, Seniors and Long-Term Care.

Total summary revenue is \$585-million lower than budget. The decrease in revenue compared to budget predominately reflects a material decline in net income for Manitoba Hydro and lower tax revenue. For the fiscal year ending March 31, 2024, Manitoba Hydro reported a net loss of \$157-million. The Summary Financial Statements include a one-time \$15-million adjustment to account for Manitoba Hydro's acquisition of a minority interest, bringing it to a net loss of \$172-million (a decrease of \$622-million from budget). Individual income tax revenue was \$177-million below budget and fuel tax revenue was \$104-million below budget. The decline in revenue was partially offset by the \$200-million revenue contingency that was included in Budget 2023.

Government net debt, the difference between total liabilities and financial assets, is an important measure of fiscal sustainability. Changes in net debt are driven by changes in the deficit and changes in the level of capital spending including asset retirement obligations. Net debt is \$1,259-million higher than budget. Manitoba's net debt as a per cent of the economy (GDP) is 35.7 per cent, which is an increase of 1.1 percentage points from the budget estimate of 34.6 per cent.

Debt servicing is \$5-million higher than budget, at \$2,156-million.

At a Glance: Financial Results

	2024		2023		Change from	
	Budget Restated	Actual	Restated	Budget	Budget	2023
(Millions of Dollars)

Expense	20,589	21,607	19,922	1,018	1,685	
Debt Servicing	2,151	2,156	1,963	5	193	
Operating Surplus (Deficit)	(363)	(1,971)	373	(1,608)	(2,344)	
Net Debt	31,057	32,316	30,180	1,259	2,136	
Net Debt to GDP	34.6%	35.7%	34.9%	1.1%	0.8%	

2023/24 Financial Results Explained: Economic Factors

The Manitoba economy displayed a moderating performance through fiscal 2023/24, growing for the third consecutive year, though at the slowest pace since the COVID-19 pandemic.

Tight monetary policy, waning pent-up demand and weather conditions dampened economic output during the fiscal year, but record population growth buoyed activity in the service-producing sectors of the economy, particularly in the arts, entertainment, recreation and air travel industries. As a result, overall growth was above Budget 2023 expectations.

After adjusting for inflation, Manitoba's real gross domestic product (GDP) at basic prices expanded by 1.3 per cent in 2023, the sixth highest among provinces, and slightly above Canada's average of 1.2 per cent, according to preliminary estimates from Statistics Canada released on May 1, 2024. Real GDP growth in 2023 was above the expectation of 0.7 per cent forecasted in Budget 2023.

Goods-producing industries declined from the previous year, while growth in service-producing industries kept the Manitoba economy growing in 2023. Further, Manitoba was one of only two provinces to experience accelerated growth in the service industries relative to 2022. Arts, entertainment, and recreation had the highest growth among individual industries in 2023, increasing by 12.3 per cent from 2022, followed by transportation and warehousing which grew by 5.8 per cent.

Annual Growth in Real Gross Domestic Product at basic prices, 2023

Source: Statistics Canada

Annual Growth in Real Gross Domestic Product at Basic Prices by Industry, Manitoba, 2023

Source: Statistics Canada

Growth in Manitoba's goods-producing sector declined by 1.1 per cent in 2023. Utilities experienced the largest decline among industries, down 9.8 per cent. The decline was attributable to low water conditions in hydro reservoirs and a decrease in market prices, resulting in reduced domestic and export revenue. As the body responsible for the province's most significant utility, Manitoba Hydro reported a net loss of \$172-million in 2023/24, compared to the \$450-million net income expected at the time of Budget 2023.

Completion of non-residential construction projects, coupled with a decline in residential construction investments in 2023 resulted in a 3.6 per cent decline in construction industry output. Manufacturing output also slowed to 1.9 per cent in 2023, down from 5.3 per cent in 2022.

Employment in Manitoba increased by 2.5 per cent in 2023, the third largest yearly growth on record, trailing only the 3.7 and 3.2 per cent growth displayed in the previous two years during the pandemic recovery, and far above the 0.4 per cent growth forecasted in Budget 2023. Employment levels started to ease in the first calendar quarter of 2024, as displayed in the following chart. Manitoba’s average unemployment rate was 4.8 per cent for 2023, tied for second lowest among Canadian provinces, lower than the 5.4 per cent forecasted in Budget 2023, and lower than Canada’s average of 5.4 per cent.

Manitoba Employment, Seasonally Adjusted and Trend-Cycle, March 2023 to March 2024

Source: Statistics Canada

The unemployment rate has edged up slightly in 2024, as the labour market continued to balance, and rose to 5.0 per cent in March at the end of the fiscal year, lowest among provinces and below the Canadian average of 6.1 per cent. Reflecting a resilient labour market, compensation for employees continued to accelerate in 2023. Manitoba’s average hourly wage rate increased by 4.6 per cent in 2023, following a 3.5 per cent rise in 2022. Similar to employment growth, from January 2024 to the end of the fiscal year, the pace of growth in average hourly wage rate eased 2.1 per cent from the same period in 2023.

Consumer inflation, as measured by Statistics Canada’s all-items consumer price index (CPI), rose by 3.5 per cent on average in 2023, below the 3.8 per cent forecasted in Budget 2023, this was the fourth lowest among provinces, and below the Canadian average of 3.9 per cent. To combat persistently high inflation, the Bank of Canada (BoC) undertook a regime of monetary tightening, raising its policy interest rate by 475 basis points from March 2022 to July 2023, bringing it to a 22-year record high of 5.0 per cent.

After remaining high for two years, inflation in Manitoba finally fell to within the BoC’s one to three per cent target range in the last three months of 2023, and stabilized below the target range in the first three months of 2024. At the end of the fiscal year in March 2024, Manitoba’s year-over-year inflation rate was 0.8 per cent, the lowest among provinces and below the Canadian average of 2.9 per cent. As Canada’s inflation rate continues to trend downward, the BoC is expected to continue easing its policy rate through 2024 and into 2025.

2023/24 Financial Results Explained: Revenue

Overall, revenue was \$585-million lower than budget. Most of the decrease was driven by Net Income of Government Business Enterprises which was \$717-million lower than budget. Individual Income Tax revenue was \$177-million lower than budget and Fuel Taxes was \$104-million lower than budget due to the introduction of the fuel tax holiday that started on January 1, 2024.

Key Changes to 2023/24 Revenue

(Millions of Dollars)

Summary Budget – Revenue	22,377
Taxation Revenue	
Individual Income Tax	(177)
Corporation Income Tax	14
Fuel Taxes	(104)
Retail Sales Tax	101
Other Taxes	(53)
Total Changes in Taxation Revenue	(219)
Fees and Other Revenue	147
Federal Transfers	(139)
Government Business Enterprises (GBEs)	(717)
Recovery from GBEs and Other	143
Investment Earnings	
Contingency	200
Net Decrease in Revenue	(585)
2023/24 Revenue	21,792

Individual Income Tax revenue is \$177-million, or 3.8 per cent, lower than budget due to lower assessments from the Canada Revenue Agency (CRA) for the 2022 tax year, relative to the estimates used for Budget 2023.

Corporation Income Tax revenue is \$14-million, or 1.6 per cent, higher than budget due to an improvement in 2023 business profits relative to estimates used for Budget 2023.

Fuel Taxes revenue is \$104-million, or 30.4 per cent, lower than budget mainly due to the fuel tax holiday that came into effect on January 1, 2024.

Retail Sales Tax revenue is \$101-million, or 3.9 per cent, higher than budget mainly due to stronger than estimated increase in retail spending and household spending on services.

Fees and Other revenue is \$147-million, or 5.8 per cent, higher than budget largely due to the impact of adopting the new accounting standard PS 3400 Revenue.

Federal Transfers are \$139-million lower than budget mostly due to the timing of project completions compared to the budget in the Investing in Canada Infrastructure Program, resulting in delays in federal revenue, a decrease in AgriInsurance indemnities and the corresponding reduction in the federal share of the unearned premium revenue, and a variance in the Canada-Manitoba Early Learning and Child Care Agreement and the Canada-Manitoba Canada-Wide Early Learning and Child Care Agreement in relation to the budget.

Net Income of Government Business Enterprises are \$717-million lower than budget reflecting a dramatic fall in net income from Manitoba Hydro. Manitoba Hydro's net loss is primarily driven by low water conditions which significantly reduced net export revenue. The net loss also accounts for the impact of the Public Utility Board's electric general rate application decision and directives issued in August. Manitoba Public Insurance Corporation (MPI) is reporting a \$159-million decrease compared to budget due in part to a severe weather event in August 2023 that resulted in over 15,000 hail claims in Winnipeg and the surrounding area, the largest natural catastrophic event in MPI's history. Manitoba Liquor and Lotteries Corporation is reporting a \$64-million increase compared to budget, due to higher net income from cannabis and casino operations as well as lower operating expenses. The following table summarizes the results of the GBEs:

Net Income of Government Business Enterprises (GBEs)	2023/24 Budget	2023/24 Actual	2022/23 Actual
(Millions of Dollars)			
Manitoba Liquor and Lotteries Corporation	668	732	741
Deposit Guarantee Corporation of Manitoba	33	33	25
Manitoba Hydro-Electric Board	450	(172)	638
Manitoba Public Insurance Corporation	30	(129)	103
Total Net Income from GBEs	1,181	464	1,507

Recovery from GBEs and Other Investment Earnings are \$143-million over budget due to higher than anticipated interest rates.

2023/24 Financial Results Explained: Expenses

Expenses were \$1,023-million higher than budget. The increase in expenses was largely attributable to significant over expenditures in the health care sector, settlement of longstanding lawsuits and provisions for contingent liabilities.

To accommodate these increased expenses in the health care sector, a special warrant was issued in February. The special warrant provided \$600-million in additional operating expenditure authority along with \$100-million in additional capital expenditure authority for Manitoba Health, Seniors and Long-Term Care and \$10-million in loan authority for the Manitoba Student Aid lending program in Advanced Education and Training.

Additional Expenditure Authority	\$ Millions
Health, Seniors and Long-Term Care – Part A	600
Health, Seniors and Long-Term Care – Part D	100
Advanced Education and Training – Part C	10
Total additional expenditure authority	710

Key Changes to 2023/24 Expense

(Millions of Dollars)

Summary Budget – Expense	22,740
Expense Variances:	
Health, Seniors and Long-Term Care	958
Families	452
Justice	163
Tax Credits	58
Agriculture	(149)
Advanced Education and Training	(114)
Consumer Protection and Government Services	(105)
Enabling Appropriations	(101)
Emergency Expenditures	(71)
Other net changes	(68)
Net Increase in Expense	1,023
2023/24 Expense	23,763

Several factors contributed to the \$958-million increase in Health, Seniors and Long-Term Care expenses compared to budget. This is due to the recruitment, retention and well being initiatives in the collective agreements that have settled as well as price and volume pressures in the health system.

Families' variance of \$452-million over budget is due to expenses related to the class action settlement on the Children's Special Allowances valued at about \$530-million and other one-time year-end adjustments.

Justice's variance of \$163-million over budget is primarily due to provisions for the settlement of longstanding lawsuits and overtime and other salary related costs in correctional services.

Tax Credits' variance of \$58-million over budget is mainly related to the higher level of uptake for the Film and Video Production Tax Credit based on 2022 tax year assessments.

Agriculture's variance of \$149-million under budget reflects reduced indemnity payments for AgriInsurance due to lower claims activity. This is offset by a corresponding decrease in revenue.

Advanced Education and Training's variance of a \$114-million under budget is primarily due to higher returns on pension investments that decreases the pension expense and timing differences in programs.

Consumer Protection and Government Services' variance of \$105-million under budget is primarily due to lower than budgeted spending in the fully subscribed Investing in Canada Infrastructure Program, due to delays in construction. This is offset by a corresponding decrease in revenue.

Emergency Expenditures' variance is \$71-million under budget, as the 2023 flood season did not result in significant expenses for the government.

Budget 2023 set aside \$949-million in Internal Services Adjustments, Contingencies and Limited-Term Funding, one of the Enabling Appropriations. Throughout the year, \$855-million of this authority was allocated to departments as required. Contingencies funded from this appropriation included \$153-million related to 2023/24 salary increases as a result of the settlement of several collective agreements. During

2023/24, settlements were reached with the Manitoba Government Employees Union (MGEU) representing the civil service, Manitoba Association of Health Care Professionals (MAHCP) professional/technical sector employees, Doctors Manitoba, Manitoba Public Insurance Corporation and Manitoba Liquor and Lotteries workers, among others.

Other contingencies funded from this appropriation included the following:

- \$115-million for Surgical and Diagnostic Backlog
- \$113-million for Health Human Resource initiatives
- \$80-million for additional support to municipalities
- \$67-million to support Arctic Gateway capital improvements to the Hudson Bay Railway
- \$50-million to support capital projects in the Arts, Culture and Sports sector
- \$36-million to support initiatives toward ending chronic homelessness
- \$30-million to support capital projects for National Centre for Truth and Reconciliation, Prairie Innovation Centre and Metis Nation Heritage Centre
- \$26-million for expenses with federal revenue offsets
- \$18-million for AgriStability
- \$18-million for the Winnipeg Regional Rail Port
- \$14-million for Public Safety Basket funding
- \$13-million for Low Carbon initiatives
- \$10-million to support NFI Group with creating low-carbon manufacturing jobs
- \$9-million for the Under Graduate Medical Education program
- \$49-million for other miscellaneous items

In addition, Manitoba incurred \$72-million in direct expenditures across multiple departments to support Ukrainian citizens welcomed by Manitoba over the past year; \$54-million of the total spending was funded from Enabling Appropriations. These supports included temporary accommodations, meals and health care costs.

2023/24 Financial Results Explained: Accounting Matters

The summary financial statements are prepared in accordance with the Canadian Public Sector Accounting Standards (PSAS).

In 2023/24, the Government adopted PS 3400 Revenue, which provides guidance on accounting for and reporting on revenue. The government recognizes revenue from exchange transactions when the performance obligations are satisfied, and the payor obtains control of the asset or benefits from the good or service provided.

Manitoba Public Insurance Corporation (MPI) and Deposit Guarantee Corporation of Manitoba (DGCM) maintain their accounts in accordance with International Financial Reporting Standards (IFRS), which are considered appropriate to their individual objectives and circumstances. MPI and DGCM adopted IFRS 17 Insurance Contracts, which requires a revised method of measuring insurance contract liabilities. MPI and DGCM also adopted IFRS 9 Financial instruments. A financial asset is initially measured at fair value and is classified based on its contractual cash flow characteristics and the business model under which it is held.

Additional details on the implementation of these new standards is provided in Note 2 of the Summary Financial Statements.

Budget Outcomes and Strategic Infrastructure Investments

For the year ended March 31, 2024

BUDGET OUTCOMES

This section reports on the Manitoba government's budget outcomes related to new investments highlighted in the Fiscally Responsible Outcomes and Economic Growth Strategy included in Budget 2023. It also reports on the outcomes related to new initiatives announced during the year.

Affordability Outcomes

- Manitoba's Fuel Tax Holiday quickly delivered lower costs to families. Effective January 1, 2024, Manitoba's fuel tax was suspended on gasoline, diesel and marked gasoline. This contributed to Manitoba's inflation being among the lowest in Canada in 2024.
- Manitoba property owners received more than \$460-million in School Tax Rebate cheques in 2023, providing financial relief to owners of over 437,000 properties. In December 2023, regulations were passed under The Property Tax and Insulation Assistance Act and The Public Schools Act to facilitate providing School Tax Rebates directly on property tax statements in 2024.
- Advanced Education and Training invested \$10-million in the Manitoba Scholarship and Bursary Initiative to support students pursuing post-secondary education and increased the Manitoba Student Loan maximum by \$60 per week of study, from \$140 to \$200, resulting in lower costs and increased access to high-quality learning opportunities for students.
- Advanced Education and Training allocated an additional \$1.4-million to the Manitoba Bursary to increase access to education and training opportunities, providing bursaries to lower-income students and a top-up for Indigenous students.
- Government reduced childcare parent fees to an average of less than \$10 per day for children ages 0-6 years old.
- Families provided access to free menstrual products to 37 school divisions and 54 domestic violence agencies in the province.
- Agriculture provided \$360,000 to Direct Farm Manitoba to facilitate the Manitoba Community Food Currency Program, ensuring that Manitobans who are disproportionately impacted by food insecurity have access to local, fresh food at farmer's markets.
- To increase affordability for Agricultural Crown Land (ACL) leaseholders, the government froze the 2024 rental rates for the ACL forage leases at 2023 rates.
- One-time funding of up to \$39.9-million was distributed to municipalities outside of Winnipeg on a per capita basis to help mitigate high levels of inflation, allowing municipalities the flexibility to apply funding based on local capital priorities.

Health Care Outcomes

- Government invested \$624-million in 2023/24 in prioritized health capital focusing on both urban and rural areas to ensure equitable access to quality healthcare in Manitoba. The investments in hospitals and emergency rooms include the construction of new regional health centres in Neepawa and Portage la Prairie, plans to reopen some closed emergency rooms, and the expansion and improvement of CancerCare facilities.
- Government invested \$45-million in 2023/24 for the St. Boniface Hospital Emergency Department Redevelopment initiative. The project involves 130,000 square feet of new construction and the renovation of existing emergency department space. This multi-phased project is scheduled to open the new emergency department in the fall of 2025.
- Health, Seniors and Long-Term Care completed the renovations and installations of a computed tomography (CT) scanner at the Swan Valley Health Centre in Swan River. The CT scanner was delivered,

installed, and commissioned as scheduled. The CT scanner enhances access to services for residents of Swan River and surrounding communities by providing care closer to home.

- Government invested \$9.8-million to support expansion of health care professional training including a 15-seat undergraduate medical education expansion, an eight-seat advanced care paramedic expansion, a five-seat cross-trained lab x-ray technologist expansion, and a five-seat x-ray technologist expansion.
- Government invested \$2-million to support a one-time, 70 seat nursing cohort diploma practical nurse program at Assiniboine Community College.
- Health, Seniors and Long-Term Care oversaw the implementation of expanded Sexual Assault Nurse Examiner (SANE) services to Thompson and The Pas and enhancements within Prairie Mountain Health, with hub support from the Health Sciences Centre. This included monitoring the recruitment and training of SANE nurses in each region.
- Government invested in six new or expanded initiatives to help seniors stay in their homes or communities. New senior-related initiatives included creating an independent seniors' advocate, increasing the number of personal care home beds in Manitoba, and working towards providing more direct hours of care for seniors.
- Health, Seniors and Long-Term Care responded to the rising number of Human Immunodeficiency Virus (HIV) cases in Manitoba by collaborating with internal and external stakeholders to facilitate free medication coverage for all those impacted by HIV, or at risk of acquiring HIV, and working with service providers to fund and assist with managing clients who had been lost to care.
- Health, Seniors and Long-Term Care strengthened the processes of the Protection for Persons in Care Office by amending the Protection for Persons in Care Act to broaden and clarify definitions of abuse and neglect, delivering educational presentations to 68 designated health care facilities across Manitoba, strengthening policies and standards guiding the investigative process, and clearing the investigation backlog,

ensuring all allegations of abuse and neglect in hospitals, personal care homes, and designated health care facilities were reviewed and investigated appropriately.

- Health, Seniors and Long-Term Care provided stable and predictable funding to family practice clinics through Family Medicine Plus (FM+), which introduced a total compensation model for physicians. This model combined traditional fee-for-service billing with additional funding to compensate family physicians for time spent with patients, the complexity of their needs, and practice management. A key goal of FM+ was to make family medicine an attractive option for medical graduates and encourage existing physicians to continue practicing.
- Health, Seniors and Long-Term Care made significant progress toward implementing a modernized provincial digital occurrence and critical incident reporting system. Training, system preparation, communications, and planning for implementation in the Northern Health Region were completed in 2023/24 to fast-track the region onto the system by May 2024.

Economic Outcomes

- Changes to the Health and Post-Secondary Education Tax Levy reduced payroll taxes on approximately 900 Manitoba employers – including about 150 Manitoba employers who were taken off this tax roll. This was done by increasing the threshold to \$2.25-million and increasing the lower rate threshold to \$4.5-million.
- Consumer Protection and Government Services facilitated \$140-million approval from the Canada Infrastructure Bank for water and wastewater treatment projects in the City of Brandon and the Red-Seine-Rat Wastewater Co-operative.
- Consumer Protection and Government Services approved 140 projects under the Investing in Canada Infrastructure Program, with a total cost of approximately \$3.3-billion, supporting economic growth through infrastructure development.
- Government provided \$89.8-million to the City of Winnipeg to support a range of capital projects including water and wastewater as well as transit

related initiatives previously approved under the Investing in Canada Infrastructure Program for Winnipeg.

- In 2023/24, the Sector Council Program served 56,951 individuals, supporting economic growth and addressing labour shortages, contributing to the government's commitment to create 10,000 new skilled trades jobs over the next eight years.
- Economic Development, Investment, Trade and Natural Resources delivered a range of labour market programs and services to 31,851 job seekers, both directly and through partnership with community organizations across Manitoba. These initiatives help Manitobans prepare for, find, and advance in good jobs, while addressing the workforce needs of Manitoba employers.
- Agriculture committed \$26.6-million in Sustainable Canadian Agricultural Partnership (Sustainable CAP) funding towards 466 approved projects, across six priority areas: Climate Change and Environment (\$8.2-million); Building Sector Capacity, Growth, and Competitiveness (\$3.8-million); Market Development and Trade (\$3.1-million); Resiliency and Public Trust (\$4.7-million); Science, Research and Innovation (\$5.5-million); and Indigenous Agriculture and Relationship Development (\$1.1-million). Sustainable CAP funding provides support to foster a competitive, innovative and resilient agri-food and agri-products sector in Manitoba.
- Through Sustainable CAP, the governments of Manitoba and Canada committed up to \$15.4-million in funding to 70 projects through four streams of the Capital Infrastructure and Investments program including: Capital Assets – Processing Equipment; Capital Assets – Enterprise Resource Planning Software; Co-packing Capacity Building and Quality Control Capacity Building. These projects position Manitoba processors to grow sales and employment and increase competitiveness and profitability.
- Transportation and Infrastructure implemented the 2023 Multi-year Infrastructure Investment Strategy by investing more than \$606-million in capital projects. These projects included construction on the interchange at the Perimeter Highway and St. Mary's Road, PTH 75 southbound from PR 305 to PR 205, twinning and a roundabout on PTH 6 from PTH 101 to Grosse Isle, PR 391 Burntwood major bridge rehabilitation and the interchange at PTH 1 and 1A West (Portage la Prairie Bypass).
- Economic Development, Investment, Trade and Natural Resources supported 43 Manitoba small businesses to raise \$22.1-million during the 2023 tax year using three equity tax credits (Small Business Venture Capital Tax Credit, Community Enterprise Development Tax Credit, and Employee Share Purchase Tax Credit).
- Indigenous Economic Development established the Indigenous Business Development Branch, with the goal of leading and working with other departments to fully incorporate Indigenous communities and businesses into every aspect of Manitoba's economy, through meaningful collaboration with First Nations, Métis, Inuit, and associated organizations to foster economic expansion.
- Government provided \$1.8-million to the Communities Economic Development Fund and \$2.7-million to the First Peoples Economic Growth Fund to support Indigenous business development and economic reconciliation.

Community Outcomes

- Construction continued on five new schools in Winnipeg, Steinbach, and Morden to address enrolment pressures and to provide access to French language education.
- Government invested \$5-million in critical water and wastewater infrastructure projects in Northern Affairs communities.
- Government invested in community housing under the multi-year National Housing Strategy Bilateral Agreement, contributing 32 new subsidized rental units.
- Housing, Addictions and Homelessness implemented the first provincial winter homelessness response, focusing on unsheltered individuals, helping over 280 people, including 91 who secured permanent housing.

- Government allocated \$8.7-million to support 1,648 publicly-funded addictions treatment spaces, including bed-based and mobile withdrawal management services.
- Housing, Addictions and Homelessness opened the first Indigenous-led Rapid Access to Addictions Medicine clinic in Winnipeg, with \$1-million in annual provincial funding.
- Government recruited 14 psychiatrists for acute care in underserved areas across Manitoba.
- Education and Early Childhood Learning opened, or committed, 8,500 new child care spaces for children ages 0-6 years and 4,400 school-age spaces, totaling nearly 13,000 new child-care spaces throughout Manitoba since the start of the Canada-Wide Early Learning and Child Care Agreement in 2021/22.
- Sport, Culture, Heritage and Tourism assessed over 1,500 applications, resulting in \$132.5-million in grants approved to over 1,000 organizations to support operations and activity in the arts, heritage, library, ethnocultural and sport sectors including \$10.2-million towards various reconciliation initiatives in support of the Truth and Reconciliation Commission's Call to Action 80.
- Families provided financial support through \$81.7-million in new funding to increase funded wage rates for direct service workers delivering residential, day and agency-delivered and self-managed respite services to adults and children living with a disability and their families who are eligible for Community Living disABILITY Services and Children's disABILITY Services programs.
- Government approved 22 projects totaling \$1.5-million under the Sustainable CAP Indigenous Agriculture Food Systems program in the 2023/24 fiscal year. Funding supports activities that increase food security and food sovereignty, support the revitalization of traditional food systems, training, skill and resource development, climate change adaptation, and/or increase Indigenous participation within Manitoba's agriculture and agri-food sector.

- A \$2-million increase was provided to the Newcomer Community Integration Support program to ensure the provision of robust settlement and integration services.

Community Safety Outcomes

- Bill 34, The Police Services Amendment Act, was proclaimed in February 2024. This bill enhances the Community and First Nations Safety Officers program as a part of a layered public safety model. The act also enabled the creation of Winnipeg's Community Safety Team which patrols on and around the Winnipeg Transit system.
- Justice continues to work with Manitoba Keewatinowik Okimakanak to create and implement a youth healing lodge in Thompson, with the aim of decreasing the number of youths who are incarcerated in Manitoba and to address the overrepresentation of Indigenous youth in custody.
- Justice officially implemented the Community Safety and Well-being (CSWB) Planning Project in six communities, with two other locations in development. Up to 14 communities will participate in the CWSB Planning project.
- Justice continues to work closely with stakeholders and partners in Brandon and Thompson to implement Sobering Centre programs in those communities to promote public safety and community well-being.
- Transportation and Infrastructure developed a road safety strategy in response to the tragic collision at PTH 1 and PTH 5. The road safety strategy was led by a safety strategy team to identify potential improvements and to focus on engineering and road safety characteristics of the intersection. The strategy also identified systemic and proactive measures in the department's operations to identify and manage potential road safety issues across the provincial highway network.
- Transportation and Infrastructure implemented a formal safety monitoring framework to improve Manitoba's oversight of motor carrier safety and to support the education of motor carriers regarding their road safety responsibilities under provincial and federal laws.

Environmental Outcomes

- Economic Development, Investment, Trade and Natural Resources partnered with NFI Group on a multi-year initiative to deliver a \$10-million investment aimed at creating low-carbon manufacturing jobs. This investment supports the All-Canadian Build facility, which will manufacture, finish, and service zero-emission buses for the Canadian market.
- Economic Development, Investment, Trade and Natural Resources initiated the multi-year \$19-million “2-billion Trees Program” in partnership with Canada to increase tree planting in Manitoba. In 2023, the program kick off completed 390 hectares of site preparation and saw 1,380 large potted trees planted in 20 communities, and four Indigenous planting projects of over 50,000 trees completed throughout Manitoba.
- Government provided \$10-million in incremental capital support to the City of Winnipeg in support of costs associated with the Fort Garry – River Crossing Replacement Project, to address Red River and Lake Winnipeg water quality concerns.
- Government restored funding to environmental non-profit organizations, fostering partnerships with the International Institute for Sustainable Development and climate centres of excellence such as ClimateWest and the University of Winnipeg’s Prairie Climate Centre.
- Government extended the Lead in Drinking Water Grant to March 31, 2025, providing schools and licensed child-care centres with continued access to grant funding to test for and address where needed, elevated lead in drinking water, benefitting over 1,000 schools and licensed child care centres.

Government Modernization Outcomes

- Health, Seniors and Long-Term Care analyzed the health card registration process, identified gaps causing delays and achieved a 42 per cent reduction in failed health card applications, reduced average processing time from 60 minutes to 15 minutes, and decreased turnaround time from four months to two weeks.

- Manitoba Courts continue to expand the technologies used in courtrooms to provide better access to justice. Investments in virtual courtrooms using a webinar-based platform, Microsoft Teams, legacy Cisco video conferencing equipment, and installing Wi-Fi and network infrastructure into several court centres have streamlined the court process.
- Transportation and Infrastructure expanded the Manitoba Emergency Measures Office Portal that provides close to real-time situational awareness with data, maps, and other resources which enhances coordination efforts during emergencies and disasters. There are 307 local authorities and 123 emergency management partners using the portal.
- Municipal and Northern Relations launched the MyPropertyMB online portal, providing property owners outside the City of Winnipeg with modernized 24-hour access to their assessment notices.
- The Public Service Commission implemented a redesign of its service delivery model for 2023/24. The redesigned organizational structure is intended to increase efficiencies in the department’s human resource, employee development, policy, data management, and employee and labour relations functions, including realigning the talent acquisition function into a dedicated unit focused on recruitment and outreach activities.
- Consumer Protection and Government Services continued work on advancing Procurement Modernization to increase cumulative savings and total government spending under category management.
- Finance introduced technology ensuring Freedom of Information and Protection of Privacy Act (FIPPA) requests were acknowledged, logged, actioned and tracked for timeliness. The department eliminated the access to information backlog of 726 files in January 2024. The centralization of the FIPPA office helped improve on-time response rates to 65.7 per cent for fiscal 2023/24 and identified and processed several outstanding requests not included in the original backlog.

- Advanced Education and Training successfully completed the Canada-Manitoba Student Loans Integration Project. Manitoba Student Loan borrowers benefit by making only one monthly repayment, instead of two, and contacting only one services centre for loan repayment information.

Manitoba's Ukraine Crisis Response

- Labour and Immigration provided support for Ukrainian refugees through the Manitoba Provincial Nominee Program by nominating 615 Ukrainian citizens to settle permanently in Manitoba with their families and delivered short-term culturally-and linguistically-appropriate settlement support to them.
- The government continued to offer support to Ukrainian families arriving in Manitoba under the Canada-Ukraine Authorization for Emergency Travel (CUAET) measure, until the last CUAET holders arrived in Canada in March 2024. Ukrainians were offered coordinated services, including a reception centre, settlement services hub and online appointment system to ensure a single point of access to provincial, federal, and community services. The Temporary Accommodations Program offered Ukrainians arriving in Manitoba hotel stays and meals for up to 30 days.
- The Ukrainian Refugee Task Force in Manitoba was one of the most effective models in the country for settling Ukrainian nationals under the federal government's Canada-Ukraine Authorization for Emergency travel (CUAET) program. Manitoba Emergency Measures Office coordinated all aspects of the response and worked with provincial and federal governments, the settlement sector, and the ethnocultural community. As a result, over 30,000 Ukrainian nationals were successfully settled in Manitoba.

Further explanation of government's budget outcomes can be found in the key achievement highlights section of each department's annual report.

STRATEGIC INFRASTRUCTURE INVESTMENTS

Strategic infrastructure reporting contains Manitoba's capital investments at the summary government level including direct investment by government in its own assets and other operating entities' assets, grants to municipalities, annual maintenance of infrastructure, capital loans, investments by Crown corporations, and self-funded capital investments by other reporting entities. Manitoba Hydro's capital investments, along with those of other Crown corporations, are included in the presentation of strategic infrastructure to provide a complete picture of public-sector capital investments.

Manitoba's net tangible capital assets have a net book value of \$16.2-billion, excluding Crown corporations that report their capital asset value in their annual reports. The province's capital program is driven by the cost of maintaining physical assets in a state of good repair to support the delivery of government services, while investing in new infrastructure to support future needs.

In 2023/24, strategic infrastructure investments were over \$3.1-billion. This is an increase of \$482-million from 2022/23 strategic infrastructure investments of \$2.6-billion. Areas of increased investment included:

- Manitoba Hydro investments in infrastructure were \$703-million.
- Highway infrastructure capital and maintenance investments were \$683-million.
- Capital investments in health facilities was \$624-million.
- Capital investments into K-12 schools and post-secondary institutions totaled \$341-million.

Budget 2023 included over \$200-million in centrally held Enabling Appropriations for capital contingencies in core government, much of which remained unused.

Manitoba provided \$105-million in additional capital investment authority to Other Reporting Entities that had insufficient funding due to cost escalations and increased demand, primarily for Health related investments. Other notable variances for 2023/24 fiscal year included:

- Health Facilities – Higher capital spending in 2023/24 was the result of an increased volume of infrastructure construction, price increases in construction materials and equipment related to the Portage Regional Health Centre, Neepawa Regional Health Centre, Brandon Regional Health Centre, Selkirk Regional Health Centre expansion and St. Boniface Hospital Emergency Department Redevelopment.
- Water Related Infrastructure – Variance due to the progress on Rivers Dam, English Brook, Portage Diversion and St. Joseph projects compared to budget and the ongoing rehabilitation and replacement of water infrastructure damaged in the 2022 flood event.
- Efficiency Manitoba – Variance is due to lower customer participation.
- Manitoba Liquor and Lotteries Corporation – Variance was caused by a pause in equipment purchase and facility maintenance due to labour disruption and due to timing of expenditures for other in-progress projects, including information technology initiatives.
- Manitoba Public Insurance – Variance was due to the labour disruption and delays on Project Nova.
- Manitoba Hydro – Variance resulted from inflationary pressures on materials, equipment and services required for Manitoba Hydro's capital projects, including the Pointe du Bois Renewable Energy Project.

Strategic Infrastructure Investments

INTRODUCTION TO THE PUBLIC ACCOUNTS OF MANITOBA

Nature of the Public Accounts

The Public Accounts of Manitoba are prepared annually by statutory requirement in accordance with section 65(1) of The Financial Administration Act, which is Chapter F55 of the Continuing Consolidation of the Statutes of Manitoba. The Public Accounts reflect the summary financial position of the government and the operating results for the fiscal year of the government, which ends on March 31.

The information contained in the report originates from two sources:

- the summarized financial information presented in the accounts of Manitoba, maintained by the Provincial Comptroller; and
- the detailed records maintained by departments, government organizations, government business enterprises, and government business partnerships.

Each department and public sector organization is responsible for reconciling its accounts to the control accounts of the Provincial Comptroller, and for maintaining detailed records of the transactions in their accounts.

Format of the Public Accounts of Manitoba

The Public Accounts of Manitoba consist of the Financial Statement Discussion and Analysis, the audited Summary Financial Statements of the Government, financial reports on the Rainy Day Fund, and other statutory financial reports.

Financial Statement Discussion and Analysis –

This section provides a written commentary on the summary financial statements, plus additional information on the financial and economic performance of the provincial government. The financial information contained in the Financial Statement Discussion and Analysis section is taken from the March 31, 2024 summary financial statements.

Summary Financial Statements – These audited statements, prepared using Chartered Professional Accountants of Canada (CPA) Public Sector Accounting Standards, disclose the financial impact of the government's activities. Only the government's summary financial statements provide the key information on the financial activities of the entire government. The summary financial statements include the financial results of the approximately 129 different agencies and accounts the government uses to deliver its goods and services. The Government Reporting Entity (GRE) includes government departments, business enterprises, business partnerships, and organizations, such as regional health authorities, school divisions, universities and colleges. The departments and entities comprising the GRE are disclosed in Schedule 8 of the summary financial statements.

The summary financial statements also provide the following information about government's financial activities:

- the government's financial position as at March 31 each year
- the results of its operations for the year
- what revenue it brought in and what it spent (e.g., annual surplus or deficit)
- how much it borrowed, repaid or refinanced
- how it obtained and used its funds

Information Provided Under Statutory Requirements –

This section includes audited reports on information other than financial statements, including the Rainy Day Fund and other reports specified in the Financial Administration Act, The Fiscal Responsibility and Taxpayer Protection Act, The Health Services Insurance Act, and The Northern Affairs Act. The Public Accounts of Manitoba are available online at: www.manitoba.ca/governmentfinances.

FINANCIAL STATEMENT DISCUSSION AND ANALYSIS

The Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada (CPA Canada), through a statement of recommended practices, suggests a number of financial indicators to assist in the assessment of a government's financial condition. There are no established public sector benchmarks for these indicators. The indicators, expressed as ratios or trends, provide a picture of what has occurred over a period of years to facilitate comparisons and assist in the assessment of the government's financial health in the context of the current economic and financial environment. The recommended indicators are grouped into three categories:

- (1) Sustainability**—measures a government's ability to maintain its programs without the need to increase its borrowings.
- (2) Flexibility**—determines the government's efficiency to respond to rising financial commitments by either expanding its revenue or increasing its borrowings.
- (3) Vulnerability**—how much a government relies on revenue sources beyond its direct control or influence, both domestically and internationally.

The Financial Statement Discussion and Analysis reflects the results of the Province of Manitoba, which have been impacted by several macroeconomic headwinds, including slowing economic growth, high interest rates, and inflation pressures. To get a broader perspective of the current fiscal situation of the Province of Manitoba, readers are encouraged to find additional information in the Quarterly Report of the province for 2024/25.

Source of Data and its Limitations

The financial indicators in this report use key financial information from the audited summary financial statements. Economic information is obtained from Statistics Canada and the Manitoba Bureau of Statistics. Comparative data presented is not adjusted for inflation.

Comparative results are restated to conform to any changes in accounting policy or presentation adopted in the current fiscal year. The financial indicators in this section present the results in the same format as presented in the Public Accounts of Manitoba.

The Government's 2023/24 Financial Condition

This section describes the government's financial health using CPA Canada's three indicator categories of sustainability, flexibility, and vulnerability. The section also describes each category and the related indicators. For each indicator, it provides financial data for Manitoba and highlights key trends.

Sustainability

As noted, sustainability measures the ability of a government to meet its existing program commitments and creditor requirements without increasing its borrowings or tax burden.

Looking at trends for the following five indicators provide useful insight into the sustainability of a government's revenue-raising and spending practices:

- **Net Debt as a Percentage of Provincial GDP:** the relationship between a government's net debt and the income in the economy
- **Net Debt-to-Total Annual Revenue:** the extent to which future revenues are required to pay for past transactions or events
- **Net Debt per Capita:** the relationship between a government's net debt and its population is widely considered to be the best measure for cross-jurisdictional review of government and financial health; represents the net debt amount that is attributed to each Manitoba resident
- **Annual Operating Surplus (Deficit):** the extent to which a government is spending within its means
- **Annual Operating Surplus (Deficit)-to-Provincial GDP:** the relationship between a government's operating surplus (deficit) and the provincial economy

The heightened consumer demand and supply chain bottlenecks following the easing of COVID-19 restrictions, along with persistent inflation pressures driven by rising grocery prices, structural imbalances in the housing market, and geopolitical tensions, have resulted in higher-than-anticipated inflation. Additionally, the Bank of Canada’s high interest rates to combat inflation have dampened consumer spending and residential housing investment, further complicating the economic landscape. These economic headwinds have slowed the province’s own-source revenue, which, combined with increased government expenditure, have resulted in a higher-than-budgeted net loss. The ratios presented in the Financial Statement Discussion and Analysis illustrate an adverse fiscal position in 2023/24 compared to the plans in Budget 2023.

NET DEBT AS A PERCENTAGE OF PROVINCIAL GDP

The government manages its revenue-raising and spending practices with due regard to the provincial economy. Looking at net debt and provincial GDP provides insights into these practices.

Net debt—The difference between a government’s total liabilities and total financial assets provides a measure of the future revenue required to pay for past transactions and events. Net debt as a percentage of provincial GDP measures the level of future financial obligations placed on the economy by a government’s cumulative spending and revenue-raising practices. It provides a measure of how much debt a government is carrying, relative to the province’s annual economic output.

Investment in capital improvements, replacement of deteriorating tangible capital assets, such as transportation infrastructure, and an operating deficit, partly offset by remeasurement gains and other comprehensive income, resulted in increased net debt.

Overall, the net debt of the province increased by \$2,136-million in fiscal year 2023/24, primarily reflecting an operating deficit of \$1,971-million, \$1,016-million in net acquisition of tangible capital assets; offset by \$759-million due to remeasurement gains and other comprehensive income as well as \$92-million related to the changes in non-financial assets.

Changes in GDP must be taken into account to determine capacity to support debt. The GDP is a measure of the value of the goods and services produced in the province during a given year. The GDP indicates the size of the provincial economy. The provincial economy grew steadily from \$74.6-billion in 2019/20 to \$90.4-billion in 2023/24, representing 21.2 per cent growth over the five-year period. The Manitoba Consumer Price Index (CPI) rose 0.8 per cent in March 2024 (2023–5.2 per cent).

Graph 1 shows that the net debt to GDP ratio as of March 31, 2024, has increased, compared to the prior year’s 34.9 per cent to 35.7 per cent. This increase reflects the decrease in own-source revenue, a substantial decrease in Government Business Enterprises (GBE) net income during the 2023/24 fiscal year, which is further exacerbated by increased government operating expenditures.

Graph 1

Net Debt as a Percentage of Provincial GDP

Net debt for 2023/24 included a gain in other comprehensive income (OCI) of \$71-million, recorded by Government Business Enterprises (GBEs). OCI represents unrealized gains or losses calculated at a point in time and can have a significant impact on the measurement of net debt. OCI is measured as the change in “mark-to-market” valuations, interest rates, and foreign exchange rates at year end, representing a one-day snapshot of the change in value when compared to the same day in the previous year.

Managing net debt while maintaining or increasing necessary investment in capital, including infrastructure, is a challenge faced by all provinces and territories in Canada.

NET DEBT-TO-TOTAL ANNUAL REVENUE

Net debt is the amount that current and past generations have accumulated through annual deficits and tangible capital investments. These amounts remain an obligation for future generations to fund through annual surplus, or to continue to carry as debt. It results when a government's total liabilities exceed total financial assets. A trend of increasing net debt-to-total annual revenue would indicate that an increasing amount of time will be needed to eliminate net debt.

Net debt-to-total annual revenue in 2023/24 is 148.3 per cent (2022/23 – 135.6 per cent). The increase is directly attributable to the decrease in own- source revenue and GBE net income.

Graph 2 shows the five-year historical trend of net debt-to-total annual revenue. In recent years, this measure stabilized and began declining. In 2019/20, before the pandemic, the net debt-to-total annual revenue was at its four-year low of 141.6 per cent. The increase in 2023/24 to 148.3 per cent reflects the province's investment in the Health sector, and the pressures of the most recent macroeconomic headwinds.

Graph 2

Net Debt-to-Total Annual Revenue

NET DEBT PER CAPITA

Net debt per capita is a measurement of the value of a government's net debt expressed in terms of the amount attributable to each citizen under the government's jurisdiction. It is commonly calculated using net debt divided by the population of the province.

Net debt per capita provides an indication of how leveraged the government is. Net debt per capita is often used to comment on the effectiveness of a government's current fiscal policy. However, net debt to GDP ratio provides a more complete picture of a government's actual fiscal health. Graph 3 shows the historical trend of net debt per capita.

Graph 3

Net Debt Per Capita

Net debt per capita has ranged from \$19,102 in 2019/20 to \$22,212 in 2023/24. The net debt per capita has increased significantly since 2019/20, primarily because of increased spending in response to the effects of the COVID-19 pandemic, supports provided to the Ukrainian citizens who arrived in Manitoba, the retroactive recognition of asset retirement obligations and increased investment in the Health sector.

ANNUAL OPERATING SURPLUS (DEFICIT)

Annual operating surplus helps the government maintain its services and provides an opportunity to lower its borrowing needs. Annual operating deficits can impact a government's ability to deliver services and can lead to increased borrowing requirements.

The annual surplus (deficit) shows the extent to which a government generates revenue greater (less) than its operating expenses in one fiscal year.

For the fiscal year ended March 31, 2024, Manitoba had budgeted a deficit of \$363-million. However, due to higher than anticipated expenditures, and a shortfall in revenue, the province recorded a deficit of \$1,971-million. This is an increase of \$1,608-million, compared to the fiscal year's budget.

ANNUAL OPERATING SURPLUS (DEFICIT)-TO-PROVINCIAL GDP

The ratio of operating surplus (deficit)-to-provincial GDP measures the difference between revenue and expenses expressed as a percentage of GDP. It is a measure of a government's ability to meet its financing needs and to ensure proper management of public finances.

Table 1 shows the five-year trend in annual revenue, expenses, operating surplus and operating surplus (deficit)-to-provincial GDP.

The annual operating surplus (deficit)-to-provincial GDP deteriorated in 2023/24, due to a deficit position compared to the surplus position reported in 2022/23.

Table 1

Annual Operating Surplus (Deficit)

	2019/20	2020/21	2021/22	2022/23	2023/24
	Restated	Restated	Restated	Restated	Actual
	(\$ millions)				
Total Revenue	18,479	18,602	19,944	22,258	21,792
Total Expense	18,474	20,726	20,694	21,885	23,763
Operating Surplus (Deficit)	5	(2,124)	(750)	373	(1,971)
Annual Operating Surplus (Deficit)-to-Provincial GDP	0.0%	(2.9%)	(0.9%)	0.4%	(2.2%)

Flexibility

Flexibility is the degree to which a government can increase financial resources to respond to rising commitments, either by expanding its revenue or by increasing its net debt.

Public Sector Accounting Board has recommended a number of financial indicators that assess a government's flexibility. The following indicators are considered applicable to provide insight into the Manitoba government's flexibility:

- **Public Debt Charges to Total Revenue:** the extent to which borrowing decisions constrain a government's ability to meet financial and service commitments
- **Own-Source Revenue to Provincial GDP:** the extent to which a government is taking income out of the economy through taxation and user fees

PUBLIC DEBT CHARGES TO TOTAL REVENUE

The amount of public debt charges as a percentage of total revenue shows the extent to which a government must use revenue to pay for interest costs rather than to pay for services. The ratio shows how much of every dollar of a government's revenue is needed to pay interest. A lower ratio of interest costs, as a percentage of revenue, means a government uses a smaller proportion of its revenue to pay for interest costs.

Graph 4 shows that in 2019/20, the Government used 10.1 cents of every taxpayer's dollar to pay interest. In 2023/24, this cost was 9.9 cents per dollar.

Graph 4

Public Debt Charges to Total Annual Revenue

OWN-SOURCE REVENUE TO PROVINCIAL GDP

A government's own-source revenue, as a percentage of provincial GDP, shows how much revenue a government raises through its provincial economy via taxation and fees. Own-source revenue does not include the net income from GBEs, given the semi-autonomous nature of their operations. Their revenues are not derived from taxation or fees, but from the supply of products or services.

High own-source revenue as a percentage of GDP ratios or increases in the ratios mean a government is placing higher demands on its provincial economy, indicating that its demands are outpacing growth in the economy.

During 2019/20 to 2022/23, the government's own-source revenue had been steadily increasing, except during 2020/21, when it decreased by \$585-million to \$12.1-billion. In 2023/24, the revenue decreased by \$113-million to \$14.2-billion (2022/23-\$14.3-billion). For 2023/24, the main contributors to the decrease in own-source revenue from the prior year are:

- Income taxes decreased by \$425-million, or 7.3 per cent
- Other taxes decreased by \$69-million, or 1.4 per cent.
- Recovery from Government Business Enterprises and Other Investment Earnings increased by \$203-million, or 17.1 per cent.
- Fees and Other Revenue increased by \$178-million or 7.1 per cent.

Graph 5 shows the relationship between own-source revenue and provincial GDP. GDP increased 21.2 per cent from \$74.6-billion in 2019/20 to \$90.4-billion in 2023/24. Own-source revenue increased by \$1,481-million or 11.7 per cent within the last five years. As a result, the ratio of own-source revenue in relation to the economy (GDP) has decreased to 15.7 per cent in 2023/24 (2022/23-16.5 per cent).

Graph 5

Own-Source Revenue to Provincial GDP

Changes in outside sources of revenue due to capital projects and other one-time or non-operational programs do not indicate a material increase in a government's revenue vulnerability.

A recommended indicator for providing insight into the government's vulnerability is the ratio of Federal Transfers to Total Revenue.

Vulnerability

Vulnerability is the degree to which a government is dependent upon, and therefore, vulnerable to fluctuations in sources of revenue outside of its direct control or influence. A high degree of dependency may indicate a government is reliant on outside sources to deliver programs and services at the current level and quality.

Manitoba received \$54-million, or 4.8 per cent more, in federal cost-shared targeted program revenue in 2023/24, compared to 2022/23, primarily due to funding related to higher revenue received for Investing in Canada Infrastructure Program, bi-lateral agreements for Health, Seniors and Long-Term Care, offset by lower recoveries from the Disaster Financial Assistance Arrangement.

Total Federal transfers (including Equalization, Canada Health Transfers, Canada Social Transfers and shared cost and other transfers) increased by \$872-million or 13.9 per cent from 2022/23, offset by a decrease of \$182-million received in 2022/23 for COVID-19 transfers. Net increase is \$690-million, or 10.7 per cent from 2022/23.

FEDERAL TRANSFERS TO TOTAL REVENUE

The ratio of federal transfers to total revenue indicates the vulnerability of provinces to changes in transfer support from the Government of Canada.

Graph 6 shows that the ratio of major federal transfers to total provincial revenue, has increased from historical low of 25.4 per cent in 2018/19 to 32.9 per cent in 2023/24 (2022/23–28.3 per cent). Manitoba experienced a decline in federal transfers as a share of total revenue between 2012/13 and 2015/16. However, transfers to Manitoba, including those for targeted program delivery, have steadily increased from 2019/20 and continues to be above the 15-year average of 28.2 per cent. The ratio indicates that the province is relying less on its own-source revenue to fund core programs and services, demonstrating Manitoba's gradually increasing vulnerability, based on changes in federal transfer support.

Graph 6

Federal Transfers to Total Revenue

Risks and Uncertainties

In the two years following the pandemic, several factors, including pent-up demand and higher prices, generated substantial growth in overall spending in the economy. Retail sales increased by 13.3 per cent in 2021, followed by 8.6 per cent in 2022. The sustained pace of high inflation prompted the Bank of Canada to continue increasing borrowing costs in 2023, lifting the target rate three times in 2023 to 5.0 per cent by July, the highest since March 2001. Mortgage rates followed, with the five-year conventional lending rate rising to a peak at 6.47 per cent in November 2023.

On the weight of higher prices and borrowing costs, the Manitoba economy started showing signs of slowing in fiscal 2023/24. The annual rate of growth (12-month moving average) in retail sales consecutively slid from 8.9 per cent in April 2023 to 0.4 per cent in March 2024. Similarly, manufacturing sales growth slowed from 17.5 per cent in April 2023 to 0.9 per cent in March 2024.

The aggressive increase in interest rates since 2022 also factored into a slowdown in capital spending on residential properties. After increasing by 36.1 per cent in fiscal 2021/22, capital investment in residential properties declined by 2.0 per cent and 1.3 per cent in two subsequent fiscal years, respectively.

As the economy slowed, inflationary pressure started to ease from near multi-decade high levels at the start of the fiscal year. To provide some relief from persistent high inflation, the Manitoba government introduced a complete exemption of the fuel tax at filling stations starting in January 2024. Fuel costs fell by 14 cents per litre starting January 1, 2024, effectively making Manitoba's fuel prices at gasoline stations the lowest in Canada. This measure also helped lower the overall annual inflation rate (12-month moving average) from a near peak increase of 7.8 per cent in March 2023 to 2.3 per cent in March 2024. Canadian inflation eased from 6.6 per cent in March 2023 to 3.3 per cent in March 2024.

With a progressive decline in the inflation rate, the Bank of Canada started to loosen its monetary policy stance. Eleven months after its last hike, the Bank reduced the target rate by 25-basis points in June 2024, followed by another 25-basis point drop in July. Most private forecast agencies expect the overnight rate to gradually decrease each quarter through 2025.

Manitoba's labour market, however, remained resilient in fiscal 2023/24, adding 18,300 jobs to the 15,700 jobs added a year earlier. Wage pressure eased somewhat but remained strong with average hourly wages rising by 3.9 per cent in fiscal 2023/24, compared to 4.8 per cent increase in the previous year.

Geopolitical tensions and conflicts, including wars in the Middle East and in Ukraine continued to feed uncertainty during the fiscal year. More recently, the attacks near the Suez Canal shipping route have increased shipping costs. Further escalation of these conflicts could quickly reverse the downward trend in inflation as higher shipping costs could get factored into globally traded products.

Climate factors, such as droughts, flooding, and wildfires, add additional pressure on expenditures and pose a risk to the provincial economy and finances. In 2023/24, there was additional pressure on hydro electricity generation from low water levels in hydro reservoirs. Coupled with lower electricity export prices, this materially lowered net income from Manitoba Hydro.

With inflation returning to within the Bank of Canada target range and interest rates gradually falling, economic activity is expected to strengthen in the near term. However, with retail spending growth continuing to slow in Manitoba, increased debt servicing costs from recent mortgage renewal could further restrain household spending.

Fiscal planning in Manitoba will continue to monitor and assess these developments to maintain the fiscal targets in the medium-term planning framework.

The government's overall exposure to risks and uncertainties arises from many variables, which it does not directly control. These include:

- volatility in economic factors such as inflation, interest rates and commodity prices
- geopolitical tensions and their repercussions to the global economy
- trade barriers including tariffs on imports and exports
- extreme weather events

- tax reforms in other jurisdictions that can materially shift tax planning and tax competitiveness
- changes in federal transfers
- unforeseen delays with planned capital investment due to environmental or other obligations
- the financial performance of Crown corporations, especially Manitoba Hydro
- outcomes from litigation, arbitration, and negotiations with third parties
- utilization rates for government services such as health care, child and family services, or employment assistance
- changes in accounting standards

The government ended the 2023/24 year with a deficit of \$1,971-million, which is \$1,608-million higher than the budgeted net loss of \$363-million. Total revenue was \$21,792-million and total expenses were \$23,763-million.

REVENUE ANALYSIS

The most significant factors causing the revenue variances from the 2023/24 budget are:

- Income taxes were \$163-million, or 2.9 per cent lower than budget, primarily due to lower year-to-date assessments from the Canada Revenue Agency (CRA) for the 2022 tax year relative to the estimates used for Budget 2023.
- Other taxes were \$56-million, or 1.2 per cent lower than budget, primarily due to the pause of collecting fuel taxes starting January 1, 2024. This decrease, and others in various taxes, were partially offset by an increase in retail sales tax reflecting stronger than anticipated retail sales and household consumption.
- Fees and other revenue were \$147-million, or 5.8 per cent higher than the budget, primarily reflecting higher cost recoveries in Health, Seniors and Long-Term Care, and higher motor carrier licences and fees, including the recognition of \$79-million in 2023/24. This amount was previously recorded as unearned revenue resulting from the adoption of new accounting standards.
- Recovery from government business enterprises and other investment earnings were \$143-million, or 11.4 per cent higher than the budget, due to higher than anticipated interest rates.
- Net income from GBEs was \$717-million or 60.7 per cent less than the budget of \$1,181-million.
 - Manitoba Hydro reported a net loss of \$172-million, a decrease of \$622-million from budget. The decrease was primarily due to low water conditions that significantly reduced net export revenue.
 - Manitoba Liquor and Lotteries Corporation's net income was \$732-million, an increase of \$64-million from budget, primarily due to higher net income from cannabis and casino operations.

- Manitoba Public Insurance Corporation's net loss was \$129-million, a decrease of \$159-million from budget. The decrease was due in part to a severe weather event in August 2023 that resulted in over 15,000 hail claims in Winnipeg and the surrounding area, the largest natural catastrophic event in MPI's history.

- Federal transfers were \$139-million or 1.9 per cent lower than budget, due to underspending on Investing in Canada Infrastructure Program projects resulting in lower federal revenue, a decrease in AgriInsurance indemnities and the corresponding reduction in the federal share of the unearned premium revenue, and a reduction in the Canada-Manitoba Early Learning and Child Care Agreement and the Canada-Manitoba Canada-Wide Early Learning and Child Care Agreement because of lower requirements than budgeted.

Revenue trend analysis provides users with information about significant changes in revenue over time and between sources, enabling users to evaluate past performance and assess potential implications for the future. The following section outlines the revenue trends in Manitoba.

Revenue Trend Analysis by Source

Total Revenue	18,479	18,602	19,944	22,258	21,792

The following chart illustrates the government's main revenue sources for 2023/24. The majority of revenue, at 65 per cent, was generated by Manitoba's own-sources.

Sources of Revenue for the Year Ended March 31, 2024

Total revenue in 2023/24 was \$21,792-million, a decrease of \$466-million or 2.1 per cent from 2022/23.

The most significant factors causing the revenue variances from the previous year are:

- Income taxes were \$5,369-million, a decrease of \$425-million, or 7.3 per cent from 2022/23, including a decrease of \$338-million for Corporation Income Tax and a decrease of \$87-million for Individual Income Tax year-over-year, primarily due to lower year-to-date assessments from the Canada Revenue Agency (CRA) and lower 2023 business profits.
- Other taxes were \$4,716-million, a decrease of \$69-million, or 1.4 per cent from 2022/23, primarily due to the pause of collecting fuel taxes starting January 1, 2024. This decrease, and other decreases in various taxes were partially offset by an increase in Retail Sales Tax reflecting stronger retail sales in 2023/24.
- Fees and other revenue were \$2,690-million, an increase of \$178-million, or 7.1 per cent from 2022/23, primarily due to higher cost recoveries in Health, Seniors and Long-Term Care and higher motor carrier licences and fees including the recognition of \$79-million in 2023/24, which was previously recorded as unearned revenue resulting from the adoption of new accounting standards.
- Recovery from government business enterprises and other investment earnings were \$1,393-million, an increase of \$203-million, or 17.1 per cent, primarily reflecting higher interest rates in 2023/24.

- Federal transfers were \$7,160-million, an increase of \$690-million, or 10.7 per cent from 2022/23, including an increase of \$577-million in Equalization transfers, an increase of \$225-million in Canada Health Transfer, an increase of \$16-million for Canada Social Transfer and an increase of \$54-million in Shared Cost and Other Transfers. These increases were offset by a \$182-million reduction in COVID-19 transfers.
- Net Income from GBEs were \$1,043-million lower in comparison to 2022/23. Major factors related to the decrease are:
 - Manitoba Hydro's net income decreased by \$810-million due to low water conditions that significantly reduced net export revenue.
 - Manitoba Public Insurance Corporation net income decreased by \$232-million. The decrease was largely due to higher hail claims resulting from a severe weather event in August 2023.
- Agriculture expenses were \$149-million, or 23.6 per cent under budget, due to lower than anticipated indemnities as a result of decreased claim activities in the AgriInsurance program.
- Consumer Protection and Government Services expenses were \$105-million, or 16.3 per cent below budget, primarily due to delays in Investing in Canada Infrastructure Program (ICIP) construction projects because of weather conditions and contractor/labour shortages.
- Enabling Appropriations expenses were \$101-million, or 75.4 per cent lower than budget, mainly due to lower than anticipated expenditures on low carbon economy initiatives and various environmental innovation projects, Idea fund and contingencies.
- Advanced Education and Training expenses were \$114-million, or 6.2 per cent lower than budget, primarily due to higher returns on pension investments that decreases the pension expense and timing differences in programs.
- Tax Credits expenses were \$58-million, or 38.7 per cent higher than budget, mainly due to the higher level of uptake for the Film and Video Production Tax Credit based on 2022 tax year assessments.
- Emergency Expenditures were \$71-million, or 71.0 per cent lower than budget, as the 2023 flood season did not result in significant expenses for the government.
- Environment and Climate Change expenses were \$26-million or 12.9 per cent lower than budget, due to lower than estimated participation in Efficiency Manitoba programs.

EXPENSE ANALYSIS

Analysis of expenses helps users understand the impact of the government's spending on the economy, the government's overall allocation and use of resources, and the cost of government programs.

Total expense in 2023/24 was \$23,763-million, an of increase of \$1,023-million, or 4.5 per cent above 2023/24 budget. The most significant factors causing the expense variances from the 2023/24 budget are:

- Health expenses were \$958-million, or 12.0 per cent higher than budget, due to the recruitment, retention and well being initiatives in the collective agreements that have settled as well as price and volume pressures in the health system.
- Families expenses were \$452-million, or 21.9 per cent, over budget, due to expenses related to the class action settlement on the Children's Special Allowances, valued at about \$530-million, and other one-time year-end adjustments.
- Justice expenses were over budget by \$163-million, or 19.0 per cent, primarily due to provisions for the settlement of longstanding lawsuits and overtime and other salary related costs in correctional services.

Expense by Function

Expense by function provides a summary of the major areas of government spending, and changes in spending from the previous year.

Expense Trend Analysis by Function

Emergency Expenditures	266	29
Tax Credits	121	208
Debt Servicing	1,963	2,156
Total Expenses by Function	21,885	23,763

Total expenses were \$23,763-million in 2023/24, an increase of \$1,878-million, or 8.6 per cent, over the 2022/23 restated amounts. The most significant factors that contributed to the variances were:

- Health, Seniors and Long-Term Care expenses were \$1,042-million, or 13.2 per cent higher, primarily attributed to the cost implication of implementing the recruitment, retention and well-being initiatives in the collective agreements that have settled as well as price and volume pressures in the health system.
- Families expenses increased by \$602-million, or 31.5 per cent, due to additional expenses related to the class action settlement on the Children's Special Allowances, price and volume increases for social services programs and other one-time, year-end adjustments.
- Justice expenses increased by \$260-million, or 34.3 per cent, primarily due to increased wages and benefits and program expenditures in public safety, and provisions for the settlement of longstanding lawsuits.

- Advanced Education and Training expenses increased by \$173-million, or 11.1 per cent, primarily due to higher costs to accommodate wage increases, social assistance program, such as affordable tuition and nurse training, as well as inflationary pressures.
- Debt Servicing costs increased by \$193-million, or 9.8 per cent, primarily due to an increase in borrowing and higher interest rates.
- Agriculture expenses increased by \$74-million, or 18.1 per cent, due to higher expenditures for AgriInsurance and AgriStability programs reflecting higher premiums and higher payments to producers.
- Transportation and Infrastructure expenses were \$34-million, or 5.8 per cent higher, primarily due to

- grant funding to the Arctic Gateway Group Limited, and increased costs related to more capitalized assets.
- Finance expenses decreased by \$253-million, or 73.5 per cent, primarily due to one-time funding programs in the prior year, including the Family Affordability Program and the Carbon Tax Relief Program.
- Municipal and Northern Relations expenses decreased by \$131-million, or 19.8 per cent, reflecting one-time community grant funding programs in 2022/23.

The following chart illustrates the government's spending by function. The departments on the left side of the chart represent 75 per cent of the total summary government operating expenses.

Expense by Function

Percentage

- Health, Seniors and Long-Term Care: 38%
- Education and Early Childhood Learning: 15%
- Families: 11%
- Advanced Education and Training: 7%
- Justice: 4%

- Agriculture: 2%
- Consumer Protection and Government Services: 2%
- Debt Servicing: 9%
- Economic Development, Investment, Trade and Natural Resources: 1%
- Environment and Climate Change: 1%
- Finance: 1%
- Housing, Addictions and Homelessness: 2%
- Municipal and Northern Relations: 2%
- Sport, Culture, Heritage and Tourism: 1%
- Tax Credits: 1%
- Transportation and Infrastructure: 3%

Year Ended March 31, 2024

Program expenses, which represent total expenses excluding the cost of debt servicing, have increased from 2022/23, primarily due to increased spending in the following appropriations: Advanced Education and Training, Agriculture, Families, Health, Seniors and Long-Term Care, and Justice.

In 2023/24, total expenses to GDP amounted to 26.3 per cent (2022/23 – 25.3 per cent), while program expenses

amounted to 23.9 per cent (2022/23 – 23.0 per cent) of GDP.

Total expenses as a percentage of total revenue were 109.0 per cent in 2023/24 (2022/23–98.3 per cent). An expense ratio of more than 100 per cent means that expenses have exceeded revenue, resulting in a deficit. A ratio of less than 100 per cent indicates that revenue exceeds expenses, resulting in a surplus.

Expense by Type

Expense trend analysis by type provides a summary of government spending by type and highlights changes in spending over time:

Expense Trend Analysis by Type

	2019/20	2020/21	2021/22	2022/23	2023/24
	Restated	Restated	Restated	Restated	Actual
	(\$ millions)				
Personnel Services	8,241	8,759	9,041	9,215	9,865
Grants/Transfer Payments	2,855	3,747	2,768	3,948	4,031
Transportation	182	158	154	182	200
Communications	75	77	99	102	102
Supplies and Services	2,035	2,509	2,406	2,500	2,751
Social Assistance Related	1,728	1,631	1,982	1,722	1,868
Other Operating	632	1,028	1,513	1,275	1,766
Debt Servicing	1,875	1,827	1,804	1,963	2,156
Minor Capital	106	207	108	135	160
Amortization	745	783	819	842	866
Total Expenses by Type	18,474	20,726	20,694	21,885	23,763

Overall allocation of spending by type was consistent, compared to 2022/23 results. The following shows the movement in expense types compared to last year:

Personnel services, the province's largest expense, as a percentage of total expenses decreased to 41.5 per cent (2022/23–42.1 per cent).

Grants/transfer payments decreased to 17.0 per cent (2022/23–18.0 per cent), Social assistance was consistent at 7.9 per cent (2022/23–7.9 per cent), Other operating increased to 7.4 per cent (2022/23–5.8 per cent).

Expense by Segment

Expense by segment analysis provides a secondary review on how the province's expenses are categorized and the area that commands the most support.

Expenses Trend Analysis by Segment

	2019/20	2020/21	2021/22	2022/23	2023/24
	Restated	Restated	Restated	Restated	Actual
	(\$ millions)				
Health	6,962	7,510	7,758	7,972	9,037
Education and Economic Development	4,700	5,051	5,224	5,689	5,890
Social Services	2,271	2,152	2,470	2,692	3,377
Community and Resource Development	1,724	2,140	1,936	1,884	1,869
Justice and Other Expenditures	1,487	2,383	2,050	2,289	2,389
General Government (Note a)	1,716	1,917	1,725	2,032	1,953
Adjustments (Note b)	(386)	(427)	(469)	(672)	(751)
Total Expenses by Segment	18,474	20,726	20,694	21,885	23,763

Note a: The general government category includes revenue from sources that cannot be attributed to a particular sector. It also includes expenses related to emergency services and disaster assistance.

Note b: Consolidation adjustments are necessary to conform sectors to government accounting policies and to eliminate transactions between sectors.

Expenses have increased by \$5,289-million, or 28.6 per cent, over the past five years.

Over the past five years, Health averaged 37.2 per cent of the province's overall expenses, Education and Economic Development averaged 25.2 per cent, Social Services expenses averaged 12.2 per cent, Community

and Resource Development expenses averaged 9.1 per cent and Justice and Other Expenditures averaged 10.0 per cent during this same period. The five different sectors have been stable with very small fluctuations in expenditures when comparing year-over-year fluctuations.

FINANCIAL ASSETS

An analysis of financial assets provides users with information regarding the amount of resources a government can convert to cash, if required, to discharge existing liabilities or to finance future operations.

Financial Assets Trend Analysis

	2019/20	2020/21	2021/22	2022/23	2023/24
	Restated	Restated	Restated	Restated	Actual
	(\$ millions)				
Cash and cash equivalents	2,780	3,018	3,407	2,746	4,288
Accounts receivable and advances	1,857	1,946	2,333	2,541	2,467
Inventories for resale	30	25	17	15	14
Due from Manitoba Hydro – Electric Board	23,078	23,936	24,587	24,421	24,428
Derivatives financial instruments	-	-	-	2,055	2,304
Portfolio Investments	2,359	3,168	3,031	4,114	4,013
Loans and advances	1,604	1,591	1,438	1,549	1,575
Equity in government business enterprises	3,411	3,829	3,870	4,678	4,481
Equity in government business partnerships	20	20	20	20	20
Total Financial Assets	35,139	37,533	38,703	42,139	43,590

Effective April 1, 2022, the province implemented PS 3450 Financial Instruments (FI). This standard required the inclusion of derivative assets on the statement of financial position, and the value of portfolio equity investments included at fair market value. This standard was implemented prospectively.

Financial assets increased by \$1,451-million, or 3.4 per cent, from 2022/23. This is primarily due to an increase of \$1,542-million, or 56.2 per cent in cash and cash equivalents, a decrease in accounts receivable of \$74-million or 2.9 per cent, an increase in derivative balance of \$249-million, a decrease in portfolio investments of \$101-million, and a decrease in equity in government business enterprises of \$197-million or 4.2 per cent.

NET DEBT AND ACCUMULATED DEFICIT

Net debt is the difference between the province's liabilities and financial assets. It represents the amount of liabilities to be funded from future revenue and taxation. Operating deficits, investments in tangible capital assets, and increases in other non-financial assets all increase net debt. Net debt is decreased by operating surplus or decreases in the value of net tangible capital assets and other non-financial assets.

Net debt increased to \$32.3-billion in 2023/24 (2022/23-\$30.2-billion).

The main reasons for the 2023/24 increase in net debt were:

- 2023/24 operating deficit of \$1,971-million
- Net tangible capital assets acquisition of \$1,016-million

These increases were offset by \$759-million remeasurement gain and other comprehensive income.

Net debt of \$32,316-million as of March 31, 2024, is higher than the budget by \$1,259-million.

The total accumulated deficit has increased by \$1,213-million, or 8.3 per cent, from 2022/23, due to an operating deficit of \$1,971-million offset by an accumulated remeasurement gain of \$759-million.

Net Debt and Accumulated Deficit Trend Analysis

	2019/20	2020/21	2021/22	2022/23	2023/24
	Restated	Restated	Restated	Restated	Actual

Total Accumulated Deficit	(11,974)	(13,575)	(14,063)	(14,634)	(15,847)

NON-FINANCIAL ASSETS INCLUDING TANGIBLE CAPITAL ASSETS

An analysis of non-financial assets provides users with information to assess changes in the government's infrastructure and long-term non-financial assets.

Non-Financial Assets Trend Analysis

	2019/20	2020/21	2021/22	2022/23	2023/24
	Restated	Restated	Restated	Restated	Actual
	(\$ millions)				
Tangible capital assets	14,041	14,520	14,764	15,167	16,182
Prepaid expenses	77	81	87	97	107
Inventories	79	190	342	282	180
Total Non-Financial Assets	14,197	14,791	15,193	15,546	16,469

Non-financial assets typically represent resources a government can use in the future to provide services using tangible capital assets. The management of non-financial assets has a direct impact on the level and quality of services a government can provide to its citizens.

As of March 31, 2024, the province's non-financial assets balance was \$923-million, or 5.9 per cent, higher than the 2022/23 balance. The majority of the government's non-financial assets are tangible capital assets. The

net book value of tangible capital assets increased by \$1,016-million over the 2022/23 balance.

Total tangible capital assets additions for 2023/24 were \$1,939-million (2022/23 – \$1,371-million). Additions include investments in health and education facilities and other land-based infrastructure such as roads, bridges, water control structures and parks.

An analysis of tangible capital assets helps users understand whether the government has the ability to provide services in future periods.

Tangible Capital Assets Trend Analysis

	2019/20 Restated	2020/21 Restated	2021/22 Restated	2022/23 Restated	2023/24 Actual
	(\$ millions)				
Land	330	305	319	324	370
Building and leasehold improvements	6,317	6,674	6,790	6,609	6,760
Vehicles and equipment	748	739	711	715	740
Computer hardware and software	359	318	322	443	385
Assets under construction	709	766	727	927	1,502
Infrastructure	5,578	5,718	5,895	6,149	6,424
Total Tangible Capital Assets	14,041	14,520	14,764	15,167	16,182

Government capitalizes the gross cost of its tangible capital assets. Recoveries from other governments, related to capital projects, are recognized as revenue in the year the capital asset is purchased or constructed. Crown land transferred to the province is not reported in the financial statements as a tangible capital asset.

The total cost of tangible capital assets has increased steadily from \$24.7-billion in 2019/20 to \$30-billion in 2023/24 (which includes a one-time recognition of AROs in the 2022/23 fiscal year), demonstrating that the province has more assets available to provide services in future periods.

Similarly, the net book value of tangible capital assets, which is the remaining value of the assets on the Statement of Financial Position, has risen from \$14-billion in 2019/20 to \$16.2-billion in 2023/24 (2022/23–\$15.2-billion). The following chart illustrates the total net book value of all tangible capital assets from 2019/20 to 2023/24.

Tangible Capital Assets Net Book Value

Infrastructure assets include roads, bridges, water control structures, and parks.

The following chart illustrates tangible capital assets by class and includes the related accumulated amortization as of March 31, 2024.

STATEMENT OF RESPONSIBILITY

Treasury Board Secretariat
Office of the Provincial Comptroller
www.manitoba.ca

STATEMENT OF RESPONSIBILITY

The summary financial statements are prepared under the direction of the Minister of Finance in accordance with the stated accounting policies of the Government reporting entity and include summary statements of financial position, operations, accumulated deficit, remeasurement gains and losses, change in net debt, cash flow, notes and schedules integral to the statements. Together, they present fairly, in all material respects, the financial position of the Government as at March 31, 2024, and the results of its operations, its remeasurement gains and losses, the changes in its net debt, and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

The Government is responsible for the integrity and objectivity of the summary financial statements. In the preparation of these statements, estimates are sometimes necessary because a precise determination of certain assets, liabilities, revenues and expenses is dependent on future events. The Government believes such estimates have been based on careful judgements and have been properly reflected in the summary financial statements.

The Government fulfills its accounting and reporting responsibilities, through the Office of the Provincial Comptroller, by maintaining systems of financial management and internal control. The systems are continually enhanced and modified to provide timely and accurate information, to safeguard and control the Government's assets, and to ensure all transactions are in accordance with The Financial Administration Act.

The Auditor General expresses an independent opinion on these financial statements. The report, stating the scope of the Auditor General's audit and opinion, appears on the following page.

These financial statements are tabled in the Legislature. They are referred to the Standing Committee on Public Accounts, which reports to the Legislature on the results of its examination together with any recommendations it may have with respect to the financial statements and accompanying audit opinion.

On behalf of the Government of the Province of Manitoba approved by:

Original signed by

Brenda Y. Feng, CPA, CGA
Provincial Comptroller

September 25, 2024

INDEPENDENT AUDITOR'S REPORT

To the Legislative Assembly of the Province of Manitoba

Qualified Opinion

We have audited the consolidated financial statements of the Province of Manitoba (the Province), which comprise the consolidated statement of financial position as at March 31, 2024, and the consolidated statement of operations, consolidated statement of accumulated operating deficit, consolidated statement of remeasurement gains and losses, consolidated statement of changes in net debt, and consolidated statement of cash flow for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (the Summary Financial Statements).

In our opinion, except for the possible effects of the matters described in the *Basis for Qualified Opinion* section of our auditor's report, the accompanying consolidated Summary Financial Statements present fairly, in all material respects, the consolidated financial position of the Province as at March 31, 2024, and the consolidated results of its operations, consolidated statement of accumulated operating deficit, consolidated remeasurement gains and losses, consolidated changes in its net debt, and consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards (PSAS).

Basis for Qualified Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Summary Financial Statements* section of our report. We are independent of the Province in accordance with the ethical requirements in Canada that are relevant to our audit of the Summary Financial Statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Insufficient support available for contractual obligations

Under Canadian PSAS, contractual obligations that commit the Province to make certain expenditures, for a considerable period into the future, are required to be disclosed to provide an understanding of the nature and extent to which the province's resources are already committed to meet its future obligations.

Information on the Province's contractual obligations is included in Note 9 of the Summary Financial Statements. We were unable to obtain sufficient appropriate audit evidence regarding contractual obligations as at March 31, 2024 as the Province was unable to provide support to allow us to verify the accuracy and completeness of the information included in Note 9. Consequently, we were

unable to determine whether or not the information in Note 9 represents a departure from Canadian PSAS.

Insufficient support available for contractual rights

Under Canadian PSAS, rights to economic resources arising from contracts or agreements that will result in both an asset and revenue to the Province in the future are required to be disclosed to provide an understanding of the resources that will be available to the Province to meet its future obligations or to finance future operations.

Information on the Province's contractual rights is included in Note 19 of the Summary Financial Statements. We were unable to obtain sufficient appropriate audit evidence regarding contractual rights as at March 31, 2024 as the Province was unable to provide support to allow us to verify the accuracy and completeness of the information included in Note 19. Consequently, we were unable to determine whether or not the information in Note 19 represents a departure from Canadian PSAS.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the Summary Financial Statements of the current period. These matters were addressed in the context of our audit of the Summary Financial Statements as a whole, and in forming our auditor's opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matters described in the Basis for Qualified Opinion section, we have determined the matters described below to be the key audit matters to be communicated in our auditor's report.

Key audit matters

Corporate and personal income tax revenues

Overview

Corporate and personal income tax are major sources of revenues for the Province, at \$900 million and \$4.46 billion respectively for the year. The Province considers economic forecasts and modelling for provincial tax revenue generated between January and March 2024, and generates an estimate based on revenue earned from April to December of the previous year based on Canada Revenue Agency tax assessment information.

Related financial statement disclosures

Note 1 - Significant Accounting Policies;
Schedule 1 - Consolidated Statement of Amounts Receivable

Why this is a key audit matter.

Corporate and personal income tax revenues are estimates involving significant management judgement and estimation uncertainty.

Income Tax revenue in a fiscal year is derived from management's estimates of tax for 2 separate calendar years. For the year ended March 31, 2024, the Province recorded 9 months of revenue for the 2023 calendar year and 3 months of revenue for the 2024 calendar year. The Canada Revenue Agency will not finalize its assessments for either of these years until after the financial statements for the year ended March 31, 2024 have been issued. Uncertainty exists due to differences that may arise in final tax assessments and initial economic estimates.

How the matter was addressed during the audit:

- We obtained an understanding of the systems and controls over the process of recording and estimating both tax revenues.
- We engaged an independent economist to assist us in our review of the Province's economic forecast model for its reasonability and completeness, including management's use of key assumptions.
- We reviewed the Province's retrospective review comparing previous actual results to managements estimates using the current model.
- We tested the accuracy of management's calculations supporting the estimate.
- We reviewed the Province's accounting adjustments made to the economic forecasts.

Key audit matters

Asset Retirement Obligations

Overview

In the 2023 fiscal year, the Province was required to adopt the accounting standard PS 3280 Asset Retirement Obligations. We qualified our opinion in 2023 on the basis that the Province had not provided sufficient appropriate audit evidence regarding the completeness and valuation of the amounts recorded and the disclosures required. During the 2024 fiscal year, the Province prepared a supported estimate. At March 31, 2024 the Province recorded \$806 million in asset retirement obligations and restated March 31, 2023 asset retirement obligation to \$811 million.

Related disclosures are

Note 1 - Significant Accounting Policies;

Note 2 –Adoption of New Accounting Standards and Changes to the Accumulated Deficit;

Note 13 – Asset Retirement Obligations

Schedule 7 – Consolidated Statement of Tangible Capital Assets

Why this is a key audit matter.

The asset retirement obligations are complex estimated liabilities that require significant judgements. It includes identifying legal requirements and assumptions used in the estimation of the costs to complete the work at a point in the future.

How the matter was addressed during the audit:

- We obtained an understanding of systems and internal controls over the process of recording asset retirement obligations.
- We obtained an understanding of the Province's methodology and assumptions used.
- We examined the Province's underlying support for all assumptions used in the estimation.
- We reviewed the Province's identification of asset retirement obligations for both the 2023 and 2024 years.
- We reviewed changes to the assumptions made in 2024.
- We reviewed all financial related disclosures for accuracy and completeness.

Key audit matters

Financial Instruments

Overview

Financial Instruments standards PS 3450, Portfolio Investments PS 3041 and Foreign Currency Translation PS 2601 are designed to provide the users of the financial statements information on how instruments were measured, and the extent the Province is exposed to financial risks.

Significant items on the statements and disclosures are as follows:

- Derivatives Financial Instruments are recorded at fair value in the consolidated statement of financial position. At March 31, 2024, the Province recorded a \$2.3 billion derivative asset, and a \$2.5 billion liability
- \$149 million portfolio Investments in equity as disclosed in note 3 are recorded at fair value at March 31, 2024.
- Unrealized gains and losses on foreign exchange, derivatives and portfolio investments are recorded in the consolidated statement of remeasurement gains and losses. The accumulated remeasurement losses at March 31, 2024 were \$521 million.

Related disclosures are

Note 1 - Significant Accounting Policies;
Note 3 – Financial Instrument Classification;
Note 4 - Portfolio Investments;
Note 12 - Risk Management and the Use of Derivative Financial Instruments;
Schedule 4 - Consolidated Statement of Public Debt

Why this is a key audit matter.

- Financial Instruments and related standards have a significant impact on the consolidated financial statements. The measurement uncertainty involved in the determination of the fair value of derivatives is complex and requires management's judgement. There are also key disclosures related which include investments and risk disclosures associated with the Province's use of these instruments.

How the matter was addressed during the audit:

- We obtained an understanding of systems and internal controls over the process of recording and the valuation of derivatives.
- We reviewed any changes in the valuation model to assess the appropriateness of the Province's model in estimating the fair value of derivatives.
- We examined the Province's underlying data for its estimate of fair value of derivatives. We tested the completeness of derivatives recorded in the Province's financial statements
- We reviewed the Province's identification of other contract types to ensure any material embedded derivatives identified were accurate and recorded.
- We tested management's calculations of gains and losses recorded on the consolidated statement of remeasurement gains and losses for accuracy and completeness.
- We reviewed all financial instruments-related disclosures for accuracy and completeness.

Other Information

The Province is responsible for the other information. The other information comprises the Province of Manitoba Annual Report and Public Accounts (the Annual Report) but does not include the Summary Financial Statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our qualified opinion on the Summary Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Summary Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Summary Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. As described in the *Basis for Qualified Opinion* section above, we were unable to obtain sufficient appropriate evidence about the disclosures for contractual obligations and contractual rights as at March 31, 2024. Accordingly, we will be unable to conclude whether or not the other information is materially misstated with respect to this matter.

Responsibilities of Management and Those Charged with Governance for the Summary Financial Statements

Management is responsible for the preparation and fair presentation of the Summary Financial Statements in accordance with PSAS, and for such internal control as management determines is necessary to enable the preparation of Summary Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Summary Financial Statements, management is responsible for assessing the Province's ability to continue as a going concern, meaning that the Province will continue in operation, and will be able to realize assets and discharge liabilities and meet its statutory obligations in the normal course of operations for the foreseeable future.

Those charged with governance are responsible for overseeing the Province's financial reporting process. With respect to the Province, those charged with governance refers to the Minister of Finance.

Auditor's Responsibilities for the Audit of the Summary Financial Statements

Our objectives are to obtain reasonable assurance about whether the Summary Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally

accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Summary Financial Statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Summary Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Province's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Province's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Summary Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Province to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Summary Financial Statements, including the disclosures, and whether the Summary Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Province to express an opinion on the Summary Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Summary Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE SUMMARY FINANCIAL STATEMENTS

For the Year Ended March 31, 2024

1. SIGNIFICANT ACCOUNTING POLICIES

A. GENERAL BASIS OF ACCOUNTING

The summary financial statements have been prepared by the Manitoba government (Government) in accordance with Canadian public sector accounting standards (PSAS) for governments recommended by the Public Sector Accounting Board (PSAB).

B. THE GOVERNMENT REPORTING ENTITY

These financial statements report the activities of the Consolidated Funds as defined in the Financial Administration Act combined with the organizations that are controlled by the Government.

Various government components, government organizations (GOs), government business enterprises (GBEs), partnerships, and business partnerships (BPs) comprising the Government Reporting Entity (GRE) are listed in Schedule 8 to the summary financial statements.

To be considered a part of the GRE, an organization must be controlled by the Government or under the shared control of the Government. Control, as defined by PSAB, is the power to govern the financial and operating policies of another organization with expected benefits or the risk of loss to the Government from the other organization's activities.

The not-for-profit personal care homes are individual corporations operated by their own boards of directors. The personal care homes are included in the GRE. The nature of the relationship between the province and not-for-profit personal care homes is such that control over their assets has been determined to exist for accounting purposes only and not for legal purposes.

C. BASIS OF CONSOLIDATION

GOs, except for GBEs and BPs, are consolidated after adjusting their accounting policies to a basis consistent with the accounting policies of the GRE, as outlined in note 1.E. of the significant accounting policies. Inter-entity accounts and transactions are eliminated upon consolidation, except for retail sales tax. Where the fiscal year end dates of the GOs are different from those of the GRE, and their transactions significantly affect the financial statements, their financial results are updated to March 31.

GBEs, whose principal activity is carrying on a business, maintain their accounts in accordance with International Financial Reporting Standards (IFRS), which are considered appropriate to their individual objectives and circumstances. They derive most of their revenue from sources outside the GRE. They are reported in these summary financial statements using the modified equity method of accounting. Under the modified equity method, the original investment of the Government, in GBEs, is initially recorded at cost and adjusted annually to include the net income or losses and other net equity changes of these enterprises, without adjusting their accounting policies to a basis consistent with that of the GRE.

The financial results of GBEs are not updated to March 31, where their fiscal year end is different from that of the GRE, except when transactions, which would significantly affect the summary financial statements, occur during the intervening period. Inter-entity accounts and transactions with GBEs are not eliminated. Supplementary financial information describing the financial position and results of operations of these enterprises is presented in Schedule 3 to the summary financial statements.

1. Significant Accounting Policies (continued)

The characteristics of a BP are like a GBE except the organization is a partnership under shared control, rather than a government organization under the control of the province. BPs are accounted for in the summary financial statements using the modified equity method. The province accrues its share of the BP's net income or losses, and other net equity changes, without adjusting the BP's accounting policies to a basis consistent with that of the GRE. The province's share of the assets, liabilities, and results of operations for its BP are presented in Note 6 to the summary financial statements.

D. MEASUREMENT UNCERTAINTY

Estimates are used to accrue revenues and expenses in circumstances where the actual accrued revenues and expenses are unknown at the time the financial statements are prepared. Uncertainty in the determination of the amount at which an item is recognized in the financial statements is known as measurement uncertainty. Such uncertainty exists when there is a variance between the recognized amount and another reasonable amount, as there is whenever estimates are used.

Measurement uncertainty in these financial statements exists in the accrual of individual and corporate income taxes, Canada Health Transfer and Canada Social Transfer entitlements, and accrual for federal shared cost programs.

The uncertainty arises from possible differences between the estimates for the economic factors used in calculating the accruals and actual economic results. The amount of income tax attributable to the year can change because of reassessments in subsequent years. In addition, the lag time in receiving economic information and subsequent revisions to the tax data could also lead to notable changes in reporting.

The valuation of derivatives at fair value affects the Consolidated Statement of Financial Position and Consolidated Statement of Remeasurement Gains and Losses. The calculation of the fair value is complex and uses mathematical models that are subject to a variety of inputs and assumptions. Therefore, measurement uncertainty exists in the valuation and completeness of both derivatives and embedded derivatives.

Measurement uncertainty also includes accruals for pension obligations and asset retirement obligations, accrual for retroactive wages, accruals for the remediation of contaminated sites, allowances for doubtful accounts, receivables and loans and advances, unearned revenue for outstanding performance obligations under the new standard PS 3400 revenue, accruals for liabilities valued through actuarial valuations, such as long-term disability, severance, sick pay obligations, workers compensation claims, and provision for losses on guarantees.

Uncertainty related to accruals for pension obligations arises because actual results may differ significantly from the Government's best estimates of expected results based on variables such as earnings on the pension investments, salary increases and the life expectancy of pensioners. Results for asset retirement obligations may differ due to undiscovered hazardous materials, cost estimations, discount rates and uncertainty as to the dates the remediation will be undertaken.

Uncertainty related to the accrual of retroactive wages arises because actual wage settlements may differ significantly from the final collective agreements. The estimate for the accrual of retroactive wages is based on the Government's best estimate of the public services salary increases that may be negotiated or determined through arbitration.

Uncertainty related to the accrual of the remediation of contaminated sites exists because the remediation activities, methods and the extent of contamination may differ significantly from the Government's original assessment of the site and proposed remediation plans.

1. Significant Accounting Policies (continued)

There is also measurement uncertainty related to the allowance for doubtful receivables, and loans and advances because the estimation could be different from the actual collectability due to various factors such as changes in economic conditions.

E. BASIS OF SPECIFIC ACCOUNTING POLICIES

(i) *Gross Accounting Concept*

Assets and liabilities are presented at their gross amount and are not netted against each other. Revenues and expenses are recorded as gross amounts with the following exceptions:

- (1) Refunds of revenue are treated as reductions of current year revenue.
- (2) Decreases in valuation allowances are treated as reductions to expense.

(ii) *Revenue*

(1) *Government transfers*

Transfer payments from the Government of Canada include all accruals determined for current year entitlements that have been authorized by March 31, for which any eligibility criteria have been met and that can be reasonably estimated. A liability is recorded to the extent that a transfer gives rise to an obligation that meets the definition of a liability in accordance with the criteria in PS 3200 Liabilities.

(2) *Taxes*

Tax revenues are recognized in the period in which they occur and when they are authorized by legislation, or the ability to assess and collect the tax has been provided through legislative convention. Reported tax revenues include estimated revenues for the current period, adjustments between the estimated revenues of previous tax years and actual amounts, and revenues from reassessments relating to prior tax years. Reported amounts do not include estimates of some unreported taxes or the impact of future reassessments.

Revenues from individual and corporation income tax are accrued in the year earned based upon estimates made by Manitoba Finance using statistical models. Personal Income Tax (PIT) and Corporation Income Tax (CIT) revenues for the period are accrued based on an estimate of current year tax assessments, plus late-arriving assessments, and reassessments for the 2023 tax year, prorated from the Federal Department of Finance's Tax Sharing Statements and an estimate for the 2024 tax year based on Manitoba Finance's economic forecasts.

PIT and CIT revenues are recorded at estimated amounts after considering adjustments for tax concessions and other adjustments from the income tax system. Transfers made through the tax system are recognized as an expense.

Revenues from other taxes are accrued in the year earned and are recorded net of tax concessions and other adjustments. Transfers made through the tax system are recognized as an expense.

(3) *Fees and other revenue*

Exchange transactions are transactions with performance obligations. A performance obligation is a promise to provide a distinct good or service or series of distinct goods or services to a payor for consideration. The province recognizes revenue when the performance obligations are satisfied, and the payor obtains control of the asset or benefits from the service provided.

Non-exchange transactions are transactions or events where there is no direct transfer of goods or services to a payor. The province receives an increase in economic resources for which the payor does not receive any direct goods or services in return. Revenue from non-exchange

1. Significant Accounting Policies (continued)

transactions is recognized when the province has the authority and identifies a past transaction or event that gives rise to an asset.

Revenue from product sales is recognized when the significant rewards of ownership of the products have passed to the buyer, usually on the delivery of products.

Revenue from contracts with customers is recognized at an amount equal to the transaction price allocated to the specific distinct performance obligation when the performance obligation is satisfied. Revenue from contracts with customers is evaluated and separated into distinct performance obligations when there is a distinct good or service to be transferred in the future.

The province assesses its revenue arrangements against specific criteria to determine if it is acting as a principal or agent. The Government is the principal if it has primary responsibility for the delivery of the goods and services. As the principal, the Government sets the amounts charged, and bears the inventory and credit risk from the buyer. Consideration from the buyer is recognized as revenue and is measured on a gross basis.

(4) *Externally restricted assets*

Externally restricted inflows are recognized as revenue in the period in which expenses are incurred for the purposes specified. Externally restricted inflows received before the expenses are incurred are reported as liabilities.

Premiums paid by the producers and the province to the AgriInsurance program at Manitoba Agricultural Services Corporation (MASC) are considered externally restricted inflows and are recorded as unearned revenue and not brought into revenue until required. Externally restricted premiums can only be used for:

- a) indemnities payable under the contracts of the fund;
- b) premiums and other amounts payable for reinsurance;
- c) interest on funds borrowed for the fund;
- d) annual revenue from the production insurance program to the Production Insurance Trust Fund
- e) additional amounts from the surplus of the fund to the Production Insurance Trust Fund as MASC may contribute under the Production Insurance Trust agreement.

Externally restricted funds also include unspent grants, non-endowed donations, investment income and rental fees.

(iii) Expenses

(1) *Accrual accounting*

All expenses incurred for goods or services received are recorded on an accrual basis.

Expenses include provisional amounts recorded in anticipation of costs, which are quantifiable and have been identified as obligations.

(2) *Government transfers*

Government transfers are recognized as expenses in the period in which the transfer is authorized, any eligibility criteria are met, and the amounts can be estimated.

(iv) Financial Instruments

The Government classifies its financial instruments as either fair value, cost, or amortized cost. The Government's accounting policy for each category is as follows:

1. Significant Accounting Policies (continued)

Fair value

This category includes derivatives and equity instruments quoted in an active market. The Government has not designated any of its portfolio investments or borrowings at fair value that would otherwise be classified in the amortized cost category.

Financial instruments in the fair value category are initially recognized at cost and subsequently carried at fair value. Unrealized changes in fair value on unrestricted investments are recognized in the Consolidated Statement of Remeasurement Gains and Losses until they are realized. When realized, they are transferred to the Consolidated Statement of Operations.

Where a decline in fair value of the financial asset is determined to be other than temporary, the amount of the loss is recognized in the Consolidated Statement of Operations.

Premiums and discounts on derivatives are amortized to public debt expense on the same basis as the underlying debt instrument. The unamortized portion is included in the derivative assets or liabilities to offset the accumulated remeasurement gains or losses.

Transaction costs related to financial instruments in the fair value category are expensed as incurred.

Cost or amortized cost

This category includes cash and cash equivalents, accounts receivable, portfolio investments, accounts payable and public debt. They are initially recognized at cost and subsequently carried at amortized cost using the effective interest rate method, less any impairment losses on financial assets, except for donated financial assets, which are initially recognized at fair value.

Transaction costs related to financial instruments in the amortized cost category, including syndicate fees related to the issuance of debentures, are added to the carrying value of the instrument.

Write downs on financial assets in the cost or amortized cost category are recognized when the amount of a loss is known with sufficient precision, and there is no realistic prospect of recovery. Financial assets whose decline of which is other than temporary are written down to net recoverable value with the loss being recognized in the Consolidated Statement of Operations.

(v) Foreign Currency Translation

The Government's foreign currency risk is reflected in its financial statements. Monetary assets and liabilities, denominated in a foreign currency, are translated at the year-end rate of exchange. Revenue and expense arising from a foreign currency transaction are translated into Canadian dollars at exchange rates approximating those in effect at the transaction date.

At each financial statement date, monetary assets, and liabilities, must be adjusted to reflect the exchange rate in effect at that date. Unrealized foreign exchange gains or losses that arise prior to settlement are recognized in the Consolidated Statement of Remeasurement Gains and Losses.

In the period of settlement, the cumulative amount of foreign exchange gains and losses is removed from the Consolidated Statement of Remeasurement Gains and Losses, and is recognized in the Consolidated Statement of Operations.

1. Significant Accounting Policies (continued)

(vi) Financial Assets

(1) *Accounts receivable*

Accounts receivables are recorded at their full expected amount. A valuation allowance is recorded when collection of the receivable is considered doubtful.

(2) *Loans and advances*

Loans and advances are recorded at cost and subsequently carried at amortized cost using the effective interest rate method. A valuation allowance is recorded to reduce the value of the assets to their estimated realizable value. Loans with significant concessionary terms would be considered a grant and expensed in the Consolidated Statement of Operations. Valuation allowances are made when collection is considered doubtful. Premiums that may arise from the early repayment of loans or advances are reflected as unearned and are amortized monthly to debt servicing expense over the term of the loan or advance. The Government stops accruing interest on loans and advances when the amount is considered uncollectable.

(3) *Portfolio investments*

Portfolio investments are initially recognized at cost and subsequently carried at amortized cost using the effective interest rate method.

Portfolio investments denominated in a foreign currency are translated to the Canadian dollar equivalent at the exchange rate in effect on March 31. Changes in the value of portfolio investments due to foreign currency changes are recorded in the Consolidated Statement of Remeasurement Gains and Losses until the investments are sold.

Investment income on portfolio investments, denominated in a foreign currency, including interest income, and realized gains or losses on the sale of unrestricted investments, are translated to Canadian dollar equivalents at the exchange rate in effect at the date of the transaction.

Investment income earned on externally restricted investments are recorded as unearned revenue, and recognized as revenue when the related expenditure is made, or stipulations are met.

(4) *Inventories for resale*

Inventories held for resale are recorded at the lower of cost and net realizable value.

Inventory for resale includes land under development. Land under development includes the cost of land and all costs related to land improvement. Land improvements also include development, site preparation, architectural engineering, surveying, fencing, landscaping, and infrastructure for electrical, roads and underground works.

Land held for future development or sale is valued at the lower of cost or appraised value, adjusted for estimated disposal purchase price and related acquisition costs.

(vii) Liabilities

Liabilities are present obligations to outside parties, including GBEs, because of transactions and events occurring prior to the year end. The settlement of the liabilities will result in the future transfer or use of assets or other forms of settlement. Liabilities are recorded at the estimated amount payable.

1. Significant Accounting Policies (continued)

(1) *Public debt*

Public debt represents the direct debt obligations of the Province of Manitoba. Public debt includes borrowings for government operating purposes, the acquisition of tangible capital assets, and lending to public sector entities within the GRE. Public debt is shown at amortized cost, net of the government debt held as provincial investments. Discounts or premiums, and commissions incurred at the time of the issue of debt are amortized monthly to debt servicing expense using the effective interest rate method. Foreign borrowings are translated at the exchange rate in effect on March 31. The unrealized foreign exchange gains and losses are recorded to the Consolidated Statement of Remeasurement Gains and Losses.

Public debt is reported under two categories:

- (a) Tax-payer supported debt includes direct debt used for government operating and capital purposes including the debt of an entity that is fully consolidated in these financial statements.
- (b) Borrowings on behalf of Manitoba Hydro-Electric Board (Manitoba Hydro) debt include the debt borrowed by the Government on behalf of Manitoba Hydro. Manitoba Hydro fully funds their operations and debt through the sale of goods and services at commercial rates to buyers that are outside the GRE.

(2) *Pension liability*

The Government accounts for employee pension plans by recognizing a liability and an expense in the reporting period in which the employee has provided service using the accrued benefit actuarial cost method, except as disclosed in Note 7. The value of plan assets is determined using a moving average fair value method. Under this method, fair value is the underlying basis, with any excess (or shortfall) of investment returns over (or below) the expected long-term rate being amortized over a five-year period. When actual experience varies from actuarial estimates, for both the accrued benefit obligation and plan assets, the difference is amortized over the expected average remaining service life of the related employee group. Past service costs from plan amendments are recognized in full as expenses in the year of the amendment.

(3) *Employee future benefits*

The Government recognizes the cost of accumulating benefits in the periods the employee provides service. For benefits that do not vest or accumulate, a liability is recognized when the event that obligates the Government to pay benefits occurs. Liabilities for severance, non-vesting sick pay, and long-term disability income plan and workers compensation claims are based upon actuarial calculations.

The periodic actuarial valuations of these liabilities may determine that adjustments are needed to the actuarial calculations because actual experience is different from that expected and/or because of changes in the actuarial assumptions used. The resulting actuarial gains or losses for the severance liability are amortized over the expected average remaining service life of the related employee group. Actuarial gains and losses for the Long-Term Disability Income Plan and the workers compensation claims are recognized as they arise. The liability is included under employee future benefits.

The Government accrues a liability for vacation pay and accumulating, non-vesting sick pay benefits. The liability for accumulating, non-vesting sick pay benefits is based upon a review

1. Significant Accounting Policies (continued)

of past experience. A liability is extrapolated upon the expected future utilization of current accumulated benefits. The liability is recognized under salaries and benefits.

(4) *Guarantees*

Guarantees by the Government are made through specific agreements or legislation to repay promissory notes, bank loans, lines of credit, mortgages, and other securities. The provision for losses on guaranteed loans are determined by a review of individual guarantees. A provision for losses on these guarantees is recorded when it is likely that a loss will occur. The amount of the loss provision represents the Government's best estimate of probable claims against the guarantees. Where circumstances indicate the likelihood of claims arising, provisions are established for those loan guarantees.

(5) *Liability for contaminated sites*

The Government recognizes a liability for remediation of contaminated sites when the following criteria have been met:

- There is evidence that contamination exceeds an environmental standard.
- The Government is directly responsible or accepts responsibility for the contamination,
- It is expected that future economic benefits will be given up and a reasonable estimate of the amount can be made.

In cases where the Government's responsibility is not determinable, a contingent liability may be disclosed.

The liability reflects the Government's best estimate of the amount required to remediate the site to the current minimum standard of use prior to contamination, as of the financial statement date. The liability is determined on a site-by-site basis. Third party recoveries related to a contaminated site are recorded as an asset, provided they can be appropriately measured and estimated with economic benefits expected to be obtained. Recoveries are not netted against the liability. Contingent recoveries are only disclosed. Recorded liabilities are adjusted each year for the passage of time, new obligations, changes in management estimates, and actual remediation costs incurred. The Government measures the liability using present value techniques when cash flows are expected to occur over extended future periods.

(6) *Asset retirement obligations*

An asset retirement obligation (ARO) is a legal obligation related to the retirement of a tangible capital asset. The retirement of a tangible capital asset is the permanent removal of an asset from service. This encompasses the sale, abandonment, or disposal in some other matter but not its temporary idling.

Upon recognition of a liability for an ARO, the Province recognizes an asset retirement cost by increasing the carrying amount of the related tangible capital asset. The Government allocates the asset retirement cost to expense in a rational or systematic manner over the remaining useful life of the tangible capital asset.

An ARO may exist in connection to a fully amortized tangible capital asset. The cost of an ARO is amortized over the revised estimated remaining useful life of the asset. An ARO related to a tangible capital asset no longer in productive use is expensed given there is no period of future benefit from the tangible capital asset. An ARO related to an asset that is not recognized

1. Significant Accounting Policies (continued)

is also expensed as there is no cost basis for the underlying asset to which retirement cost can be attached.

Asset retirement obligations are initially measured as of the date the legal obligation was incurred. Management's best estimate is based on the amount required to retire tangible capital assets and subsequently remeasured considering any new information and the appropriateness of assumptions used. A present value technique is used to determine the amount of the obligation at the financial reporting date. The liability is adjusted for the passage of time using the discount rate and is recognized as accretion expense in the Consolidated Statement of Operations.

(viii) Non-Financial Assets

(1) Recognition and measurement

In the public sector, recognition and measurement of tangible capital and other non-financial assets are based on their future service potential. Such assets do not generate future net cash inflows. Therefore, these assets will not provide resources to discharge the liabilities of the Government. For non-financial assets, the future economic benefit consists of their capacity to render service to fulfill the Government's objectives.

(2) Inventories

Inventories held for resale are classified as non-financial assets if it is anticipated that the sale will not be completed within one year of the reporting date. Inventories held for use are classified as non-financial assets. Inventories for distribution at no charge are recorded at the lower of cost or current replacement cost.

(3) Prepaid expenses

Prepaid expenses are payments for goods or services that will provide economic benefits in future periods. The prepaid amount is recognized as an expense in the year the goods or services are used or consumed.

(4) Tangible capital assets

The cost of tangible capital assets purchased includes the purchase price as well as costs such as installation costs, design and engineering fees, survey, and site preparation costs, and other costs incurred to put the asset into service. The cost of tangible capital assets constructed by the Government includes all direct construction costs such as materials, labour, design, installation, engineering, architectural fees, and survey and site preparation costs. It also includes overhead costs directly attributable to the construction activity such as licenses, inspection fees, indirect labour costs, and amortization expense of any equipment, which was used in the construction project. Any carrying cost associated with the development and construction of tangible capital assets is included in the cost of the asset, provided the cost exceeds \$20-million and development time exceeds one year.

Certain assets, which have historical or cultural value, including works of art, historical documents as well as historical and cultural artifacts are not recognized as tangible capital assets because a reasonable estimate of the future benefits associated with such property cannot be made. Economic resources such as Crown land, mineral rights, timber rights, fish, and wildlife, meet the definition of an asset. However, they are not recognized in the summary financial statements because an appropriate basis of measurement and a reasonable estimate of the amount involved cannot be made, or Canadian public sector accounting standards prohibit its recognition.

1. Significant Accounting Policies (continued)

Tangible capital assets are amortized on a straight-line basis over their estimated useful lives as follows:

General Tangible Assets:

Land	Indefinite
Buildings and leasehold improvements	
Buildings	10 to 60 years
Leasehold improvements	Life of lease
Vehicles and equipment	
Vehicles	3 to 10 years
Aircraft and vessels	5 to 24 years
Machinery, equipment, and furniture	3 to 20 years
Maintenance and road construction equipment	11 to 15 years
Computer hardware, software licences	3 to 15 years

Infrastructure Assets:

Land	Indefinite
Land improvements	10 to 30 years
Transportation	
Bridges and structures	40 to 75 years
Provincial highways, roads, and airstrips	10 to 40 years
Dams and water management structures	40 to 100 years

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal. Assets under construction are not amortized until the asset is put into service.

(ix) Classification by Sector

The Province reports operational results under the following segments. Refer to Schedule 9:

- Health
- Education and Economic Development
- Social Services
- Community and Resource Development
- Justice and Other Expenditures
- General Government

The entities and departments included in each segment are identified in Schedule 8 to the summary financial statements.

The Health segment includes provincial health care programs and all health-related entities and services.

The Education and Economic Development segment includes all education – elementary, secondary, and post-secondary – services, as well as the pension related expenses associated with public schools and post-secondary institutions. It includes employment and training programs. It also includes other education services such as skills, trades, and workplace based training programs and the advancement of economic development opportunities aligned with labour market needs.

1. Significant Accounting Policies (continued)

The Social Services segment includes all services related to employment and income support for individuals in need as well as a comprehensive range of social services and financial assistance programs provided to Manitobans throughout the province. The sector also contains the management and administration of housing policies and benefits for low to moderate income renters and homeowners, as well as other services such as mental health promotion, harm reduction and addictions treatment and recovery.

The Community and Resource Development segment includes the promotion, development, and conservation of the province's natural resources. It also includes the operation and maintenance of transportation systems such as highway infrastructure and other government infrastructure.

The Justice and Other Expenditures segment include general administration, finance, executive and legislature, cultural and sport related activities. The sector contains criminal and civil legal services and programs that protect the rights of Manitobans.

The General Government segment is comprised of activities that cannot be allocated to the specific sectors noted above. It also includes federal revenues and expenses related to emergency services and disaster assistance. Inter-segment transfers between sectors are measured at the exchange amount.

(x) Future Changes in Accounting Standards

Effective April 1, 2026, the Government will adopt the new Conceptual Framework for Financial Reporting in the Public Sector (Conceptual Framework) and PS 1202 Financial Statement Presentation. PS 1202 is also known as the new reporting model. The impact on the consolidated financial statements is currently being assessed.

The Conceptual Framework prescribes the nature, function and limits of financial accounting and reporting. It is the foundation on which PSAS are developed and professional judgment is applied. It will replace the conceptual aspects of PS 1000 Financial Statement Concepts and PS 1100 Financial Statement Objectives.

This standard sets out general and specific requirements for the presentation of information in public sector financial statements, based on the concepts within the Conceptual Framework.

2. ADOPTION OF NEW ACCOUNTING STANDARDS AND CHANGES TO THE ACCUMULATED DEFICIT

A. PS 3400 REVENUE

Effective April 1, 2023, the Government adopted PS 3400 Revenue. PS 3400 addresses how to account for, and report on, revenues. The province recognizes revenue on exchange transactions when the performance obligations are satisfied, and the payor obtains control of the asset or benefits from the good or service provided.

Non-exchange transactions are transactions or events where there is no direct transfer of goods or services to a payor. Revenue from non-exchange transactions is recognized when the province has the authority and identifies a past transaction or event that gives rise to an asset.

The Government used prospective application in the adoption of PS 3400. The accounting standard has not been applied retroactively. Under prospective application, prior periods are not restated, including the opening accumulated deficit. Adjustments are only applied to events and transactions from April 1, 2023, to March 31, 2024 and for periods thereafter.

2. Adoption of new Accounting Standards and Changes to the Accumulated Deficit (continued)

As a result, the Government no longer records unearned revenue from automobile and motor carrier licences and fees. The standard was accounted for prospectively, resulting in the recognition of \$79-million in vehicle licencing and fees revenue for the year ended March 31, 2024, that was previously recorded as unearned revenue.

The Government also no longer records fines and costs and other legal revenue on a cash basis. Applying PS 3400 has increased accounts receivable by \$17-million, and fines and costs and other legal revenue by \$17-million.

Applying PS 3400 prospectively has decreased service fees and tuition fees at schools, universities, and colleges. Unearned revenue increased by \$32-million, made up of \$1-million for service fees and \$31-million for tuition fees.

B. IFRS 9 FINANCIAL INSTRUMENTS AND IFRS 17 INSURANCE CONTRACTS

Manitoba Public Insurance Corporation (MPI) and Deposit Guarantee Corporation of Manitoba (DGCM), whose principal activity is carrying on a business, maintain their accounts in accordance with International Financial Reporting Standards (IFRS), which are considered appropriate to their individual objectives and circumstances. MPI and DGCM were required by IFRS to adopt IFRS 17 Insurance Contracts, which requires a revised method of measuring insurance contract liabilities. The standard was accounted for retroactively with the restatement of prior periods, resulting in a \$137-million increase in net income and investment in GBEs on April 1, 2022.

MPI and DGCM adopted IFRS 9 on April 1, 2023. Under IFRS 9, a financial asset is measured on initial recognition at fair value and is classified and subsequently measured as Fair Value Through Profit and Loss (FVTPL), Fair Value Through Other Comprehensive Income (FVOCI) or amortized cost based on the contractual cash flow characteristics of the financial asset and MPI's business model under which they are held.

The application of IFRS 9 resulted in a \$70-million increase in the accumulated other comprehensive losses from GBEs, and a \$64-million increase in the retained earnings from GBEs, and a \$6-million decrease in the equity from GBEs for the year ended March 31, 2024. On adoption of IFRS 9, MPI and DGCM have not restated their comparative information.

C. ASSET RETIREMENT OBLIGATIONS

Effective April 1, 2022, the Government adopted PS 3280 Asset Retirement Obligations (ARO). The Government applied the modified retroactive application approach in the adoption of this accounting standard. Under the modified retroactive application, ARO are measured using information, assumptions, and discount rates that are current on April 1, 2022, when the standard was first applied. The province recognized any existing ARO on April 1, 2022 and adjusted for any accumulated accretion that had risen since the legal obligation was recognized. An adjustment to the opening deficit on April 1, 2022 is the net between the liability and the net book value of the related assets. Liabilities for unrecorded tangible capital assets, or assets no longer in productive use, were adjusted to the accumulated deficit on April 1, 2022.

The Auditor General issued a qualification opinion on the Government's financial statements for the year ended March 31, 2023, because of insufficient support for ARO. The auditors were unable to provide assurance on the accumulated deficit, tangible capital assets, ARO and related expenses for both March 31, 2022, and March 31, 2023. After the auditor's report was released on September 28, 2023, the Government obtained sufficient support, leading to restatements of the financial statements for both years.

ARO liability increased by \$96-million and tangible capital assets increased by \$39-million on April 1, 2022 due to a change in assumptions. A discount rate of 4.25 per cent was applied for periods prior to the implementation date of April 1, 2022, rather than periods prior to the year ending March 31, 2023. The opening ARO liability increase by \$54-million due to changes in assumptions, and a number of sites were not included in the ARO liability, previously reported at March 31, 2023.

D. NORTHERN REGIONAL HEALTH AUTHORITY – CORRECTION OF AN ERROR

During the year, the Northern Regional Health Authority determined that the asset retirement cost capitalized as an increase to the carrying amount of the related tangible capital assets was overstated. For 2023 and 2024, the correction of this error has resulted in a \$5-million decrease to tangible capital assets, and a \$5-million increase to the opening accumulated deficit.

2. Adoption of new Accounting Standards and Changes to the Accumulated Deficit (continued)

	Previously Reported		Restated
	April 1, 2022	Adjustments	April 1, 2022
Cash and Accounts Receivable	5,740	-	5,740

Accumulated Operating Deficit Beginning of Year	(14,044)	47	(13,997)
Transfer of Other Comprehensive Income	263	-	263
Accumulated Operating Deficit Beginning of Year	(13,511)	150	(13,361)
	Previously Reported		Restated
	March 31, 2023	Adjustments	March 31, 2023
Cash and Accounts Receivable	5,287	-	5,287
Portfolio Investments	4,114	-	4,114
Derivative Financial Instruments	2,055	-	2,055
Other Assets	26,005	-	26,005
Equity in GBE	4,541	137	4,678
Asset Retirement Obligations	(757)	(54)	(811)
Derivative Financial Instruments	(2,874)	-	(2,874)
Other Liabilities	(68,634)	-	(68,634)
Net Debt	(30,263)	83	(30,180)
Non-Financial Assets	15,548	(2)	15,546
Accumulated Deficit	(14,715)	81	(14,634)

The above tables reflect the changes on April 1, 2022 and for the year ended March 31, 2023. The accumulated deficit decreased by \$81-million for the year ended March 31, 2023.

3. FINANCIAL INSTRUMENT CLASSIFICATION

The following table provides cost and fair value information of financial instruments by category. The maximum exposure to credit risk would be the carrying value as shown below.

	Fair Value	Amortized Cost	2024 Total	2023 Total (Restated)
Cash	4,288	-	4,288	2,746
Amounts receivable	-	457	457	345
Due from Manitoba Hydro-Electric Board	-	24,428	24,428	24,421
Portfolio investments	149	3,864	4,013	4,114
Loans and advances	-	1,575	1,575	1,549
Derivative financial assets	2,304	-	2,304	2,055
Tax-payer supported debt	-	(36,214)	(36,214)	(33,098)
Borrowings on behalf of Manitoba Hydro – Electric Board	-	(24,398)	(24,398)	(24,421)
Accounts payable	-	(5,609)	(5,609)	(4,850)
Derivative financial liabilities	(2,479)	-	(2,479)	(2,874)

Financial instruments that are measured after initial recognition at fair value, are grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities using the last bid price.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Derivatives and portfolio equity investments quoted in an active market are the only financial instruments that are measured at fair value. All derivatives are measured at Level 2. There were no transfers in or out of Level 2 for the year ended March 31, 2024.

(\$ millions)	Level 1	Level 2	Level 3	2024 Total	2023 Total
Portfolio equity investments	149			149	132
Derivative financial assets		2,304		2,304	2,055
Derivative financial liabilities		(2,479)		(2,479)	(2,874)

4. PORTFOLIO INVESTMENTS

	(\$ millions)	
	2024 Actual	2023 Actual
Sinking funds – at cost	969	983
Other investments – at cost	2,895	2,999
	3,864	3,982
Other investments – equity – at fair value	149	132
	4,013	4,114

Portfolio investments are recorded using the amortized cost method. Under this method, any discount or premium arising on the purchase of a fixed term security is amortized using the effective interest method over the period to maturity. Portfolio equity investments quoted in an active market are recorded at fair value.

Portfolio investments are written down to market value only in those circumstances where the loss in value is other than temporary in nature. As of March 31, 2024, the market value of portfolio investments was \$3,925-million (2023 – \$4,069-million).

A. SINKING FUNDS

Section 60 of The Financial Administration Act authorizes the Minister of Finance to provide for the creation and management of sinking funds for the orderly retirement of debt. The Government manages its cash flow through investment purchases and sales, and by purchasing its own debt for sinking fund investments.

The Government's sinking fund currently provides for the repurchase of foreign debt and the pre-funding of maturing debt issues. The sinking fund is invested principally in securities issued or guaranteed by federal and provincial governments. Sinking funds are invested in fixed income securities as follows:

	(\$ millions)			
	2024 Actual		2023 Actual	
	Book Value	Fair Value	Book Value	Fair Value
Government of Canada, direct and guaranteed	98	88	89	79
Provincial, direct, and guaranteed	772	618	796	690
Municipal	92	89	94	91
Corporate	7	7	4	4
	969	802	983	864

4. PORTFOLIO INVESTMENTS (continued)

Investment revenue earned on sinking funds during the year was \$33-million (2023 – \$31 million). The sinking funds are allocated as follows:

	(\$ millions)	
	2024	2023
	Actual	Actual
Sinking funds	1,005	994
Less: Uninvested portion of sinking funds held in cash and cash equivalents	(36)	(11)
Total sinking funds held in portfolio investments	969	983

B. OTHER INVESTMENTS

	(\$ millions)	
	2024	2023
	Actual	Actual
Guaranteed investment certificates	468	398
Bonds – Government of Canada, provincial and municipal	1,182	1,675
Bonds – Corporate	948	714
Equity investments at cost	208	160
Investments in real estate	89	52
Total other investments	2,895	2,999

As of March 31, 2024 the market value of other investments was \$3,123-million (2023 – \$3,205-million). Other investments earned \$219-million during the year (2023 – \$123-million).

5. EQUITY IN GOVERNMENT BUSINESS ENTERPRISES

The GBEs that are included in the summary financial statements are listed in Schedule 8 and are classified as follows:

Category	Definition
Utility	An enterprise that provides public utility services for a fee; category includes Manitoba Hydro-Electric Board.
Insurance	An enterprise that provides insurance coverage services to the public for a fee; category includes Manitoba Public Insurance Corporation and Deposit Guarantee Corporation of Manitoba.
Finance	An enterprise that provides regulatory control and is revenue generating or an enterprise that uses economy of scale to deliver goods and services to the public; category includes Manitoba Liquor and Lotteries Corporation.

5. Equity in Government Business Enterprises (continued)

The operating results and financial position of each GBE category are reported in Schedule 3 to the summary financial statements. The year end of each GBE is as follows:

Manitoba Hydro-Electric Board	March 31, 2024
Manitoba Public Insurance Corporation	March 31, 2024
Manitoba Liquor and Lotteries Corporation	March 31, 2024
Deposit Guarantee Corporation of Manitoba	December 31, 2023

Part of the equity of GBEs is restricted for use by provincial legislation and thereby not available to discharge Government liabilities or to finance other Government programs. The equity in GBEs is comprised of:

	(\$ millions)	
	2024	2023
	Actual	Restated
Restricted Equity in Government Business Enterprises:		
Deposit Guarantee Corporation of Manitoba	489	443
Manitoba Hydro-Electric Board	3,224	3,345
Manitoba Public Insurance Corporation	750	872
	4,463	4,660
Unrestricted Equity in Government Business Enterprises:		
Manitoba Liquor and Lotteries Corporation	5	5
Manitoba Public Insurance Corporation	13	13
	18	18
Equity in Government Business Enterprises	4,481	4,678

6. EQUITY IN BUSINESS PARTNERSHIP

North Portage Development Corporation (NPDC) is a business partnership that is owned equally by the Government of Canada, the Province of Manitoba, and the City of Winnipeg. The mission of NPDC is to act as a catalyst, encouraging activities for people in the downtown through public and private partnerships and to work to ensure financial self-sufficiency. NPDC is responsible for the continuing renewal and stewardship of two sites in Winnipeg's downtown: the North Portage area and The Forks. NPDC is involved in certain business and core activities regarding the ownership, development, and management of its two sites that include land investment properties and public amenities.

The province's share of the equity on March 31, 2024 is \$20-million (2023 – \$20-million). The province's share of the operating results for the year ended March 31, 2024, was \$ nil (2023 – \$ nil) and is included in fees and other revenues.

6. Equity in Business Partnership (continued)

The condensed supplementary financial information of NPDC is as follows:

	(\$ millions)	
	2024	2023
	Actual	Actual
Property, plant and equipment and investment in properties and infrastructure enhancements	76	74
Short-term investments and other assets	2	6
	78	80
Deferred contributions from shareholders	7	8
Long-term mortgage	6	7
Current and other liabilities	6	6
	19	21
Net equity	59	59
	78	80
Comprehensive income		
Revenue	17	16
Expenses	14	12
Operating income before amortization	3	4
Amortization	(3)	(3)
Net income for the year	-	1

7. PENSION PLANS

The Government participates in various pension plans. The two primary plans, in which the Government directly participates, are the Civil Service Superannuation Plan and the Teachers' Pension Plan. As per the Acts that administer these plans, the Government is responsible for 50 per cent of pension benefits earned by employees. These plans are joint trustees plans. The Government's pension liability reflects its share of the actuarial present values of pension benefits attributed to services rendered by employees and former employees, net of any plan assets which are set aside by the Government in an irrevocable trust. As of March 31, 2024, the pension liability for the Civil Service Superannuation Plan was \$1,148-million (2023 – \$1,158-million) and the pension liability for the Teachers' Pension Plan was \$2,283-million (2023 – \$2,239-million).

Other pension plans in which the Government participates include the Members of the Legislative Assembly Plan, the Legislative Assembly Pension Plan, the Judges' Supplemental Pension Plan and the Winnipeg Child and Family Services Employee Benefits Retirement Plan. The Government is responsible for any excess of accrued pension benefits over pension fund assets for these plans.

The Government also includes several other pension plans in its pension liability. These other plans include post-secondary education pension plans and public school divisions' pension plans. Post-secondary education pension plans include the University of Manitoba Pension Plans, the University of Winnipeg Pension Plan, and the Brandon University Retirement Plan. Public school divisions' pension plans include the Winnipeg School Division Pension Fund for Employees Other Than Teachers, Retirement Plan for Non-Teaching Employees of the St. James-Assiniboia School Division, Retirement Plan for Employees of Frontier School Division and School

7. Pension Plans (continued)

District of Mystery Lake Pension Plan. The Government is responsible for any excess of accrued pension benefits over pension fund assets for these plans.

Employees in the health sector are members of the Healthcare Employees Pension Plan, a multi-employer defined benefit pension plan established between employees and participating boards. Because the Government does not sponsor this plan, the accrued benefit liability of this plan is not recognized in these financial statements. The annual net benefit plan expense is the amount of required contributions provided for employees' services rendered during the year. During the year, the Government expensed contributions to this plan of \$231-million (2023 – \$224-million). On December 31, 2023 the Plan had an excess of net assets available for benefits over pension obligations of \$1,254-million (December 31, 2022 – \$879-million).

As of March 31, 2024, the total pension liability being reflected in the summary financial statements was \$3,599-million (2023 – \$3,597-million). Details related to the pension liability are provided in Schedule 6 to the summary financial statements. The following provides general information on the contributions and benefit formula of the various pension plans, which are included in this schedule.

A. CIVIL SERVICE SUPERANNUATION PLAN

The Civil Service Superannuation Act (CSSA) established a defined benefit plan to provide benefits to employees of the Manitoba Public Service and to participating agencies of the Government through the Civil Service Superannuation Fund (CSSF).

The lifetime pension calculation equals 2% of a member's best five-year average yearly pensionable earnings multiplied by pensionable service, minus 0.4% of the average Canada Pension Plan (CPP) earnings multiplied by pensionable service since January 1, 1966.

The CSSA requires employees to contribute 8.0% of pensionable earnings up to the CPP maximum pensionable earnings, and 9.0% of pensionable earnings above the maximum. The province made an additional contribution of \$50-million during 2023-24 (2023 – \$ nil).

Employee contributions (89.8%) are used to fund basic benefits and 10.2% of employee contributions are allocated to funding indexing benefits. The Government funds 50% of the monthly pension retirement benefits paid to retirees.

Indexing benefits are not guaranteed and are paid only to the extent that the indexing adjustment account in CSSF can finance one-half of the cost-of-living increases granted. The maximum annual adjustment is limited by legislation to two-thirds of the increase in the Consumer Price Index for Canada.

As a joint trustee plan, Schedule 6 only reports the Government's conditional share of the net obligation. The estimated financial position of both the employee and employer components of the Civil Service Superannuation Plan are reported in the December 31, 2023, audited financial statements of CSSF. On December 31, 2023, after accounting for provincial pension assets held in trust and trust assets held in trust for GBEs, CSSF had an estimated accrued net obligation of \$1,924-million (December 31, 2022 – \$2,527-million).

This valuation is not on the same basis of reporting as the summary financial statements and does not include adjustments for unamortized actuarial gains or losses nor the impact of valuing assets on a market related value basis as opposed to market value. This valuation also includes estimated net obligations related to GBEs, which are included in the summary financial statements on a modified equity basis, and other entities that are not part of the GRE.

7. Pension Plans (continued)

B. TEACHERS' PENSION PLAN

The Teachers' Pensions Act (TPA) established a defined benefit plan to provide pension benefits to teachers who have taught in public schools in Manitoba.

The lifetime pension calculation is based upon 2.0% of a member's average salary of the best five of the final 12 years of service (best seven prior to July 1, 1980) multiplied by pensionable service, minus the years of service multiplied by 0.6% of the annual salary up to the yearly maximum pensionable earnings. The pension amount is subject to a maximum of 70% of the average annual salary used above.

The TPA requires teachers to contribute 8.8% of pensionable earnings up to the CPP maximum pensionable earnings, and 10.4% of pensionable earnings above the maximum of teachers' contributions. 83.1% of teachers' contributions are used to fund basic benefits, and 16.9% are allocated for funding indexing benefits. The Government made an additional contribution of \$50-million during 2024 (2023 – \$ nil).

The Cost of Living Adjustment (COLA) is limited to the lesser of the maximum percentage the PAA can support, and the full increase in CPI. The COLA can never be negative.

The independent plan actuary determined that there was an actuarial surplus in the Pension Adjustment Account (PAA) of \$51.3-million available to support COLA of 1.50% effective July 1, 2023. Since the relevant increase in CPI for 2022 was 6.32%, the COLA was not impacted by the 100% of CPI cap.

As a joint trustee plan, Schedule 6 only reports the province's conditional share of the net obligation. The estimated financial position of both the employee and employer components of the Teachers' Pension Plan are reported in the December 31, 2023, audited financial statements of Teachers' Retirement Allowances Fund (Fund). On December 31, 2023, after accounting for provincial pension assets held in trust, the Fund had an estimated accrued net obligation of \$1,303-million (December 31, 2022 – \$1,516-million). This valuation is not on the same basis of reporting as the summary financial statements and does not include adjustments for unamortized actuarial gains or losses nor the impact of valuing assets on a market related value basis as opposed to market value.

C. OTHER GOVERNMENT PLANS

(i) *Members of the Legislative Assembly Plan*

The pension plan for Members of the Legislative Assembly (MLAs) is established and governed by The Legislative Assembly Act (LAA).

For MLAs elected prior to the dissolution of the Assembly of the 35th Legislature, the LAA provides for defined pension benefits based on years of service to April 1995. The calculation for defined pension benefits is equal to 3.0% of the average annual indemnities for the last five years served as a member or all the years served; if less than five, multiplied by the number of years of pensionable service up to April 1995. These entitlements are fully indexed to cost of living increases.

For those MLAs elected after the 35th Legislature in April 1995, the LAA provides for matching contributions. Under the matching contributions provisions, MLAs may contribute up to 7.0% of their remuneration toward a Registered Retirement Savings Plan (RRSP) of their choice. The Government matches the member's contributions on a current basis. Consequently, there is no liability for past service benefits under this component of the plan. If a member, while an active MLA, withdraws money from the RRSP while an active MLA, the Government's contribution would be refundable back to the Government.

7. Pension Plans (continued)

(ii) Legislative Assembly Pension Plan

The Members' Retirement Benefits Regulation of The Legislative Assembly Act established a defined benefit plan, effective December 7, 2005 that provides pension benefits to eligible MLAs who elect to participate in the plan.

The pension benefits accumulate up to a maximum period of 35 years at 2% per year of pensionable service based upon the average of the best five-year annual salaries, reduced by an amount equal to 0.25% times the number of months before the member's 60th birthday that the first pension payment is made. These entitlements are indexed to two-thirds of cost-of-living increases.

Active members must contribute 9.0% of their earned salary to the plan. The Government makes contributions as necessary to ensure the pension fund has sufficient assets to cover the monthly pension payments to retirees as well as ensuring there are sufficient funds to cover any of the plan's liabilities. Any surplus of plan assets over the pension obligation can be used by the Government to reduce future contributions.

(iii) Judges' Supplemental Pension Plan

Manitoba Provincial Court Judges and Masters are members of the Civil Service Superannuation Plan. However, they also receive enhanced pension benefits under the Manitoba Provincial Court Judges and Masters' Supplemental Pension Plan. These supplemental pension benefits for judges are the difference between the total pension benefits for judges, including the amendments introduced by Judicial Compensation Committees, and the formula pension available under The Civil Service Superannuation Act (CSSA) as previously described in Note 7A.

The supplemental pension is based upon an accrual rate of 3% for each year of service, as a judge, up to a maximum of 23.5 years, reduced by the pension provided under the CSSA. The combined total of the Judges' Supplemental Pension and Civil Service Superannuation Pension is subject to a maximum of 70% of earnings. These enhanced benefits are entirely funded by the Government.

(iv) Winnipeg Child and Family Services Employee Benefits Retirement Plan

Established effective December 29, 2003, the Winnipeg Child and Family Services Employee Benefits Retirement Plan applies to employees of the former Winnipeg Child and Family Services Agency, who transferred to the Department of Families.

The lifetime pension calculation equals 1.4% of the member's highest average pensionable earnings up to the CPP maximum and 2.0% of any excess earnings multiplied by pensionable service. The lifetime pension is subject to an overall maximum of the member's number of years of contributory service, multiplied by the lesser of \$1,722 or such greater amount permitted under the Income Tax Act; and 2% of the member's highest average indexed compensation in any three overlapping periods of 12 consecutive months. Indexing payments are subject to approval by the Trustees and increases in the Consumer Price Index.

Members are required to contribute 4.5% of pensionable earnings up to the CPP maximum and 6.0% on pensionable earnings over the maximum. The plan has not had any active members since March 31, 2020.

D. OTHER PENSION PLANS

(a) Post-Secondary

(i) University of Manitoba Pension Plan

The University of Manitoba administers The University of Manitoba Pension Plan (1993) and The University of Manitoba GFT Pension Plan (1986). These are trustee pension plans. The Trustees are responsible for the custody of the plans' assets and issuance of annual financial statements. The University of Manitoba Pension Plan (1993) is a money purchase plan with a defined benefit minimum. The funding for the plan requires a matching contribution from the university and the employees. The plan is not indexed. Plan members contribute at a rate of 9% of salary less an adjustment for the Canada Pension Plan during the year.

The employer contribution made by the university for fiscal 2024 included \$8.4-million (2023 – \$5.5-million) in additional contributions as advised by the Manitoba Pension Commission with respect to current service costs in excess of matching contribution of active members and the university, and an annual additional special payment for 15 years until the going concern deficit is eliminated.

Retirement benefits are calculated by using the greater of the two methods: Formula and Plan Annuity. For each year of pensionable service, Formula benefit equals 2% of the average best five year salary, less 0.7% of the average best five year salary under the yearly maximum pensionable earnings in the year of retirement, to a maximum of 1/9 of the pension plan's money purchase limit. The benefit is reduced by 0.25% for each month between the actual pension commencement date and the age of 65. Plan Annuity benefit is based on contribution account balance, age at retirement, and the annuity factor determined by the plan actuary.

The unamortized net actuarial gains (losses) were determined based on the 2022 actuarial valuation and the extrapolation for accounting purposes are being amortized over a period of nine years (equal to expected average remaining service life) starting in the year following the year of respective annual actuarial gains or losses arise.

The University of Manitoba GFT Pension Plan (1986) is a defined contribution pension plan. Therefore, there is no requirement for an actuarial valuation of this plan.

(ii) University of Winnipeg Pension Plan

The University of Winnipeg administers the University of Winnipeg Pension Plan (UWPP), which is comprised of a defined benefit segment and a defined contribution segment. The assets of the plan are held in trust by independent custodians. The defined benefit segment of the UWPP was closed to new members effective January 1, 2001. After this date, members join the defined contribution plan.

The UWPP was established as a contributory defined benefit pension plan on September 1, 1972 and covers all eligible employees of the university except those who are members of the United Church of Canada Pension Plan. The funding for the plan requires a matching contribution from the university and the employees. Annual pension benefits equal 2% of the final five year average earnings multiplied by the years of pensionable service, less 0.6% of CPP average earnings for each year of pensionable service. The pension benefit is subject to a plan benefit maximum limit of \$1,700 per year of pensionable service. At December 2022, the Plan had a going-concern deficiency of \$16-million, which the university is addressing by making annual payments of \$2-million until the deficiency is eliminated.

7. Pension Plans (continued)

Since December 31, 2000, when the defined contribution segment of the plan was introduced, approximately one-quarter of the eligible members converted to that plan. The obligation for pension benefits under the defined contribution segment of the plan will always be equal to net assets in each member's account. Therefore, no surplus or deficiency arises from fluctuations in the investment market.

(iii) *Brandon University Retirement Plan*

Brandon University administers the Brandon University Retirement Plan, which is a trustee pension plan. The Trustees are responsible for the custody of the plan's assets and issuance of annual financial statements.

The Brandon University Retirement Plan is a final average contributory defined benefit pension plan established on April 1, 1974 for the benefit of the employees of Brandon University. The funding for the plan requires a matching contribution from the university and the employees.

Employees are required to contribute 8% of pensionable earnings less 1.8% of pensionable earnings for which Canada Pension Plan (CPP) contributions are required. Pensionable earnings are subject to an annual limit related to the maximum benefit accrual in a year.

Annual pension equals 2% of the final five year average earnings multiplied by the years of pensionable service, less 0.6% of CPP average earnings for each year of pensionable service. The pension benefit is subject to a plan benefit maximum limit of \$1,722 per year of pensionable service for members retired on or before April 1, 2009, and \$1,975 for those retiring after that date.

The plan will continue to be subject to the going concern funding provisions of the Manitoba Pension Benefits Act and Regulations. The university will be required to fund the matching contributions, as well as the actuarial cost of the defined benefits more than the matching costs. The latest going-concern valuation was completed as of December 2022.

(b) Public School Divisions

(i) *The Winnipeg School Division Pension Fund for Employees Other Than Teachers*

The Winnipeg School Division Pension Fund for Employees Other Than Teachers is a defined benefit pension plan for employees that meet specified employment conditions. The fund was created by By-law 196 of the Winnipeg School Division (replaced by By-law 1017 on January 1, 1992) and is subject to the applicable regulations.

The pension benefits calculation is based on an amount equal to 1.6% of a member's average pensionable salary and 2% of a member's average salary over the pensionable salary, multiplied by a member's years of pensionable service. The average salary is determined by averaging the best five years of employment salary in the last 12 years of service.

Employee contributions equal 8.1% of pensionable salary and 9.5% of the earnings more than pensionable salary up to the yearly maximum pensionable earnings, effective January 1, 2014. The Winnipeg School Division matches employee contributions and pays an additional 12.4% of employee contributions. As a result, employer contributions equal approximately 112.4% of employee contributions.

7. Pension Plans (continued)

(ii) *Retirement Plan for Non-Teaching Employees of the St. James-Assiniboia School Division*

The St. James-Assiniboia School Division Retirement Plan for Non-Teaching Employees is a defined benefit pension plan, established on January 1, 1978, that is subject to the applicable regulations.

The pension benefits calculation is based on an amount equal to 1.4% of a member's average employment earnings below CPP earnings and 2% of a member's employment earnings more than the CPP earnings, multiplied by a member's years of contributory service. The average employment earnings are determined by averaging the best six years of employment earnings in the last 12 years of service. Effective July 1, 2014, employee contributions were equal to 8.2% of CPP earnings and 9.8% of the employment earnings more than CPP earnings. The St. James-Assiniboia School Division matches employee contributions.

(iii) *Retirement Plan for Employees of Frontier School Division*

The Frontier School Division Retirement Plan is a defined benefit pension plan for non-teaching employees.

The pension benefit is based on an amount equal to 2% of a member's best average earnings, multiplied by a member's years of credited service. The average employment earnings are determined by averaging the best five years of employment earnings.

Employee contributions equal 9.0% of CPP earnings, with the Frontier School Division matching employee contributions. The Frontier School Division is responsible for the balance of the pension cost, of which a portion can be financed by an allocation from pension surplus.

(iv) *School District of Mystery Lake Pension Plan*

The School District of Mystery Lake Pension Plan is a defined benefit plan. The school district shall contribute, in accordance with the terms of the collective agreements, such amounts as necessary to provide the future service pension for all members and to amortize any unfunded liability or a solvency deficiency in the plan. If the school district's contributions are not sufficient, the legislation permits the board of trustees to amend the plan to reduce future accrued pension benefits to meet the required legislated funding requirements.

Effective July 1, 2013, employees contribute 5% of gross earnings. Prior to July 1, 2013, employees did not make contributions to the plan. The plan provides that if the defined benefit pension exceeds the plan annuity, the difference is paid from the plan.

The pension benefits are calculated based on a rate per month per year of service. The current rate for maintenance workers is \$48.30 per month per year of service. For clerical workers, the pension benefit is \$42 per month per year of service.

E. GOVERNMENT BUSINESS ENTERPRISES

Manitoba Hydro, Manitoba Liquor and Lotteries Corporation and Manitoba Public Insurance Corporation are members of the CSSF. Effective April 1, 2014, Manitoba Liquor and Lotteries Corporation became a matching employer. As a result, they no longer recognize a pension liability in their statements. The net pension liabilities for the other GBEs are disclosed in Schedule 3.

8. CONTINGENCIES

A. CONTINGENT LIABILITIES

i. *Legal Actions*

The Government is named in various legal actions and has recognized over \$1.2-billion for potential liabilities as of March 31, 2024. Estimations for significant cases might change from year-to-year during the legal process. No provision has been made on March 31, 2024, in the accounts where the final results are uncertain, or where the results are likely, but the amount of the liability cannot be reasonably estimated.

ii. *Canadian Blood Services*

All provincial and territorial governments of Canada, except Quebec, are members of, and provide funding to, Canadian Blood Services (CBS), which operates the Canadian blood system. The March 31, 2023 audited consolidated financial statements of CBS indicate that CBS has two- wholly owned captive insurance companies to provide for the contingent liabilities for risks related to operations of the blood system: CBS Insurance Company Limited (CBSI) and Canadian Blood Services Captive Insurance Company Limited (CBSE). Together, these captive insurance companies provide Canadian Blood Services with comprehensive blood risk insurance covering losses up to \$1-billion. The primary policy held by CBSI has provided coverage up to \$300-million, with the secondary policy held by CBSE providing coverage up to \$700-million.

CBSI provides insurance coverage up to \$300-million with respect to risks associated with the operation of the blood system. The related assets of CBSI as of March 31, 2023 total \$520-million (2022 – \$533-million). Based upon the above, the Government's share of the provision for future claims as of March 31, 2023, is offset with designated assets, which at that date exceed the provision.

CBS and CBSE have entered into an agreement wherein the members have agreed to provide insurance coverage for all amounts payable by CBSE under the terms of the excess policy up to \$700-million more than the \$300-million provided by CBSI. No payment shall be made under CBSE until the limit of the liability under the primary policy in CBSI has been exhausted. The members have agreed to contribute their pro rata share of the required capital of \$700-million. The members have each issued an indemnity to CBSE on their pro rata share of the \$700-million, calculated based on their respective populations. Given current populations, Manitoba's maximum potential liability under its indemnity to CBSE is approximately \$33-million. The Government is not aware of any proceedings that could lead to a claim against it under the indemnity given to CBSE.

iii. *Treaty Land Entitlement Obligations*

The Government of Manitoba's obligations under the treaty land entitlement agreements require Manitoba to transfer administration and control of up to 1,144,331 acres of Crown Land (Selections) and up to 282,123 acres of Manitoba interests in Other Land (Acquisitions) to Canada to enable Canada to fulfil its obligations under the treaties between Canada and the First Nations of Manitoba. As of March 31, 2024, Manitoba Entitlement First Nations have collectively selected and acquired approximately 1,053,585 acres of Crown Land and Other Land. As of March 31, 2024, Manitoba has transferred administration and control of 695,544 acres of Crown Land and 19,011 acres of Manitoba interests in Other Land to Canada for reserve creation. The Crown Land and Manitoba interests in Other Land have been transferred in accordance with paragraph 11 of the Natural Resources Transfer Agreement (Schedule to Constitution Act, 1930). The transfers include mines and minerals and other interests impliedly reserved under The Crown Lands Act, as well as all other interests of Manitoba in the lands.

8. Contingencies (continued)

iv. **Government Business Enterprise Contingencies**

Significant contingencies for Government Business Enterprises include:

Manitoba Hydro has a mitigation program in place to address past, present, and ongoing adverse impacts arising from all past hydro-electric developments (prior to the Wuskwatim generating station), particularly for Indigenous people residing or engaged in resource harvesting in the project areas. In recognition of future mitigation payments, Manitoba Hydro has recorded a liability of \$204-million (2023 – \$160-million). Manitoba Hydro has also recognized a provision of \$28-million (2023 – \$27-million) for certain mitigation related obligations arising from ongoing adverse effects of past hydro-electric development. There are other mitigation issues, the outcomes of which are not determinable at this time.

B. **LOAN GUARANTEES**

The Government has guaranteed the repayment of debt, promissory notes, bank loans, lines of credit, mortgages and securities held by others. Debt guaranteed by the Government is guaranteed, as to principal and interest, until the debt is matured or redeemed. The authorized limits and the outstanding guarantees are summarized as follows:

	(\$ millions)		
	Authorized Limit	2024 Actual	2023 Actual
Friends of the Canadian Museum for Human Rights	15	-	1
Manitoba Agricultural Services Corporation (Note 8B.i)	-	52	56
Manitoba Housing and Renewal Corporation (Note 8B.ii)	20	1	1
Manitoba Student Aid Program	20	-	-
University of Winnipeg (Note 8B.iii)	71	26	26
Other	12	1	2
Total guarantees outstanding	138	80	86

A provision for future losses on guarantees for \$5-million (2023 – \$7-million) has been recorded in the accounts.

Note 8B.i) Manitoba Agricultural Services Corporation

The Manitoba Agricultural Services Corporation has guaranteed loans under the following programs:

Program	General Terms and Conditions
Operating Credit Guarantees for Agriculture	Each participating lending institution is guaranteed up to 25% of the maximum amount advanced, up to a maximum loan of \$0.7-million for individuals and \$1.0-million for partnerships, corporations, and co-operatives.
Manitoba Livestock Associations Loan Guarantees	Each association's lending institution is guaranteed 25% of their loaned amount, up to a maximum loan of \$12-million per association.

8. Contingencies (continued)

Program	General Terms and Conditions
Diversification Loan Guarantees	Guarantees are based on 25% of the original principal amount of each individual loan, with no maximum loan amount.
Rural Entrepreneur Assistance Program	Each participating lender is guaranteed up to 80% of the loan made to small rural non-agricultural business to a maximum guarantee of \$0.2-million. This program was discontinued as of April 1, 2019 with outstanding guarantees in run-off status.

Note 8B.ii) Manitoba Housing and Renewal Corporation

Manitoba Housing and Renewal Corporation has authority to guarantee the repayment of various mortgages and issue various letters of credit, which guarantee the terms and conditions of land development agreements and construction contracts, up to \$20-million. On March 31, 2024, outstanding guarantees under this authority were \$1-million (2023 – \$1-million).

Note 8B.iii) University of Winnipeg

University of Winnipeg's controlled entity, University of Winnipeg Community Renewal Corporation (UWCRC) guarantees specific debts of UWCRC 2.0, a related but uncontrolled corporation, and its controlled entity. At March 31, 2024, the UWCRC had the following outstanding guarantees:

- i. CMHC Rental Construction Financing Initiative loan in the amount of \$26-million for the construction of the Muse Flats (209 Colony Street).
- ii. CMHC insured housing loan for up to \$45-million for the construction of the 308 Colony Joint Venture. No amounts on this facility were drawn as at March 31, 2024.

The two guarantees with an authorized limit of \$71-million were approved by the University of Winnipeg on behalf of UWCRC.

C. GOVERNMENT BUSINESS ENTERPRISE GUARANTEES

As of March 31, 2024, Manitoba Hydro has outstanding Manitoba Hydro-Electric Board Bonds amounting to \$119-million (2023 – \$119-million). These bonds carry fixed coupon rates that range from 3.72% to 7.10%. The Government guarantees \$60-million (2023 – \$60-million) of these outstanding bonds.

Manitoba Hydro provides guarantees to counterparties for natural gas purchases. On March 31, 2024, there is an outstanding guarantee totaling \$40-million (2023 – \$40-million) which matures October 31, 2025. Letters of credit for \$105-million (2023 – \$77-million) have been issued for construction and energy related transactions with maturities until 2049.

The Government provided approval to Manitoba Hydro to issue up to \$500-million of promissory notes and \$250-million of credit facilities for a total of \$750-million. As at March 31, 2024, there was \$261-million of promissory notes and Hydro issued-bonds outstanding (2023 – \$111-million) and \$142-million credit (2023 – \$ nil) facilities were utilized for a total of \$403-million (2023 – \$111-million).

The Deposit Guarantee Corporation of Manitoba (Corporation) has guaranteed \$38.6-billion in credit union deposits at the end of December 31, 2023 (December 31, 2022 – \$37.3-billion). Based upon its ongoing monitoring procedures, the Corporation has concluded that a provision for such contingencies does not need to be established at this time.

9. CONTRACTUAL OBLIGATIONS

The Government has entered into several multi-year contracts and agreements for the delivery of services and the acquisition or construction of assets. These contractual obligations will become liabilities in the future when the terms of the contracts are met. The following represents the amounts required to satisfy the contractual obligations, by the year that it is anticipated that the terms of the contract will be met, as of March 31:

(\$ millions)	2025	2026	2027	2028	2029	2030 and thereafter	Total
Government organizations and components							
Service contracts	601	212	91	66	39	154	1,163
Rental of capital assets	61	52	44	39	39	99	334
Acquisition or construction of capital assets	815	253	147	124	111	285	1,735
Other contracts	56	44	39	35	18	116	308
Government Business Enterprises	115	103	93	77	5	18	411
Total	1,648	664	414	341	212	672	3,951

Other significant obligations not included in the table are:

GOVERNMENT ORGANIZATIONS

Government organizations have entered contractual arrangements related to construction projects totaling \$432-million (2023 – \$292-million), and details relating to the settlement year cannot be reasonably estimated.

GOVERNMENT BUSINESS ENTERPRISE CONTRACTUAL OBLIGATIONS

Manitoba Hydro has energy purchase commitments of \$1,635-million (2023 – \$1,721-million) that relate to future purchases of wind, natural gas (including transportation and storage contracts) and electricity.

Commitments are primarily for transmission right access that expire in 2041, wind and solar purchases that expire in 2040 and natural gas purchases that expire in 2039. In addition, other outstanding commitments principally for construction are approximately \$2,001-million (2023 – \$1,905-million).

Manitoba Liquor and Lotteries Corporation has purchase commitments of \$1.2-million (2023 – \$12-million) related to property and equipment and intangible assets.

10. DEBT SERVICING

Public debt servicing costs of \$2,156-million (2023 – \$1,963-million) includes interest expense on Manitoba Hydro-Electric Board debt of \$849-million (2023 – \$842-million). Public debt servicing cost also includes interest on provincial debt held as investments of \$4-million (2023 – \$4-million). GBEs public debt servicing costs of \$1,055-million (2023 – \$1,042-million) are reported in Schedule 3.

11. AMOUNTS HELD IN TRUST

Amounts held in trust are assets over which the Manitoba Legislature has no power of appropriation. These amounts are not included in the summary financial statements because the Government has no control over the amounts and administers them according to trust or other agreed-upon arrangements. As of March 31, 2024, amounts held in trust were as follows:

	Valuation Method	(\$ millions)	
		2024 Actual	2023 Restated
Various Universities and Colleges	market	915	839
Public Guardian and Trustee of MB	various	369	327
Public Service Group Insurance Fund	market	305	281
Manitoba Development Corporation	cost	7	11
Other Fiduciary Trust	various	85	78
Custodial trust held by Departments	various	26	22
Suitor's Money Act	cost	13	10
		1,720	1,568

Universities and Colleges hold endowment ad trust funds in the form of cash, cash equivalents, bonds, equities, real estate and other securities.

The Public Guardian and Trustee of Manitoba administers the estates and trusts of persons with intellectual disabilities, deceased persons, and infants. The estates and trusts under administration are in the form of bonds, equities, real estate, mortgages, and other securities.

The Public Service Group Insurance Fund is administered by the Civil Service Superannuation Board. It includes three plans to provide life insurance, accidental death and disablement insurance, and dependents insurance for eligible employees and retired employees (and their eligible dependents) of the Government of Manitoba and most of its agencies and boards. These funds are in the form of cash, cash equivalents and equities.

Manitoba Development Corporation administers funds from the Business Investor Stream of the Provincial Nominee Program. These funds are invested in the form of cash, cash equivalents, bonds, and investments.

Other Fiduciary Trust funds are interest bearing deposits which are pooled with the Government's investments to earn a market rate of interest. Government departments also hold custodial trust funds in the form of bonds and other securities.

12. RISK MANAGEMENT AND THE USE OF DERIVATIVE FINANCIAL INSTRUMENTS

During the normal course of business, the Government is exposed to several financial risks including credit, liquidity, and market risk. Market risk results from fluctuations in foreign currency, and interest rates.

The Government employs various risk management strategies and operates within fixed risk exposure limits to ensure exposure to risk is managed in a prudent and cost-effective manner. Varieties of strategies are used, including the use of derivative financial instruments (derivatives).

Derivatives are financial contracts, the value of which is derived from the underlying instruments. The Government uses derivatives to hedge and mitigate foreign exchange and interest rate risk. The Government does not use derivatives for speculative purposes.

12. Risk Management and the Use of Derivative Financial Instruments (continued)

Since derivatives are utilized for risk management purposes, it is not the practice of the Government to terminate derivative contracts before maturity and realize gains or losses on early terminations. On occasion, loans and advances clients prepay loans that have swapped contracts attached to them. The client is required to pay a penalty that offsets the province's cost to unwind the associated swap.

A. CREDIT RISK

Credit risk is the likelihood of one party to a financial instrument failing to discharge an obligation and causing financial loss to the counter party. The financial instruments that potentially subject the Government to credit risk consist of cash and cash equivalents, amounts receivable, due from Manitoba Hydro-Electric Board, derivative financial assets, portfolio investments and loans and advances. The Government had \$80-million (2023 – \$86-million) in loan guarantees outstanding.

The province's maximum exposure to credit risk is as follows:

	2024	2023
	Actual	Actual
Cash and cash equivalents	\$ 4,288	\$ 2,746
Amounts receivable	2,467	2,541
Due from Manitoba Hydro-Electric Board	24,428	24,421
Derivative financial assets	2,304	2,055
Portfolio investments	4,013	4,114
Loans and advances	1,575	1,549
	\$ 39,075	\$ 37,426

The Government reviews balances and aging information to determine if a valuation allowance is necessary. The Government's exposure to credit risk on accounts receivables is disclosed in Schedule 1.

Credit risk is concentrated in agricultural loans and Manitoba student loans. The Board of Directors, Manitoba Agricultural Services Corporation (MASC), is responsible for approving and monitoring tolerance of credit exposures, which it does through review and approval of the guidelines for lending and loan guarantee programs and by setting general limits on credit exposures to individual clients. MASC has comprehensive policy and procedures manuals in place for all lending programs. In general, MASC emphasizes responsible lending, which is comprised of a combination of adequate loan security and a client's ability to pay. In total MASC has \$813-million (2023 – \$806-million) in agricultural loans on March 31, 2024.

The Government manages credit risk on investments through its Investment Policies. The primary objective is the preservation of principal. Funds are managed in a manner that ensures sufficient liquidity to meet all cash payments when due. Within the bounds of these two objectives, the funds are invested to achieve appropriate returns within the approved risk limits. Each fund is structured to diversify investments and reduce the risk of loss due to over-concentration of assets in a particular category or with a single issuer. Each issuer of the securities authorized for purchase must meet the minimum criteria, which is approved by the Risk Committee, for short-term issuers and long-term issuers.

12. Risk Management and the Use of Derivative Financial Instruments (continued)

Counterparty default risk:

Notional amounts of derivative contracts represent the contractual amounts to which a rate or price is applied for computing the cash flows to be exchanged. The notional amounts are used to determine the gains/losses and fair value of the contracts and are a measure of the exposure to the asset class to which the contract relates. Notional values are \$34-billion for interest rate swaps and \$13-billion for cross currency swaps.

Fair values of the derivatives are the estimated amount that the Government would receive or pay, based on market factors, if the agreements were terminated on March 31, 2024. They are established by discounting the expected cash flows of the swap agreements using year-end market interest and exchange rates. A positive (negative) fair value indicates that the government would receive (make) a payment if the agreements were terminated.

Year of Maturity (fiscal)	Notional (CAD millions)			Fair Value (CAD millions)		
	Interest Rate Swaps	Cross- Currency Swaps	Total	Interest Rate Swaps	Cross- Currency Swaps	Total
2025	831	2,997	3,828	13	134	147
2026	2,545	630	3,175	(70)	(10)	(80)
2027	1,088	1,394	2,482	(52)	(46)	(98)
2028	870	299	1,168	16	(43)	(26)
2029-2033	6,556	2,228	8,784	(155)	(146)	(302)
2034-2038	6,190	1,934	8,124	(54)	(76)	(131)
2039-2043	7,460	2,346	9,806	(3)	(405)	(408)
2044-2048	4,929	351	5,280	780	(110)	671
2049-2053	2,401	557	2,958	144	(177)	(33)
2054-2058	806	44	850	19	1	20
2059-	879	-	879	67	-	67
	34,555	12,778	47,333	705	(877)	(172)

The data used for this analysis above and on the tables below reconciles to the March 28, 2024, Derivative Valuation using the Bloomberg Multi-Asset Risk System. The Bloomberg Multi-Asset Risk System is used by the Treasury Division. Treasury does not include derivative from Shared Health with a notional value of \$20-million (2023 – \$21-million); St. Amant Inc. notional value \$7-million (2023 – \$6-million); and Seven Oaks School Division \$15-million (2023 – \$16-million). The market value of these derivatives are less than one million.

The Government only enters into International Swaps and Derivative Association Master Agreements (ISDAs) with counterparties that meet strict investment grade credit rating requirements. The counterparties all have signed ISDAs with the Government and continue to meet strict investment grade credit rating requirements. Risk of adverse financial impacts from derivative counterparty exposures is mitigated through the use derivative counterparty exposure limits, which are regularly measured, and monitored. The Government does not have equity based or credit risk derivatives.

12. Risk Management and the Use of Derivative Financial Instruments (continued)

Credit Support Annexes (CSAs) are negotiated with derivative counterparties. These CSAs mitigate risk by requiring collateralization of counterparty exposure under specified credit events. The Government has no collateral on derivatives. On March 31, 2024, 100% (2023 – 100%) of the notional value of the Government's derivative financial instrument contracts is held by counterparties with an S&P Global Ratings credit rating of A or better. The maturity date of this derivative is March 28.

Derivative Exposure (CAD) by Credit Rating

Credit Rating	Notional (\$ millions)	Market Value (\$ millions)
Aa1 / AA-	5,086	(257)
Aa2 / AA-	8,131	68
Aa2 / A+	32,083	(7)
Aa3 / A+	112	(2)
Aa3 / A	1,921	26

B. LIQUIDITY RISK

Liquidity risk is the risk that funds are not available when required to discharge the liabilities of the Government and its agencies as they become due. The Government takes active approaches to address liquidity risk through its borrowing strategy, cash flow forecasting and modelling, cash reserves and credit facilities. The Government has internal control processes and contingency plans for managing liquidity risk. Schedule 4 provides a summary of the contractual maturities for borrowings.

The Government's exposure to liquidity risk is related to accounts payable and accrued liabilities such as salaries and benefits. The Government manages its cash flow through investment purchases and sales, and by purchasing its own debt for sinking fund investments.

The Government prepares cashflows for periods between one week and 12 months. The Government ensures funding needs are available six months ahead of funding requirements. Additional funds can be accessed through the issuance of Manitoba Treasury Bills, promissory notes, access to uncommitted revolving credit facilities with Canadian banks, and liquidation of securities in the Province of Manitoba Sinking Fund.

C. MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Government is exposed to three types of market risk: foreign exchange risk, interest rate risk, and refinancing risk. The Government continually monitors its exposure to these risks and uses derivative contracts to manage these risks.

(i) Foreign Exchange Risk

Foreign exchange risk is the risk of loss or higher costs when liabilities or assets are held in a foreign currency. The province's most significant exposure to foreign currency risk exposure is the issuance of debt in a foreign currency. Foreign currency risk also arises from securities held in pooled investment funds and are denominated in currencies other than Canadian dollars.

12. Risk Management and the Use of Derivative Financial Instruments (continued)

The following table illustrates the derivative exposure by Currency.

Currency	Notional (\$ millions)	Market Value (\$ millions)
Canadian Dollars	34,555	705
US Dollars	6,281	113
Australian Dollars	1,352	(181)
Swiss Franc	887	43
European Euros	3,369	(623)
Hong Kong Dollars	185	(19)
Japanese Yen	196	(79)
New Zealand Dollars	283	(22)
Swedish Krona	225	(110)

The carrying value of foreign currency debt in the Consolidated Statement of Financial Position is impacted by fluctuations in foreign exchange rates, and correspondingly the carrying value of foreign currency derivatives. Throughout the life of a debt instrument denominated in a foreign currency and associated derivative, the remeasurements are not perfectly offsetting and create volatility in the Consolidated Statement of Financial Position and in the Consolidated Statement of Remeasurement Gains and Losses. This volatility is never realized in the Consolidated Statement of Operations as hedging derivatives are not terminated prior to maturity. Change in the foreign debt due to foreign currency fluctuation is equal to the change in carrying value of the associated derivative immediately prior to maturity.

The Government does not assume unhedged foreign currency risks on its debt issuance; however, the Government does hold USD debt on behalf of Manitoba Hydro. Manitoba Hydro accepts the risk and cost of servicing any foreign currency issued on its behalf.

Manitoba Hydro has \$1,839-million (2023 – \$2,110-million) of U.S. debt not hedged by derivatives. Manitoba Hydro has exposure to U.S. dollar foreign exchange fluctuations primarily through the sale and purchase of electricity and fuel in the U.S. This exposure is managed through a long-term natural hedge between U.S. dollar cash inflows from export revenues and U.S. dollar cash outflows for long-term debt coupon and principal payments. Bridging temporary timing differences between inflows and outflows to future years' U.S. dollar requirements, Manitoba Hydro also utilizes derivative foreign exchange forward contracts as required.

(ii) **Interest Rate Risk**

Interest rate risk is the risk of loss or higher costs associated with adverse fluctuations in interest rates. Derivatives are used to provide financial stability by reducing the impact of interest rate volatility and the floating interest rate fixed and floating mix of its debt portfolio.

A rise in interest rates means a drop in the fair value of interest-bearing securities held as portfolio investments, or increased debt servicing cost when issuing variable rate debt.

12. Risk Management and the Use of Derivative Financial Instruments (continued)

After considering derivatives used to manage interest rate risk, investments, and eliminating the debt incurred on behalf of Manitoba Hydro, the structure of the debt as of March 31, 2024, was 88% at fixed rates and 12% at floating rates (2023 – 89% at fixed rates and 11% at floating rates). A 1.0% (100 basis points) movement in interest rates on the 12% floating rate debt for an entire year would increase debt servicing costs by \$42-million (2023 – \$37-million) when issuing variable rate debt.

(iii) Refinancing Risk

The orderly retirement of future debt obligations, without incurring undue refinancing risk is important in terms of managing both future interest costs and accessing required funding in future years. To this end, the Government will use its best efforts to smooth out debt maturities from less than one year to greater than 30 years. The Government also identifies bond buy-back opportunities, whereby excess cash can be used to buy back outstanding debt, thus reducing refinancing risk and future liquidity risk.

13. ASSET RETIREMENT OBLIGATIONS

The asset retirement obligations represent management's best estimate of the present value of the costs that are expected to be incurred for the remediation of hazardous materials present in some of the province's buildings, equipment, and landfills. The presence of asbestos is not a current health hazard, and there is no requirement to remove asbestos in these buildings if the asbestos is contained and does not pose a public health risk. There is however a legal obligation to incur remediation costs.

	(\$ millions)	
	2024	2023
	Actual	Restated
Asset Retirement Obligations, Beginning of Year	811	885
Change in Assumptions	(37)	(109)
Additions	-	-
Liabilities Settled During the Period	(3)	(2)
Accretion Expense	35	37
Asset Retirement Obligations, End of Year	806	811

The discount rate used to determine the present value of the obligations ranged from 3.2% to 5.34%. The discount rate is based on the Government's cost of borrowing.

On March 31, 2024, the undiscounted asset retirement obligations were \$1,910-million (2023 – \$1,862-million). These obligations are expected to be settled between 2028 and 2062.

The asset retirement obligations relate to buildings, equipment, and landfills. The government estimated the nature and extent of hazardous materials in its buildings based on the potential square metres, and the average cost per square metre, to remove and dispose of the hazardous materials. The estimates are based on assessments provided by third-party and internal experts. During the year, several government organizations changed the discount rate, and the impact is reflected in the change in assumptions.

Manitoba Hydro recognizes an asset retirement obligation for the removal and disposal of PCB – contaminated fluid in equipment. The estimated undiscounted cash flows required to settle the asset retirement obligation are approximately \$16-million (2023 – \$17-million), which is expected to be incurred by 2026.

13. Asset Retirement Obligations (continued)

No funds are being set aside by Manitoba Hydro to settle the asset retirement obligations. The discount rates used by Manitoba Hydro determine the fair market value of asset retirement obligations was 4.18% (2023 – 3.30% to 3.66%).

14. SIGNIFICANT TRANSACTIONS WITH GOVERNMENT BUSINESS ENTERPRISES

Transactions with GBEs are not eliminated for purposes of summary reporting because they are reported in these summary financial statements using the modified equity method of accounting. These financial statements include the following transactions between the Government and GBEs, which have not been eliminated:

A. ACCOUNTS RECEIVABLE AND LOANS AND ADVANCES

Amounts receivable includes receivables from GBEs as reported in Schedule 1 to the summary financial statements. Loans and advances to GBEs are reflected in Schedule 2 to the summary financial statements.

B. BORROWINGS ON BEHALF OF, AND AMOUNTS DUE FROM, MANITOBA HYDRO-ELECTRIC BOARD

The Government issues debt and subsequently, loans the funds to Manitoba Hydro. The Government records the transfer of funds, in Canadian currency, as a Loan Receivable from Manitoba Hydro. The Government pays the interest on the debt which is charged to the loan receivable. Payments by Manitoba Hydro on the debt are credited to the loan receivable.

The province enters derivative contracts to mitigate the risk against interest rate and foreign currency fluctuations.

The balance of the loan receivable on March 31, 2024, was \$24,428-million (2023 – \$24,421-million). For the year ended March 31, 2024, the Government paid \$849-million in interest on the Manitoba Hydro debt (2023 – \$842-million) and received \$849-million (2023 – \$842-million) in interest payments from Manitoba Hydro for the year ended March 31, 2024.

C. INVESTMENTS

MPI holds \$425-million (2023 – \$468-million) of provincial bonds and debentures with maturity dates ranging from 2024 to 2050 and interest rates ranging from 2.1% to 6.5 %.

Manitoba Hydro holds \$79-million of Provincial bonds and debentures with maturity dates ranging from 2028 to 2033 and interest rates ranging from 1.5% to 4.3%

D. WATER POWER RENTALS

Water power rental fees charged to Manitoba Hydro for \$51-million (2023 – \$71-million) are included in the Consolidated Statement of Operations under the fees and other revenue category. Water power rental rates are authorized by Regulation 25/88 and 197/2001 under The Water Power Act. Rentals are paid to the Government for the use of water resources in the operation of Manitoba Hydro's hydro-electric generating stations.

E. FEES ON GOVERNMENT GUARANTEES

Manitoba Hydro remitted \$117-million (2023 – \$118-million) to the Government based on the amount of their debt that is guaranteed by the Government. The fees are included in the Consolidated Statement of Operations under the Recovery from government business enterprises and other investment earnings category.

14. Significant Transactions with Government Business Enterprises (continued)

F. DRIVER LICENSING OPERATIONS

The Government, by agreement, paid \$40-million (2023 – \$40-million) to MPI for the management and administration of driver licensing. MPI, on behalf of the Government, collected driver licensing fees totaling \$29-million (2023 – \$28-million) and motor vehicle registration fees totaling \$174-million (2023 – \$173-million).

The fees received by the Government are included in the Consolidated Statement of Operations under the fees and other revenue category.

G. OTHER REVENUE

Manitoba Liquor and Lotteries Corporation provided \$5-million in funding to Shared Health for the year ended March 31, 2024 (2023 – \$5-million) for addictions and problem gambling services programs. In addition, the Corporation provided \$6-million (2023 – \$4-million) in funding to the Liquor, Gaming and Cannabis Authority of Manitoba and the Sport, Culture, Heritage and Tourism through the payment of annual licence fees and levies.

Manitoba Hydro paid the Government \$131-million (2023 – \$124-million) for corporation capital tax. MPI paid the Government \$48-million (2023 – \$45-million) for insurance premium tax. GBEs paid the Government a combined total of \$19-million (2023 – \$18-million) for Levy for Health and Education.

MPI paid Manitoba Health, Seniors and Long-Term Care \$25-million (2023 – \$28-million) to cover non-insured medical expenses.

These amounts are included in the Consolidated Statement of Operations under the fees and other revenue and other taxes categories.

15. EMPLOYEE FUTURE BENEFITS

	(\$ millions)	
	2024	2023
	Actual	Actual
Severance	497	493
Long-term disability income plan	50	49
Workers' compensation claims	77	71
Other	56	65
	680	678

The severance liability is valued using discount rates that range from 2.70% to 6.00% and salary increase rates that range from 2.00% to 4.47%. Unamortized actuarial gains and losses are amortized over the estimated average remaining service life (EARSLS). Periods range from 6 to 15.34 years. As of March 31, 2024, net unamortized gains were \$34-million (2023 – unamortized gains \$13-million).

The long-term disability income plan is valued using a discount rate of 4.00%. Actuarial gains and losses are recognized as income as they occur. Workers' compensation claims are recognized based on an actuarial valuation prepared for the Workers Compensation Board. The December 31, 2023, valuation was prepared using a discount rate of 5.75% (5.75% in prior valuation) and a salary increase rate of 4.00% (5.00% in prior valuation). Actuarial gains and losses are recognized as income as they occur.

16. EXPENSES IN EXCESS OF LEGISLATIVE AUTHORITY

The budget estimates presented on the Consolidated Statement of Operations is comprised of the department's estimated expenditures consolidated with the budgets of the controlled entities, except for GBE and GBP. The department's estimated expenditures exclude \$600-million in special warrants related to the departments. The original budget estimate of expenditures plus the \$600-million becomes the revised estimates which expenses in excess legislative authority are determined. Based upon the revised estimates, the following departments were over-expended on March 31, 2024:

PART A – OPERATING EXPENSE:

	(\$ millions)
Advanced Education and Training	7
Environment and Climate Change	7
Families	494
Health, Seniors, and Long-Term Care	10
Justice	180
Tax Credits	51

17. LIABILITY FOR CONTAMINATED SITES

The Government reports environmental liabilities related to the management and remediation of contaminated sites where the province is obligated to incur such costs. A contaminated sites liability of \$351-million (2023-\$364-million) has been recorded based on environmental assessments or estimations for those sites where an assessment has not been conducted.

As of March 31, 2024 the Government has identified 499 sites which require remediation from contamination.

The Government is responsible for the risk management and potential remediation of certain orphaned and abandoned mine sites that exist on Crown land. For most of these mine sites, the companies that caused the contamination no longer exist. The mining operations were primarily comprised of gold and other metals. The risk of contamination at these sites comes mainly from mine tailings and other contaminants that were left on site. The liability also includes sites associated with highway maintenance, airports, marines, landfills, sewage treatment facilities, commercial and industrial operations, parks, and other protected areas.

The nature of contamination includes petroleum hydrocarbons, polyromantic hydrocarbons, BTEX, toxic heavy metals, polychlorinated biphenyl, and other organic contaminants. The sources of contamination include above ground and underground fuel storage tanks, fuel handling, pipelines, chemical storage, by-product waste, metal-based paint, and the leaching of materials deposited in landfills. Sites often have multiple sources of contamination.

Where sites require ongoing remediation, monitoring, or maintenance all estimated future costs are discounted using the province's weighted average cost of capital. Remediation at three sites requires the operation of water treatment systems until 2060. The amount of undiscounted expenditures for the future operation of the water treatment systems, which have been discounted at 4.00% over the next 36 years, is \$153-million. The discount rate is based on the province's cost of borrowing. The assumed rate of inflation is 2%.

17. Liability for Contaminated Sites (continued)

Manitoba Hydro will incur future costs associated with the assessment and remediation of contaminated lands and facilities for the phase-out and destruction of polychlorinated biphenyl contaminated mineral oil from electrical equipment. A reasonable estimate of the associated costs, not already recognized as asset retirement obligations, cannot be made at this time. No provision has been included for these items as of March 31, 2024.

18. RELATED PARTY DISCLOSURES

A related party exists when one party could exercise control or shared control over the other. Related parties include key management personnel, their close family members, and the entities they control or have shared control over. Related party disclosures do not include inter-entity transactions and balances that are eliminated on consolidation, or those with entities accounted for under the modified equity method. Related party disclosures do not include restructuring transactions, disclosure of key management personnel compensation arrangements, expense allowances, and other similar payments routinely paid in exchange for services rendered.

Related party transactions are disclosed if they occurred at a value different from that which would have been arrived at if the parties were unrelated and the transaction has a material effect on the summary financial statements.

For the year ended March 31, 2024, there were no material related party transactions or balances to disclose.

19. CONTRACTUAL RIGHTS

The Government is involved in various contracts and agreements arising in the ordinary course of business. This results in contractual rights to economic resources, leading to both assets and revenue in the future. The total amounts outstanding from these agreements on March 31, 2024 are as follows:

(\$ millions)	2025	2026	2027	2028	2029	2030 and thereafter	Total
Federal transfers – Capital	327	345	360	12	1	0	1,045
Federal transfers – Operating	131	129	129	102	18	88	597
Lease and rental agreements	79	76	75	75	74	140	519
Other	21	21	21	22	22	282	389
Total	558	571	585	211	115	510	2,550

Under section 22(4) of The Manitoba Liquor and Lotteries Corporation Act, the province is entitled to receive the net revenue from the Manitoba Liquor and Lotteries Corporation. The future amounts to be received are unknown, so they have not been included in the table above. These contractual rights could be significant.

The contractual rights for waterpower rentals included in lease and rental agreements has been estimated using the current year's revenue for the next six years. This contract has no expiration date and amounts beyond 2030 may be significant. Contractual rights amounts relating to provincial park land leases with cottagers included in lease and rental agreements have been calculated based on the current year revenue for the next six years. These lease agreements have various expiration dates, however, the amounts beyond 2030 are not included and these future amounts could be significant.

19. Contractual Rights (continued)

The Government is also entitled to receive investment revenue from various investments held in irrevocable trusts by The Winnipeg Foundation. The amount of revenue to be received is unknown and dependent on the rate of return earned on the investments.

Manitoba Hydro has dependable export sales contracts to U.S. and Canada totaling approximately \$8.5-billion expiring in 2052/53. Dependable sales are export contracts sourced from Manitoba Hydro's hydraulic energy available during lowest water conditions.

20. RESTATED BUDGET

The restated budget presented on the Consolidated Statement of Operations is taken from Budget 2023 as presented to the Legislative Assembly on March 7, 2023 and restated for comparability to the current year results. Refer to Schedule 10 for further details. The restated amounts do not include other authorizations granted in the special warrants of \$600-million.

21. COMPARATIVE FIGURES

On October 18, 2023, the Government announced organizational changes that resulted in certain functions being transferred between departments. As a result, certain 2023, financial statement balances have also been reclassified to be presented on the same basis as the 2024 results.

SCHEDULE 1

Province of Manitoba debt issues held as investments in sinking funds and in cash and cash equivalents.....						(194)	(1,002)
Unrealized Remeasurement Foreign Exchange Gains/Losses.....						229	229
						60,612	57,519
Public debt is comprised of:							
Taxpayer-supported debt.....						36,214	33,098
Borrowings on behalf of Manitoba Hydro-Electric Board.....						24,398	24,421
						60,612	57,519

Public debt payable in	March 31/24	March 31/23
	Cdn \$ Valuation (See Notes)	Cdn \$ Valuation (See Notes)
Canadian dollars	47,365	45,167
Foreign issues hedged to Canadian dollars	11,408	10,243
U.S. dollars	542	540
Issues hedged to U.S. dollars	1,297	1,569
Total public debt	<u>60,612</u>	<u>57,519</u>

Note a: The hedges are derivative contracts which include swaps and forward foreign exchange contracts.

Note b: The Canadian dollar valuation is calculated using the foreign currency exchange rates in effect at each March 31 adjusted for any forward current exchange contracts entered into for settle after year

Note c: Interest rates on these borrowings fall into one of three categories:

- i) Fixed with rates ranging from 2.05% to 10.68%.
- ii) Floating Canadian - Bankers Acceptance (BA) setting, established quarterly or monthly, with the lowest rate currently set at 5.10% and the highest set at 6.73% as at March 31, 2024.
- iii) Floating Canadian - Canadian Overnight Repo Rate Average (CORRA) setting, established daily, with the lowest rate currently set at 5.57% and the highest set at 6.22% as at March 31, 2024.

Total public debt includes foreign currency denominated debt that is fully hedged by converting the foreign currency payments into Canadian dollars. These currency hedges are used to mitigate the impact of future exchange rate fluctuations on the Province's borrowing costs. These hedging instruments are reported as derivative financial instruments in Note 12 - Risk Management. The currency translation on the hedged debt resulted in an accumulated foreign exchange loss of \$229-million as at March 31, 2024.

Total public debt also includes USD denominated debt that has not been hedged to Canadian Dollars. The currency translation on the un-hedged USD debt resulted in an unrealized foreign exchange loss of \$104-million as at March 31, 2024.

The currency translation on the hedged and un-hedged debt resulted in a cumulative unrealized loss of \$333-million as at March 31, 2024.

SCHEDULE 5

SUMMARY FINANCIAL STATEMENTS

CONSOLIDATED STATEMENT OF ACCOUNTS PAYABLE, ACCRUED CHARGES, PROVISIONS AND UNEARNED REVENUE

As at March 31, 2024*

Note A: Post-Secondary Education plans include the University of Manitoba Pension Plans, the University of Winnipeg Pension Plan and the Brandon University Retirement Plan.

Public School Division plans include the Winnipeg School Division Pension Fund for Employees Other Than Teachers, Retirement Plan for Non-Teaching Employees of the St. James-Assiniboia School Division, Retirement Plan for Employees of Frontier School Division and The School District of Mystery Lake No. 2355 Pension Plan.

Other plans include the Members of Legislative Assembly Pension Plan, the Legislative Assembly Pension Plan, the Judges' Supplemental Pension Plan, and the Winnipeg Child and Family Services Employee Benefits Retirement Plan.

Note B: For those plans that the Government is unable to access surplus funds within the plan, adjustments are made to record an allowance against these surplus amounts. These pension surplus allowances represent the excess of the adjusted benefit asset over the employers' share of the expected future benefit.

Note C: The latest actuarial valuation report dates and the estimated average remaining service life (EARSL), in years, are as follows:

	<u>Valuation Date</u>	<u>EARSL</u>
- Civil Service Superannuation Plan.....	Dec-22	10.0

Total Expenses	21,877	-	-	863	22,740
OPERATING SURPLUS (DEFICIT) FOR THE YEAR	(363)	-	-	-	(363)

Note a: In addition to government ministries, separate "service headings" exist to provide expenditure authority for programs that are delivered by a number of ministries, where it is desirable to know the total amount allocated to the program, or where the allocation to various ministries is not known at the time of printing the budget. In some cases funding is allocated, as required, from Enabling Appropriations to ministries by the Minister of Finance under authority granted by section 33 of The Financial Administration Act. This restatement has no impact to the total budgeted revenue, expenses and operating surplus/(deficit).

Note b: On October 18, 2023, the Province announced organizational changes that resulted in transfers of certain functions between departments. This restatement has no impact to the total budgeted revenue, expenses and operating surplus/(deficit).

Note c: An accounting presentation change for the debt servicing recoveries from Manitoba Hydro has resulted in an \$863 million restatement in revenue and expenses compared to the amount presented as part of the Summary Budget in March 2023. The presentation change has no impact to the operating surplus/(deficit).

INDEPENDENT AUDITOR'S REPORT

To the Legislative Assembly of the Province of Manitoba

Opinion

We have audited the accompanying Fiscal Stabilization Account “Rainy Day Fund” Statement of Transfers and Account Balance of the Province of Manitoba (“the Province”) for the year ended March 31, 2024 (“the statement”).

In our opinion, the financial information in the statement of the Province of Manitoba for the year ended March 31, 2024 is prepared, in all material respects, in accordance with Note 2 to the statement.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Statement section of our report. We are independent of the Province in accordance with the ethical requirements in Canada that are relevant to our audit of the statement, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter - basis of accounting

We draw attention to Note 2 to the statement, which describes the basis of accounting. The statement is prepared to assist the Province to meet the requirements of Section 65(1)(b) of *The Financial Administration Act*. As a result, the statement may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Other matter – supplementary information

We draw attention to the fact that the supplementary information included in The Schedule of Supplementary Information does not form part of the financial statements. We have not audited or reviewed this supplementary information and, accordingly, we do not express an opinion, a review conclusion or any other form of assurance on this supplementary information.

Other information

Management is responsible for the other information. The other information comprises the information included in the Province of Manitoba Annual Report and Public Accounts (“annual report”), but does not include the statement and our auditor’s report thereon.

Our opinion on the statement does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the statement, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the statement or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained the annual report prior to the date of this auditor’s report. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor’s report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the statement

Management is responsible for the preparation of this statement in accordance with Note 2, and for such internal control as management determines is necessary to enable the preparation of the statement that are free from material misstatement, whether due to fraud or error.

Those charged with governance are responsible for overseeing the Province’s financial reporting process.

Auditor’s responsibilities for the audit of the statement

Our objectives are to obtain reasonable assurance about whether the statement as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this statement.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Province's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

For the Year Ended March 31, 2024

	(\$ thousands)	
	2024	2023
Transfer to Core Government operations	-	-
Account Balance, beginning of year	<u>585,000</u>	<u>585,000</u>
Account Balance, end of year	<u>585,000</u>	<u>585,000</u>

Notes:

1. The Fiscal Stabilization Account is also known and commonly referred to as the Rainy Day Fund. The Fiscal Stabilization Account was established under the authority of subsection 26.1(1) of The Financial Administration Act. The Fiscal Stabilization Fund established under The Fiscal Stabilization Fund Act is continued as the Fiscal Stabilization Account. The legislated purpose of the Account is to assist in stabilizing the fiscal position by supporting core government operations in a fiscal year or to repay debt. Under subsection 26.1(3) the Minister of Finance, with the approval of the Lieutenant Governor in Council, may deposit in the Account any part of the revenue or other financial assets received in the core government in any fiscal year. Under subsection 26.1(4), the Minister of Finance may, with the approval of the Lieutenant Governor in Council, transfer all or part of the Account balance to the core government.
2. Transactions in the Fiscal Stabilization Account are accounted for on an accrual basis and reflect the transfers made under Section 26.1(3) and 26.1(4) of The Financial Administration Act. Transfers are determined by the Minister of Finance and are authorized with an Order in Council. The report on these transactions is made in accordance with Section 65(1)(b) of The Financial Administration Act.
3. Subsection 26.1(2) of The Financial Administration Act stipulates that the Minister of Finance shall make every effort to ensure that the balance of the Account at the end of each fiscal year is at least 5% of the core government expenditures for that year.

* Refers to the Fiscal Stabilization Account established under The Fiscal Stabilization Fund Act

Operating Surplus (Deficit)	<u>(363)</u>	<u>(1,971)</u>	<u>373</u>
Less adjustments:			
1) Manitoba Hydro Net Result	(450)	172	(638)
Deficit balance for the purposes of The Fiscal Responsibility and Taxpayer Protection Act	<u>(813)</u>	<u>(1,799)</u>	<u>(265)</u>
Baseline Deficit*	<u>(1,516)</u>	<u>(1,516)</u>	<u>(1,516)</u>
* Baseline Deficit, March 31, 2023	(1,516)		
Annual Reduction	-		
Baseline Deficit, March 31, 2024	<u>(1,516)</u>		

NOTE 1: The Fiscal Responsibility and Taxpayer Protection Act requires the government not to incur a deficit greater than the baseline amount and penalizes ministers by reducing their salaries if this requirement is not met. Amendments to the Act received Royal Assent on May 20, 2021 that reset the baseline amount to be the deficit calculated in accordance with provisions of the Act for fiscal year 2021. In subsequent years, the baseline amount is reduced by 1/8 of the 2020/21 deficit. For the fiscal year 2024, the baseline amount is \$1,516-million.

NOTE 2: The Act requires the government to withhold 20% of the ministerial salaries. This percentage will increase to 40 per cent if the government has a deficit exceeding the baseline amount for two consecutive years. The withheld amounts will be paid back to the ministers if there is no deficit incurred or if the deficit is below the baseline amount by 1/8 of the 2020/21 deficit or more. For other deficits less than the baseline amount, the repayment amount will be prorated.

INDEPENDENT AUDITOR'S REPORT

To the Legislative Assembly of the Province of Manitoba
To the Minister of Health

Opinion

We have audited the Statement of Expenditures for Hospital, Medical, and Other Health Services under the Manitoba Health Services Insurance Plan ("the Plan") for the year ended March 31, 2024 ("the financial statement").

In our opinion, the financial information in the financial statement of the Plan for the year ended March 31, 2024 is prepared, in all material respects, in accordance with Section 6(1) of *The Health Services Insurance Act*.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statement* section of our report. We are independent of the Plan in accordance with the ethical requirements in Canada that are relevant to our audit of the financial statement, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter: basis of accounting

We draw attention to the financial statement, which describes the basis of accounting. The financial statement is prepared to assist the Plan to meet the requirements of Section 6(1) of *The Health Services Insurance Act*. As a result, the financial statement may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Responsibilities of management and those charged with governance for the financial statement

Management is responsible for the preparation of this financial statement in accordance with Section 6(1) of *The Health Services Insurance Act*, and for such internal control as management determines is necessary to enable the preparation of the financial statement that is free from material misstatement, whether due to fraud or error.

Those charged with governance are responsible for overseeing the Plan's financial reporting process.

Auditor’s responsibilities for the audit of the financial statement

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statement.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

STATEMENT OF EXPENDITURES FOR HOSPITAL, MEDICAL, AND OTHER HEALTH SERVICES UNDER THE MANITOBA HEALTH SERVICES INSURANCE PLAN

As required by section 6(1) of the Health Services Insurance Act
For the Year Ended March 31, 2024

	2024	2023
Hospital Services	\$4,131,729,102	\$3,910,085,395
Medical Services	1,876,994,322	1,571,404,556
Other Health Services	56,936,946	50,807,952

The table above summarizes all expenses incurred for services received and are recognized at a gross amount on an accrual basis under the Manitoba Health Services Insurance Plan during the fiscal year.

Grants paid to the Health Authorities are recognized as expenses in the period the transfer is authorized, any eligibility criteria are met, and the amount can be reasonably estimated.

Hospital service payments include services that an insured person is entitled under the Plan to receive at any hospital, surgical facility or personal care home without payment except for any authorized charges that he or she may be liable to pay are:

- in-patient services and out-patient services in a hospital and out-patient services in a surgical facility
- such services in a hospital as may be specified in the regulations as being additional hospital services that an insured person is entitled to receive under the Plan
- subject to any special waiting period in respect of personal care prescribed in the regulations, and subject to meeting the admission requirements for the personal care home personal care provided in premises designated as personal care homes

Medical service payments include all services rendered by a medical practitioner that are medically required but does not include services excepted by the regulations.

Other health service payments include chiropractic, optometric, or midwifery services, or to services provided in hospitals by certified oral surgeons, or to the provision of prosthetic orthotic devices, or to any or all of those services.

REPORT OF INCOME FROM CROWN AGENCIES

As Required by Section 52.27.1(1) of The Legislative Assembly Act
Issued Relative to the Year Ended March 31, 2024

PAYMENTS TO MLAs FROM CROWN AGENCIES

The reported amounts do not include remuneration or expenses received by the MLAs during the fiscal year for duties performed as a board member of a Crown agency. These amounts, as reported to the Minister of Finance pursuant to Section 52.27.1(1) of The Legislative Assembly Act, are as follows:

NORTHERN AFFAIRS FUND

MANAGEMENT REPORT

The accompanying financial statements are the responsibility of management and have been prepared in accordance with the Canadian public sector accounting standards as stated in the notes to the financial statements. In management's opinion, the financial statements have been properly prepared within reasonable limits of materiality, incorporating management's best judgement regarding all necessary estimates and all other data available.

Management maintains internal controls to provide reasonable assurance that the financial information is reliable and accurate, and that the assets of the Fund are properly safeguarded.

The responsibility of the Auditor General for Manitoba is to express an independent professional opinion as to whether the financial statements are presented fairly in all material respects.

The Executive Financial Officer has reviewed and approved these financial statements.

On Behalf of Management

"Original Signed By"

Mike Sosiak
Assistant Deputy Minister / Executive Financial Officer
Manitoba Municipal and Northern Relations

INDEPENDENT AUDITOR'S REPORT

To the Minister of Indigenous Reconciliation and Northern Relations
To the Legislative Assembly of Manitoba

Opinion

We have audited the financial statements of Northern Affairs Fund, which comprise the statement of financial position as at March 31, 2020, and the statement of operations and accumulated surplus/deficit, statement of change in net financial assets/net debt, statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Northern Affairs Fund as at March 31, 2020, and the results of its operations, changes in its net debt, and its cash flows for the year then ended in accordance with Canadian public sector accounting standards (PSAS).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of Northern Affairs Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PSAS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing Northern Affairs Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless an intention exists to liquidate Northern Affairs Fund or to cease operations, or there is no realistic alternative but to do so.

Those charged with governance are responsible for overseeing Northern Affairs Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Northern Affairs Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Northern Affairs Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, Northern Affairs Fund's scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NORTHERN AFFAIRS FUND

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 2020

1. Purpose of the Organization

The purpose of the Northern Affairs Fund (the Fund) is to administer trust funds on behalf of the designated communities and administer the property tax system within the jurisdiction of the Department of Municipal and Northern Relations (as of the audit report date they report to the Department of Indigenous Reconciliation and Northern Relations) in compliance with *The Northern Affairs Act*.

a) Specific Purpose Funds Account

Used to account for all monies advanced to the Minister of Indigenous and Northern Relations to provide financial services to community councils in northern areas of Manitoba.

b) Taxation Fund Account

Levies property and business taxes based on real property assessments and remits the tax requirements to school divisions and The Public Schools Finance Board. Taxes collected for local purposes in the communities are remitted to the community councils when collected.

2. Summary of Significant Accounting Policies

a) Basis of Accounting

The financial statements of the Fund are prepared by management in accordance with Canadian Public Sector Accounting Standards established by the Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada.

b) Revenues and Expenses

- I. Revenue and expenses are recognized in the period in which the transaction or events occurred. Revenue and expenses are recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impractical.
- II. Interest revenue earned on short-term deposits is recognized in the period in which the transaction occurred and recorded on an accrual basis.
- III. Tax revenues from property tax assessments, including interest & penalties on overdue payments, are recorded in the year earned and are recorded net of the education property tax credit advance. Transfers made through the tax system are recorded as an expense. Due to the timing differences between the entity's fiscal year and the tax calendar year, receivables are accrued based on the tax assessments of the subsequent tax year.

c) Government Transfers

Government transfers are recognized in the Fund's financial statements as expenses or revenues in the period that the events giving rise to the transfer occurred as long as the transfer is authorized, eligibility criteria, if any, have been met by the recipient, and a reasonable estimate of the amount can be made.

NORTHERN AFFAIRS FUND

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 2020

d) Construction in Progress

Construction in Progress represents purchased or constructed assets and is recorded at cost. When the asset is ready to be put into use for the community, the asset is authorized as completed and the project is closed. Subsequently the closed project/asset is transferred to the community by clearing through the Community Council Funds specific purpose account.

e) Cash and Cash Equivalents

Cash and cash equivalents include cash and short-term deposits with maturities of three months or less from the deposit date and are held for meeting short-term commitments rather than for investing.

f) Financial Instruments

Financial instruments are classified into one of the two measurement categories; (a) fair value; or (b) cost or amortized cost. Financial instruments including cash and cash equivalents, accounts receivable and other receivables – Province of Manitoba, accounts payable and loans payable – Province of Manitoba are recorded at cost.

Gains and losses on financial instruments measured at fair value are recorded in accumulated surplus as re-measurement gains and losses until recognized. Upon disposition of the financial instruments, the cumulative re-measurement gains and losses are reclassified to the Statement of Operations and Accumulated Deficit.

As at March 31, 2020, the Fund does not have any financial instruments measured at fair value. Gains and losses on financial instruments measured at cost or amortized cost are recognized in the Statement of Operations and Accumulated Deficit in the period the gain or loss occurs.

The Fund did not incur any re-measurement gains and losses during the year ended March 31, 2020.

g) Allowance for Uncollectible Taxes and Grants in Lieu of Taxes

The allowance for uncollectible taxes and grants in lieu of taxes consist of tax cancellations relating to specific tax rolls and an estimate of uncollectible accounts based on the history of tax collections.

h) Measurement Uncertainty

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and contingent liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from management's best estimate as additional information becomes available in the future.

i) Administrative Support

The Department of Indigenous and Northern Relations provides administrative services at no charge to the Fund. The cost of these services for the year ended March 31, 2020, is estimated to be \$ 276,110.48 (2019 \$254,239.23).

NORTHERN AFFAIRS FUND

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 2020

j) Budget

The statement of operations and accumulated surplus and the statement of change in net financial assets do not present budgeted financial results due to the nature of the Northern Affairs Fund, which administers the funds on behalf of designated communities. The Northern Affairs Fund is not an entity, but a fund account created under The Northern Affairs Act for the benefit of Northern Affairs communities. The fund does not prepare nor approve budget information to compare to the actual funding it received and the disbursement it paid for as this information is a requirement and presented in the individual Northern Affairs community's audited financial statements.

3. Cash and Cash Equivalents

	<u>2020</u>	<u>2019</u>
Cash – Specific Purpose Funds	\$ 9,470,455	\$ 8,675,459
Cash – Taxation Fund	100,200	100,200
Investments Payable to Communities	390,928	868,875
Cash Equivalents	3,899,971	3,853,194
	<u>\$ 13,861,554</u>	<u>\$ 13,497,728</u>

Cash equivalents are 90-day callable deposits with an interest rate in range of 1.60%-1.76% and within the Province of Manitoba trust account. Deposits are normally held to maturity, but if early withdrawal is required the interest rates are applicable up to date of withdrawal.

4. Accounts Receivable

	<u>2020</u>	<u>2019</u>
Accounts receivable - Province of Manitoba (Specific purpose fund)	\$ 1,074,773	\$ 155,161
Accounts receivable - Taxation Fund (Note 5)	1,953,447	1,977,735
Taxation Fund Receivable	620	29,804
	<u>\$ 3,028,840</u>	<u>\$ 2,162,700</u>

5. Accounts Receivable-Taxation Fund

	<u>2020</u>	<u>2019</u>
Taxes Receivable, End of year	\$ 4,002,996	\$ 3,837,237
Allowance for Doubtful Accounts	(2,091,296)	(1,909,023)

Other Receivables – Province of Manitoba	41,747	49,521
	<u>\$ 1,953,447</u>	<u>\$ 1,977,735</u>

6. Accounts Payable

	<u>2020</u>	<u>2019</u>
Accounts Payable - Specific Purpose Funds		
Accrued Liabilities	\$ 1,056,674	\$ 801,403
Interest Payable	-	816,322
Invested Community /Reserves Payable	390,928	868,875
Accounts Payable-Taxation Fund	\$8,841	1,016
	<u>\$ 1,456,443</u>	<u>\$ 2,487,616</u>

NORTHERN AFFAIRS FUND

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 2020

7. Loans Payable

The government of Manitoba approved discontinuing the use of Loan Act borrowings for capital projects in Northern Affairs communities and increased its Capital Grants budget in operating expenditures as the funding source for these projects. The outstanding principal loan of \$24.9M was paid off in fiscal year 2019/20.

Loans from the Province of Manitoba include the following:

	<u>2020</u>	<u>2019</u>
Loan Act Balance	-	\$ 25,823,703

8. Construction in Progress

	<u>2020</u>	<u>2019</u>
Balance, Beginning of Year	\$ 627,275	\$ 3,868,888
New Construction Costs	690,714	489,525
Closed Projects	(576,605)	(3,731,138)
Balance, End of Year	<u>\$ 741,384</u>	<u>\$ 627,275</u>

9. Northern Affairs Fund – Specific Purpose Funds

The Northern Affairs Fund administers the following Specific Purpose Funds:

Indigenous and Northern Affairs Communities:

Community Council Funds – The Department of Municipal Relations provides funding to support communities in the Indigenous and Northern Affairs jurisdiction for the operation, maintenance, and construction of their municipal infrastructure.

Community Capital Support – The Department of Municipal Relations provides funding to satisfy principal and interest due on loans payable to the Province of Manitoba (community capital funding source). For fiscal year 2019/20 the use of Loan Act borrowings for capital projects in Northern Affairs communities was discontinued and the remaining \$24.9M principal loan was paid off by the province.

Cottage Administration Fees:

Cottage Administration Fees – A portion of funds from the cottagers' levy are set aside within the specific purpose fund to provide administrative support to cottage areas.

Indigenous and Northern Affairs:

Departmental Revenue/Transfer Payments – Revenue received from a variety of sources by the Department of Indigenous Reconciliation and Northern Relations is transferred to the consolidated fund of the Province of Manitoba.

RBC Payment Distribution – The Department of Municipal Relations covers the costs for electronic bank transfer services for payroll cheques for communities and programs where funds are administered in trust.

NORTHERN AFFAIRS FUND

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 2020

Fire Training – The Department of Municipal Relations provides funding for community fire training requirements identified as a result of the Fire Program Review.

Sturgeon Landing Road – The Department of Municipal Relations provides funding to maintain the Sturgeon Landing Road and recovers 50% of the costs from the Saskatchewan Provincial Government.

Community Ergonomics – The Department of Municipal Relations funding as per Workplace Safety and Health Regulation 217/2006 to assist community councils with developing a Community Ergonomic Plan (CEP).

Northern Ministers Development Forum – The Department of Municipal Relations and other provincial governments provide funding for a special project on Maximizing the Economic and Social Impacts from Major Projects in the North.

Workplace Safety and Health Training – The Department of Municipal Relations provides funding for community workplace safety and health program training requirements.

Community Clerk Workshop – The Department of Municipal Relations provides funding to support training and development of the Community Administrative Officers and support staff.

Water Operator Certification – The Department of Municipal Relations provides funding for community water/wastewater plant operator certification.

Water Treatment Plant Assessments – The Department of Municipal Relations provides funding of engineering assessments on all water treatment plants within Indigenous and Northern Affairs jurisdiction to meet legislated requirements.

Surveys – The Department of Municipal Relations provides funding to conduct land surveys within the communities.

Resource Management Boards – The Department of Municipal Relations provides funding to resource management boards for land use planning activities.

Resource Management Boards Wildlife Projects – The Department of Municipal Relations provides funding for wildlife projects under the resource management boards for polar bear and caribou activities.

Hollow Water Waste Disposal Site – Communities in the Indigenous and Northern Affairs jurisdiction provide funding for the operations and maintenance for a regional waste disposal site for Hollow Water, Manigotagan, Bissett, Aghaming and Seymourville.

911 Emergency Services - The Department of Municipal Relations provides support to implement the 911 emergency response systems in Indigenous and Northern Affairs Communities.

Bluff Road – The Department of Aboriginal and Northern Affairs provides funding to maintain the Bluff Road.

Municipal Relations:

General Assistance Grant – The Department of Finance provides funding through the distribution of tax revenue on a per capita basis (based on the most recent census) to support municipal services.

NORTHERN AFFAIRS FUND

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 2020

Municipal Programs Grant – The Department of Municipal Relations provides unconditional funding to support municipal services.

Department of Families:

Building Independence Program – The Department of Families provides funding to support a program directed at providing work experience for recipients of social assistance living in Indigenous and Northern Affairs communities.

Federal Government:

Federal Gas Tax – Funds provided through the Department of Municipal Relations to support community infrastructure projects within the jurisdiction of Indigenous and Northern Affairs.

Cottage Subdivision Funds:

Northern Affairs Levy – Funds levied to provide municipal services to unassessed cottage properties within the Indigenous and Northern Affairs jurisdiction.

Manitoba Hydro:

MB Hydro Historic Resources Trust – Manitoba Hydro provides funding to the Historic Resources Branch of Manitoba Sport, Culture and Heritage for the three archaeological agreements - Churchill River Diversion Sipiwesk Lake and 'Systems Wide' to establish heritage resource impact assessment (HRIA) processes under the *Heritage Resources Act*.

SWAP 2006 – Manitoba Hydro provides funding to support the system-wide archaeological project.

Specific Purpose – Various:

Nelson House Claims Account – Manitoba Hydro and the Department of Municipal Relations provide funding for the Nelson House Community Settlement Agreement.

Sturgeon Management Program – Manitoba Hydro and the Department of Municipal Relations provide funding for the operation of the Sturgeon Management Board.

Northern Healthy Foods Initiative – The Department of Municipal Relations in partnership in MAFRI and Healthy Living and Healthy Child Manitoba provide funding to assist northern communities with their food self-sufficiency projects.

Treaty Land Entitlement – The Federal Government provides funding for photogrammetric land surveys to support and expedite the Treaty Land Entitlement process.

OPCN/CUFMA – The Department of Municipal Relations had completed a multi-year Capital Upgrading Funding Management Agreement (CUFMA) to support the conversion of South Indian Lake to a federal reserve for the O-Pipon-Na-Piwin Cree Nation (OPCN) in 2013/14 and continued to provide funding to support the implementation of the reserve conversion.

MMF Historical Research/Tripartite – The Department of Municipal Relations has an agreement with the Government of Canada and the Manitoba Metis Federation to provide funding for this historical research

NORTHERN AFFAIRS FUND

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 2020

project, an initiative under the Manitoba Metis Policy.

Consultation Unit – The Department of Municipal Relations provides funding to assist with the Crown-Indigenous consultation process.

Property Tax Enhancement – The Taxation Fund Account transfers any cash in excess of \$100,100 as at March 31, 2020 as a contribution to remote communities. In addition, other governmental departments and organizations provide funding to enhance community programs.

10. Inter-fund Transfers

A maximum cash balance of \$100,100 is retained in the Taxation Fund Account as at March 31 of each year to cover current needs. Cash in excess of \$100,100 is transferred from the Taxation Fund Account to the Specific Purpose Funds Account as a contribution to costs incurred by the fund in providing services in remote areas which do not have a local government to provide these services. The amount of excess at March 31, 2020 was \$89,329 (2019 \$124,228). The transfer of \$89,329 from the Taxation Fund Account to the Specific Purpose Funds Account is excluded from accounts receivable & accounts payable on the Statement of Financial Position and revenue & expenses on the Statement of Operations and Accumulated Deficit.

11. Community Council Funds Revenue

Community Council Fund Revenue includes the following:

	<u>2020</u>	<u>2019</u>
Province of Manitoba, Department of Municipal Relations	\$ 39,398,523	\$ 12,737,402
Locally generated revenue	1,350	-
Municipal tax collections transferred from Taxation Fund Account	561,904	377,730
Department of Agriculture, Food and Rural Initiatives, hay and grazing rental transferred from taxation Fund Account	34,785	29,707
	<u>\$ 39,996,562</u>	<u>\$ 13,144,839</u>

12. Public Sector Compensation Disclosure Act

In accordance to the Public Sector Compensation Disclosure Act the Northern Affairs Fund shall disclose to the public an amount of compensation it pays or provides in the fiscal year to any member of council, officer or employee of the communities if the amount paid is \$75,000 or more annually. For the year ended March 31, 2020:

- a) There were no members of the council, officers, or employees of the communities receiving compensation of \$75,000 or more individually.
- b) The aggregate compensation paid to all Trust communities contact persons was \$12,075 in 2020 and \$11,615 in 2019 as follow:

<u>Community</u>	<u>2020</u>	<u>2019</u>
Aghaming	1,380	1,265
Baden	1,495	1,610
Granville Lake	-	-
Herb Lake Landing	1,380	690

NORTHERN AFFAIRS FUND

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 2020

Loon Straits	1,265	1,265
Powell	1,380	1,380
Princess Harbour	1,380	1,265
Red Deer Lake	1,380	1,495
Red Sucker Lake	1,035	1,265
Salt Point	1,380	1,380
Total	\$ 12,075	\$ 11,615

13. Related Party Transactions

The Minister of Indigenous Reconciliation and Northern Relations has control of the Northern Affairs Fund. Key management personnel and their close family members are related parties. They are identified as the Minister and Deputy Minister of Indigenous Reconciliation and Northern Relations, and their spouses, and any controlled business.

Related party transactions are recorded at the exchange amount. Material transactions, in aggregate, or balances are disclosed separately. Indigenous Reconciliation and Northern Relations administrative provides services to the Northern Affairs Fund at no charge. The cost of these services includes a portion of the salaries and benefits of departmental staff and other expenses. Management has not estimated the cost of these services and these unallocated costs are not recognized in the financial statements.

14. Contractual Obligations

As part of operations, Indigenous Reconciliation and Northern Relations entered into agreements with Manitoba Sustainable Development (now Conservation and Climate) on October 25, 2016, to allow Indigenous Reconciliation and Northern Relations to access the Cuprus sewage lagoon for the disposal of wastewater and sewage generated from cottagers located in the Bakers Narrow area within Indigenous Reconciliation and Northern Relations' jurisdiction. The agreement expires on October 31, 2026. Pursuant to the agreement, Indigenous Reconciliation and Northern Relations must pay a total of \$414,373 to Manitoba Conservation and Climate. Payments are made on monthly basis from the Northern Affairs Fund as customers pay their share of the fee. The full balance is due by October 31, 2026.

15. Financial Risk Management

The Northern Affairs Fund has exposure to the following risks from its use of financial instruments: liquidity risk, interest rate risk, credit risk and currency risk.

Liquidity risk

Liquidity risk arises from the possibility of the Northern Affairs Fund having insufficient financial resources to meet its financial obligations when they come due.

The Northern Affairs Fund mitigates this risk through cash management. The Northern Affairs Fund continuously monitors and reviews both actual and forecasted cash flows through periodic financial reporting. Accounts payable are typically paid.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to cash and cash equivalents

NORTHERN AFFAIRS FUND

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 2020

and loans payable – Province of Manitoba.

The interest rate risk on cash and cash equivalents is considered low due to their short-term nature.

Credit risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to the counter-party. The financial instruments that potentially subject the Northern Affairs Fund to credit risk consist principally of cash and cash equivalents, accounts receivable – Province of Manitoba, and accounts receivable – Taxation Fund.

The maximum exposure of Northern Affairs Fund to credit risk at March 31st is:

	<u>2020</u>	<u>2019</u>
Cash and Cash equivalent (Note 3)	\$ 13,861,554	\$ 13,497,728
Account Receivable - Province of Manitoba (Specific Purpose Fund) (Note 4)	1,074,773	155,161
Accounts receivable - Taxation Fund (Note 5)	1,953,447	1,977,735
Other Receivables - Province of Manitoba (Note 5)	41,747	49,521
	<u>\$ 16,931,521</u>	<u>\$ 15,680,145</u>

Cash in bank: The Northern Affairs Fund is not exposed to significant risk as the cash in the bank is held with a large Canadian financial institution.

Cash equivalents: The Northern Affairs Fund is not exposed to significant risks as the deposits are held within the Province of Manitoba's Trust account.

Accounts Receivable and Other Receivables – Province of Manitoba: The Northern Affairs Fund is not exposed to significant risk as the receivable is from the Province of Manitoba.

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency rates. The Northern Affairs Fund is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in foreign currency.

16. Deferred Revenue

The unused Loan Act fund \$1,624,686 due to delay in project progress was set up as deferred revenue (GL 2035) in Trust.

GLOSSARY OF KEY TERMS

Asset retirement obligations: Asset retirement obligations are legal obligations associated with the retirement of a tangible capital asset. Asset retirement activities include all activities relating to an asset retirement obligation. These may include, but are not limited to:

- Decommissioning or dismantling a tangible capital asset that was acquired, constructed or developed;
- Remediation (cleanup) of contamination of a tangible capital asset created by its normal use;
- Post-retirement activities such as monitoring; and
- Constructing other tangible capital assets to perform post-retirement activities.

Public Debt: Securities issued in the name of the province to capital markets investors. Securities include debentures, treasury bills, promissory notes, medium-term notes and Manitoba Savings Bonds.

Carrying Value: A measure of value for the assets presented on the Statement of Financial Position. The carrying value represents the asset value in cost, amortized cost, a mix of cost and fair value, net book value or net present value.

Cash equivalents: Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investing or other purposes.

Debt servicing cost: Interest and other expenses associated with provincial borrowings.

Derivative contract: Financial contracts, the value of which is derived from the value of underlying assets, indices, interest rates, or currency rates. They usually give rise to a financial asset of one party and a financial

liability or equity instrument of another party, require no initial net investment and are settled at a future date. A derivative contract has the following three characteristics:

- Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, or credit rating or other variable;
- It requires no initial net investment or the initial investment is smaller than would be required for other types of contracts that would be expected to have a smaller response to changes in market factors; and
- It is settled in the future.

Financial assets: Assets of the province such as cash, investments, loans and accounts receivable that could be readily converted to cash in order to pay the province's liabilities or finance its future operations.

Generally Accepted Accounting Principles (GAAP): Standard accounting practices and reporting guidelines as prescribed by the Chartered Professional Accountants of Canada.

Government Business Enterprises (GBEs): A government organization with the financial and operating authority to carry on a business, which sells goods or services to individuals and organizations outside the GRE and can maintain its business on those revenues.

Government Business Partnership (GBP): A government partnership with the financial and operating authority to carry on a business, which sells goods or services to individuals and organizations outside the GRE and can maintain its business on those revenues; governments include its proportionate share of the partnership only in the consolidated summary financial statements.

Government component: An integral part of government, such as a department or fund, that is not a separate entity with the power to contract in its own name and that can sue and be sued.

Government organization: Any organization controlled by a government that is a separate entity with the power to contract in its own name and that can sue and be sued (e.g., public sector organizations such as regional health authorities, school divisions, universities and colleges). See also ORE.

Government partnership: A contractual arrangement between the government and other partners to cooperate toward clearly-defined common goals, make a financial investment in the partnership, have shared control of the decision on an ongoing basis, and share, on an equitable basis, the risks and benefits of the partnership.

Government Reporting Entity (GRE): Includes government departments, organizations, business entities and partnerships; and other reporting entities.

Gross Domestic Product (GDP): Represents the total market value of all goods and services produced in the Manitoba economy.

Guarantees: Province's guarantee to honour the repayment of debt or loans of an organization, primarily GBEs (e.g., Manitoba Hydro Savings Bonds).

Financial instruments: They are any contracts that give rise to financial assets of one entity and financial liabilities or equity instruments of another entity.

Ministry: A grouping of government components, organizations and partnerships within a specific area of public administration that is presided over by a minister, not including GBEs and GBPs.

Net debt to GDP ratio: Ratio of government net debt relative to the total market value of all goods and services produced in the Manitoba economy. Net debt represents the total liabilities of the government minus its financial assets – a factor widely used by credit rating agencies and other analysts to evaluate the financial situation and trends of jurisdictions regarding their relative creditworthiness.

Non-financial assets: Includes physical items such as tangible capital assets (e.g., buildings and roads) and consumable goods (e.g., inventories not normally converted to cash).

Other Comprehensive Income (OCI): An accounting recognition of unrealized gains and losses in fair market value of financial instruments (e.g., investments held as available for sale or trading or debt held in a foreign currency). Currently, OCI accounting standards apply only to GBEs. It is measured as the change in "mark-to-market" valuations, interest rates, or foreign exchange rates at year end (e.g., a one-day snapshot of the change in value when compared to the same day in the previous year).

Other Reporting Entities (OREs): Entities in the GRE (e.g., government organizations, government business entities, and government partnerships), including public sector organizations such as regional health authorities, school divisions, universities and colleges that are directly or indirectly controlled by the government, as prescribed by the Public Sector Accounting Board – excludes government departments; see also Government Organization.

Pension liability: Outstanding actuarially-calculated pension liability of the government and participating government organizations; includes amounts funded through the voted appropriations of government departments, as well as the actuarially-determined increases in the pension liability.

Public Sector Accounting Standards (PSAS): Authoritative standards for financial accounting and reporting developed through an organized standard-setting process, and issued by a recognized standard-setting body, that specify how transactions and other events are to be recognized, measured, presented and disclosed in a public sector entity's financial statements. These standards are established to meet the needs of users of financial statements by providing the information needed for accountability and decision making. The standards are derived from the CPA Canada Public Sector Accounting (PSA) Handbook, which are accounting standards that apply to all public sector entities (e.g., governments, government organizations and certain government partnerships)

that issue general purpose financial statements, unless specifically directed or permitted to use alternative standards by the Public Sector Accounting Board.

Remeasurement gains and losses: Revenues and expenses recognized in the Consolidated Statement of Remeasurement Gains and Losses arising when prior to an item's settlement, an exchange gain or loss is recognized; and when financial instruments in the fair value category are remeasured.

Summary net debt: Represents the total liabilities of the GRE minus its financial assets; reflects the residual amount that will have to be paid or financed by future revenue.

Tangible Capital Assets (TCAs): Assets with a useful life extending beyond one year which are acquired, constructed or developed and held for use, not for resale.
